This compilation of theses and dissertations written for masters, specialists and doctorates at Atlanta University covers the period 1973-1975. It is Number 7 in the Library Publications series.

The list is arranged alphabetically by author, followed by two analyses: departmental listings and a subject analysis. Each entry is numbered, and the same numbers are used in the analyses. Each entry includes author, title, department of study, and date. Only in instances where the degree is other than a masters is this information given: Specialist, Ed.D., or Ph.D.

It is hoped that a cumulative index to all of the theses (1930 to date) will be available in the near future

A note of thanks is extended to Janis R. Gamble, Secretary to the University Librarian, for the final typing and revision of the compilation
