Normal Course.

This course consists of the ordinary Grammar-School branches and the studies of the first two years of the Higher Normal Course.

No examination for admission is required, but pupils will be classed according to their attainments.

This course is formed to meet the immediate demand for teachers throughout the State. A certificate of graduation will be given to those who complete this course.

Rhetorical exercises and weekly Bible lessons are required throughout all the courses.
GENERAL INFORMATION.

Membership.

For membership in the Institution a person must have a good moral character, and must sign a pledge to abstain from the use of all intoxicating drinks and tobacco in every form, while a member of the school.

Pupils from other schools must present certificates of honorable dismissal.

Applications for admission should be made at least a month before the beginning of the school year.

Pupils should enter the first day of the school year that they may be immediately classified, and thus lose no time. Students in regular classes lose their membership when absent any part of the year. Those pursuing a regular course are held amenable to the authority of the school during vacation, as well as during term time.

Those who have not a fixed purpose to improve their time, and an earnest desire to fit themselves for usefulness, should not seek admission, as the presence of such is not tolerated.

Student Aid.

Several students have been aided during past years by the Peabody Fund and contributions from the friends of popular education. It is expected that this help will be continued.

The only permanent fund is the "Plainfield Scholarship" of three hundred dollars.

Persons should not come to the school hoping to receive aid until they have applied for it, and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and, as far as possible, what pursuit they intend to follow.

It is expected that those who are aided will, when able, return the amount to aid others.
Music.

Instruction is given in both Vocal and Instrumental Music.

Biblical Instruction.

Special attention is given to instruction in the Bible in order to prepare students for work in Sunday Schools, and for other forms of Christian service.

Graves Library.

By the liberality of R. R. Graves, Esq., of New York, and a few other friends, the library now contains between two and three thousand volumes. Mr. Graves has also given a permanent endowment of five thousand dollars, which secures its steady growth.

In connection with the Library is a Reading Room, well supplied with the leading papers and periodicals of the country, and to both the students have free access.

Apparatus.

A good beginning has been made in procuring Philosophical Apparatus. A complete set of Surveyor's Instruments has also been procured. Additions will be made from time to time.

Teaching.

Nearly all of those who are sufficiently advanced in scholarship aid themselves by teaching. The demand for teachers is usually in excess of the supply.
County Superintendents of Schools, and others desiring teachers from this Institution, will find it for their interest to arrange their schools, if possible, so as to include its summer vacation, viz., the months of July, August and September. Communications from all such will be promptly attended to.

Students of this Institution, desiring to teach, will be furnished with certificates of membership and standing. As a means of protection from imposition, applicants for schools claiming to be from the Atlanta University should be required to exhibit such certificates.

Design.

It is expected that a majority of the students will engage in teaching, and instruction in all departments is adapted to that end. Earnest efforts are made to induce young men to prepare for the ministry.

The Institution stands on the broadest possible platform, and while intended to be thoroughly Christian, is in no respect sectarian. It offers its advantages to all of either sex, without regard to sect, race, color, or nationality.

It is desired to make the school, as far as possible, a home for those who attend. Not only their intellectual, but also their social, moral and religious culture, receive careful attention.

Wants.

The school being without endowments, is dependent upon the American Missionary Association for all support not derived from other sources. There is a pressing and immediate need of an addition to the Ladies' Hall.

Other needs are such as all young Colleges have—building, endowments, scholarships, reference books, maps, apparatus, &c.

It is hoped that the time is not far distant when funds will flow into the treasury of this Institution as freely as they do into those of colleges in other parts of the country.
Expenses.

Tuition and board, including furnished rooms, fuel, lights and washing, per month. $12.00
Tuition for day pupils, " " " 2.00
Instruction in Instrumental Music, " " " 2.00
Use of Instrument one hour a day, " " " 1.00

All payments must be made in advance on the first day of each month.
All pupils are required to work for the Institution at least one hour a day. This requirement makes the above low charges possible.
Remittances in payments of bills should be made by money-orders, drafts, in registered letters, or by express.
Make money-orders and drafts payable, during 1876-7, to E. A. Ware, and address all moneys to him. Receipts will be promptly returned.

Miscellaneous.

Each pupil should bring a Bible. It is needed for private reading, for the Sunday School, and for the weekly Bible lesson.
It is well to bring the text books formerly used.
All should be provided with warm clothing.
Young ladies should have rubbers and waterproofs.
Economy and good taste demand plain and simple clothing. Parents are urged to co-operate with teachers in seeing that none other is worn. No extra dress is required for the close of school.
Letters should be directed to Atlanta University, Atlanta, Ga.
Experience has taught that much evil comes from pupils receiving food from home. They are, therefore, not allowed to receive it. Friends will please not send it.
Students who do not board at their homes are not allowed to board out of the Institution, except by special permission.
Boarders are expected to furnish their own towels.
Keeping or using fire-arms on the premises is forbidden.
History.

Immediately on the close of the late war, the Freedman's Bureau, together with various Northern Aid Societies, began the work of education among the freed people of Georgia and adjoining States. By far the most prominent of these societies, was the American Missionary Association, which, for several years, supported nearly one hundred teachers in Georgia. It was early felt by these teachers, and by the officers of the Bureau and the Association, that a school for higher education was needed. Atlanta, because of its central and healthful location, was chosen as the best place for such a school.

In October, 1867, a Board of Trustees was formed, and a charter granted by the Superior Court of the county. Money was secured from the Bureau, and from other sources, and a site of about fifty acres, on high ground, in the western part of the city, was purchased. In June, 1869, the cornerstone of the first building was laid. During the summer the building was erected, and in October was occupied by the school. It is a plain, four-storied, brick building, containing sleeping-rooms for about forty pupils, and also parlor, dining-room, kitchen, &c. It was designed for a girls' dormitory, but during the first year, furnished all accommodations, both school and boarding, for the entire school. It was much crowded, and the inconvenience of this arrangement was very great. In August of 1870, another building of the same style, but larger, containing sleeping-rooms for about sixty boys, besides temporary school-rooms, was completed. In the summer of 1871 this building was enlarged by a wing, providing rooms for about forty pupils, and other school-rooms. This entire building is now heated by steam. The trustees hold about sixty acres of land and the above described buildings. It is hoped that the immediate future will see an addition to the Ladies’ Hall, and a central building containing chapel, library, laboratory, recitation and lecture-rooms.

The Legislature of Georgia, in 1870, appropriated to this school $8,000. The same amount was received in 1871 and in 1873. In 1874 a bill was almost unanimously passed making an annual appropriation of $8,000. This bill was entitled “An act equitably to adjust the claims of the colored people to a share of the Agricultural Land Scrip.” It made the appropriation on condition that the Board of Visitors of the University of Georgia should also visit this school; that the money should not be paid by the Governor till a commission of three members of the Faculty of the University
of Georgia had approved the plan of the Trustees for the expenditure of the money, and that the school should educate free of charge for tuition, one pupil for every member of the House of Representatives, to be nominated by the members. Although a vigorous effort has been made by the State School Commissioner, and others, for the past two years to repeal this bill, it is still in force.

At the time of the first appropriation, the Governor appointed a Committee, whose Chairman was Gov. Joseph E. Brown, to examine the school. The following are extracts from their report made in 1871:

"The Atlanta University was incorporated in the year 1867, and has now been in active operation about two years. Designed to afford opportunity for thorough education to members of a race only recently elevated to citizenship, and much of its prescribed curriculum of studies being of a higher grade than that of other institutions in the South, whose doors are opened to pupils of color, it is, in our section of the country, a novel enterprise, concerning the success and usefulness of which much interest is felt all over the Union.

"We, therefore, deemed it our duty, not only to give the examination the strictest attention, but also to carefully scrutinize everything pertaining to the management of the institution.

"At every step of the examination we were impressed with the fallacy of the popular idea (which, in common with thousands of others, a majority of the undersigned have heretofore entertained) that the members of the African race are not capable of a high grade of intellectual culture. The rigid tests to which the classes in Algebra and Geometry, and in Latin and Greek, were subjected, unequivocally demonstrated that under judicious training, and with persevering study, there are many members of the African race who can attain a high grade of intellectual culture. They proved that they can master intricate problems in mathematics, and fully comprehend the construction of difficult passages in the classics.

"Many of the pupils exhibited a degree of mental culture which, considering the length of time their minds have been in training, would do credit to members of any race.

"We fully satisfied ourselves that the system of intellectual and moral training adopted in this institution is eminently practical. The rudiments of education are taught most thoroughly; reading, writing, and arithmetic receiving their full share of attention.

"We found abundant evidences of the very judicious moral training to which the pupils of the institution are daily subjected. Their satisfactory
answers to questions, tended to define the character of their moral training, their polite behavior, general modesty of demeanor, and evident economy and neatness of dress, are indicative of a conviction on the part of the pupils that they are being educated for usefulness, and not for mere ostentation or to gratify a selfish ambition.

"We inspected the buildings and found them admirably adapted to the purposes for which they were erected. They are kept in a neat and cleanly condition. Everywhere in and about them an intelligent regard is had for those sanitary rules, so important to be observed in all institutions like this, where numerous individuals are daily and nightly assembled.

"It is patent that judicious economy pervades the management of every department of the institution. We were convinced that the funds placed in the hands of the managers have been wisely expended.

"In discharging the duty to which we were assigned by your Excellency for considerations not necessary to recount, we have felt that it was our duty to give to you, and through you to the public, a report strictly according with the facts.

"Of the justice of this report the incredulous can satisfy themselves by visiting the institution, as we have done, with an eye single to the truth.”

Since 1874 the school has been examined by a Committee of the Board of Visitors of the University of Georgia. The following is their report made in June of last year:

"After carefully and patiently listening to the several exercises, and critically scanning each recitation conducted in our presence, the committee is gratified to state—

"1. That the examinations were fairly managed, and afforded a true test of the acquirements of each pupil.

"2. That the progress made by the students, as a whole, is highly satisfactory, while there were not wanting many instances of superior merit and proficiency among their number.

"3. We are pleased to bear testimony to the excellent order, decorum, and respectful demeanor of the entire school.

"4. The corps of instructors, without exception, seem well qualified for the discharge of their duties, and evince much system and thoroughness in the method of imparting knowledge.

"5. The floors, walls, recitation-rooms and dormitories of the college edifice are in a scrupulously neat condition, no ink spots, knife marks or other blemishes being visible."
In conclusion, the committee, whilst feeling that it is not their province to discuss either the financial or political surroundings of the University, other than to say that they see no evidence of a misapplication of the subsidy voted by the State, are, in justice, forced to make the following admissions, to wit: That so long as no improper or sinister attempt is made to foster jealousies and hatred against the whites among the pupils of the school, and to encourage future antagonisms, or social equality maxims, and whilst, as at present, wholesome discipline and good morals seem to obtain, the University cannot fail to achieve much good for the African race.

The following table shows the number of teachers and pupils each year since the school was opened:

In 1871 one young man graduated from the Preparatory Department, and entered Oberlin College, where he graduated in 1875. In 1872 another left the Freshman Class and entered West Point, where he still remains—the only colored cadet. In 1873, and each year since, a class of four has graduated from the Higher Normal Department. It is expected that this year six will graduate from College, four from the Higher Normal Department, and also a class of three prepared for the ministry.

The graduates, and others who have left before finishing their course, to the number of about one hundred, are engaged in teaching during a part or all of the year. Besides these, during the three months of the last summer vacation, one hundred and fifteen members of the school were also teaching. It is estimated that nearly ten thousand people were taught, for a longer or shorter time, last year, by those connected with this institution. In addition to the great good accomplished by direct teaching, a very great influence has been exerted by these teachers in arousing an interest in education, and in creating a demand for a common school system.
