Grammar School.
(Formerly Normal Course.)

This department provides a course of study in Reading, Spelling, Grammar, Geography with Map Drawing, United States History, Elements of Geometry, Botany and Physiology, Writing, Inventive and Free Hand Drawing, Vocal Music and Gymnastics.
Weekly Bible Lessons are required throughout the course.

Written examinations are required in the studies of all the courses, except the Grammar School, at the close of the Fall and Winter Terms, and oral examinations in the studies of all the courses, annually, during the three days next preceding Commencement; also written examinations are required frequently in Common English branches from all students above the Grammar School Course.
In addition to the prescribed studies, young women in the Normal Course are taught “Household Science,” embracing Plain Sewing, Cookery, Nursing the sick, etc.
This instruction is given both by familiar lectures and by practice in those arts.
Specimens of their sewing are to be preserved for examination.
General Information

Membership.

For membership in the Institution a person must have a good moral character, and must sign a pledge to abstain from the use of all intoxicating drinks and tobacco in every form, while a member of the school.

Pupils from other schools must present certificates of honorable dismissal.

Applications for admission should be made at least a month before the beginning of the school year.

Pupils should enter the first day of a school year that they may be immediately classified, and thus lose no time. Students lose their membership when absent one month. During vacation, as well as during term time, students are held amenable to the authority of the school.

Those who have not a fixed purpose to improve their time, and an earnest desire to fit themselves for usefulness, should not seek admission, as the presence of such is not tolerated.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

It is desired to make the school, as far as possible, a home for those who attend. Not only their intellectual, but also their social, moral and religious culture, receive careful attention.

Student Aid.

Several students have been aided during past years by the Peabody Fund and contributions from the friends of popular education. It is expected this help will be continued.

The only permanent fund is the "Plainfield Scholarship" of three hundred dollars.

Persons should not come expecting to receive aid until they have applied for it, and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and, as far as possible, what pursuit they intend to follow.

It is expected that those who are aided will, when able, return the amount to aid others.
Music.

Facilities for instruction in both Vocal and Instrumental Music are ample. The elements of Vocal Music are taught from Dr. Mason's Music Charts, without extra charge.

For practice in Instrumental Music, there are four organs and two pianos. (See expenses.)

Graves Library.

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains nearly five thousand volumes. Mr. Graves has also given a permanent endowment of five thousand dollars, which secures its steady growth.

In connection with the library is a Reading Room, well supplied with the leading papers and periodicals of the country, and to both the students have free access.

Apparatus.

A good beginning has been made in procuring Philosophical Apparatus. Enough has been obtained for illustrating some of the simpler principles of Natural Science, and also instruments for Surveying and Engineering purposes.

Some money has been contributed toward the purchase of a Telescope, and it is hoped that before long enough will be raised to procure a serviceable instrument.

Teaching.

It is expected that a majority of the students will engage in teaching, and instruction in all departments is adapted to that end. Earnest efforts are made to induce young men to prepare for the ministry.

Nearly all of those who are sufficiently advanced in scholarship aid themselves by teaching. The demand for teachers is usually in excess of the supply.

County Superintendents of Schools, and others desiring teachers from this Institution, will find it for their interest to arrange their schools, if possible, so as to include its summer vacation, viz., the months of July,
August and September. Communications from all such officers will receive prompt attention.

Students of this Institution, desiring to teach, will be furnished certificates of membership and standing. As a means of protection against imposition, applicants for schools claiming to be from Atlanta University should be required to exhibit such certificates.

---

**Government.**

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment which shall be in itself a powerful governing force in the school.

Suspension from school is resorted to when other means of correction fail.

When students are exposing themselves to permanent harm, it is expected that high-minded individuals will be governed by the dictates of conscience and common-sense, rather than by any false sense of honor, in regard to disclosing the facts to the proper authority.

---

**Wants.**

The school being without endowments, is dependent upon the American Missionary Association for all support not derived from other sources.

Our needs are such as young Colleges have—endowments, scholarships, reference books, maps, apparatus, etc.

It is hoped that the time is not far distant when funds will flow into the treasury of the Institution as freely as they do into colleges in other parts of the country.

**Expenses.**

Board, including furnished rooms, fuel, lights, and washing, per month .................................................. $8.00

Tuition, in College Course, ........................................ per month, 2.00

Tuition, in all other Courses, .................................... " " 1.00

Instruction in Instrumental Music, ................................ " " 1.00

Use of Instrument one hour per day, ............................. " " 1.00

*All payments must be made in advance on the first day of each month.*

All pupils are required to work for the Institution at least one hour a day. This requirement makes the above low charges possible.
Remittances in payment of bills should be made by money-orders, drafts, in registered letters, or by express.
Make money-orders and drafts payable, during 1881-82 to H. Bumstead, and address all moneys to him. Receipts will be promptly returned.

Miscellaneous.

Each pupil should bring a Bible. It is needed for private reading, for the Sunday-school, and for the weekly Bible lesson.
It is well to bring the text books formerly used.
All should be provided with warm clothing.
Young women should have rubbers and waterproofs.
Economy and good taste demand plain and simple clothing. Parents are urged to co-operate with teachers in seeing that none other is worn.
No extra dress is required for the close of school.
Letters should be directed to Atlanta University, Atlanta, Ga.
Experience has taught that much evil comes from pupils receiving food from home. They are, therefore, not allowed to receive it. Friends will please not send it.
Students who do not board at their homes are not allowed to board out of the Institution, except by special permission.
Boarders are expected to furnish their own towels.
Keeping or using fire arms on the premises is forbidden.
During term-time students shall not, without permission, actively participate in any political or mass meeting.
Students from a distance should arrange their journeys so as not to arrive on the Sabbath, as they will not be admitted on that day. When going away, they should apply for dismissal in season to arrive at home before the Sabbath.
Students are not allowed to make visits on the Sabbath, and their friends are earnestly requested not to call upon them on that day.
The Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Among the appropriate means for securing such results, the Sabbath, with its religious services, is the most important. The excitement of visiting friends prevents, in a great measure, the benefit that may be derived from a proper observance of the day.

History.

In October, 1867, a Board of Trustees was formed, and a charter obtained. Money was secured and a site of about fifty acres, on high ground, in the western part of the city, was purchased. In June, 1869, the cornerstone of the first building was laid. During the summer the building was erected, and in October was occupied by the school. It is a plain, four-storied, brick building, containing sleeping-rooms for about forty pupils, and also a parlor, dining-room, kitchen, etc. It was designed for a girls' dormitory, but during the first year, furnished all accommodations, both school and boarding, for the entire school. It was much crowded, and the inconvenience of the arrangement was very great. In August of 1870, another building of the same style, but larger, containing sleeping-rooms for about sixty boys, besides temporary school-rooms, was completed. In the summer of 1871 this building was enlarged by a wing, providing rooms for about forty pupils, and other school-rooms. This entire building is now heated by steam. In the summer of 1880, a portion of the gift of Mrs. Stone, of Malden, Mass., was used in erecting an addition to the North Hall. This contains twenty-six sleeping-rooms and a large study hall.

The Legislature of Georgia, in 1870, appropriated to this school $8,000. The same amount was received in 1871 and in 1873. In 1874 a bill was almost unanimously passed making an annual appropriation of $8,000.
The bill was entitled "An act equitably to adjust the claims of the colored people to a share of the Agricultural Land Scrip." It made the appropriation on condition that the Board of Visitors of the University of Georgia should also visit this school; that the money should not be paid by the Governor till a commission of three members of the Faculty of the University of Georgia had approved the plan of the Trustees for the expenditure of the money, and that the school should educate, free of charge for tuition, one pupil for every member of the House of Representatives, to be nominated by the members. By the recommendation of Hon. G. J. Orr, State School Commissioner, the Trustees of the Peabody Fund appropriated, for the present year, $1,000 for Normal Scholarships.

Nearly all the graduates, and many others who have left before finishing their course, are engaged in teaching during a part or all of the year. Beside these, during the three months of the summer vacation a large number of students engage in teaching, and it is estimated that over ten thousand children in Georgia are taught, annually, by those who have been connected with this institution.

Report of the State Board of Examiners.

ATLANTA, June 25, 1880.

Gentlemen of the Board of Visitors:

We have complied with the order assigning to us the duty of acting as a special committee to attend and prepare the report for the final examination of the Atlanta University, for the school year just closed, and as the result of our work, submit to you this report:

Eight from the Board of Visitors were present during nearly the entire examination, and the State Commissioners have special care, in behalf of the State, over this Institution, therefore a report in detail from us is useless.

For three days we listened to examinations of the scholars conducted orally by the teachers, and written examination work from the higher classes was laid before us. We were also present at the anniversary exercises of the Institution. It is with pleasure that we bear testimony in behalf of the accuracy and thoroughness manifested both by the teachers and scholars. We have never seen stronger proof of careful and successful teaching, and the discipline and government cannot be surpassed in any institution.

The scholars were neat in appearance, orderly in deportment, and serious in application. The teachers were remarkably proficient in their several departments, and the scholars seemed to be impressed with a deep-seated earnestness, calculated not only to advance the intellectual status of the colored race, but also to make of them better men and women.
Most of the scholars, coming from all parts of Georgia, go to their homes to enter upon the labor of teaching others, and a prominent feature of the Institution is the Normal. A graduate of the Oswego Normal, Mr. Farnham, has been added, within the last few weeks, to the corps of instructors, and from his services much good may be expected. The practical sciences are not neglected. A visit to the culinary department showed us that the female students had been thoroughly taught the art of cooking good dinners, without which even the intellect would pine and languish. Calisthenics, also, constitute a part of the training.

The anniversary exercises consisted of orations, essays and music. They were conducted in Friendship Church, and were listened to by a large crowd of attentive spectators. Here again the scholars gave evidence of the real worth of the college.

Rev. M. E. Strieby, D. D., of New York, delivered the diplomas to the graduates, and admonished them to perform through life their whole duty of appreciation to the State of Georgia, the liberality of whose legislators helped to keep up their Institution, to the people of the North who had aided in its foundation, and in the sight of God, from whom its continued prosperity came.

We found the buildings and grounds in the best of order, evidencing the same watchful eyes which overlooked the entire Institution.

The school rooms and furniture were entirely free from defacements of any kind, showing a marked difference in this respect between the Atlanta University and most other colleges.

It is hoped that a third building, at an expense of nearly $50,000 will be erected before the end of next year for the further accommodation of the students.

The sum named has been left to the college, and will be obtained on the distribution of the Stone estate of Malden, Massachusetts.

An interesting feature is the Library, composed of a collection of about five thousand volumes, selected wisely for the purpose of interesting as well as instructing, the scholars. To the Library there has been added, during the past year, three hundred new books of recent publication.

In connection with the Library is a Reading-Room, in which can be found the leading magazines and daily papers.

The future of the University seems truly bright, and a better opportunity can never be given our colored citizens for a thorough education.

We commend the entire corps of instructors, and must express the confidence which we feel in the capacity of the President, Mr. Ware, and in his fitness for the position which he occupies.

In conclusion, we think it proper to dwell for a moment upon the fact that the Atlanta University, besides the influence which it wields directly upon its scholars, reaches through the many who pass out from its walls as teachers, almost the entire colored population of our State. While the
mental man is being developed, the moral man is carefully trained, and temperance and religion are important parts of the instruction given. From this college Georgia is sending out missionaries for the amelioration of a large class of her citizens. Who can doubt the wisdom of continuing the appropriation?

Hoke Smith,
J. B. S. Davis,
J. H. Fitten,
Special Committee.

The above report, on motion, was unanimously adopted by the Board of Visitors, at a called meeting held in Atlanta.

H. H. Jones,
President Board of Visitors.
