May 13 2:30 P. M., Commencement Exercises.
May 13 8:00 P. M., President's Reception.
CHARTER OF CLARK UNIVERSITY

The petition of Gilbert Haven, Richard S. Rust, Mary J. Clark, Eliphalet Remington, Joseph H. Chadwick, Washington C. DePauw, Henry K. List, Eliza Chrisman, Robert T. Kent, Charles O. Fisher, John C. Kimball, Josiah Sherman, Theodore G. Elswald, William H. Crogman, James Mitchell, Henry R. Parmenter, George Standing, James V. Martin, Seaborn C. Upshaw and E. Q. Fuller, shows that they are the Trustees of Clark University, in the city of Atlanta, in said county, and that they desire that they and their associates shall become a body corporate and politic, by the name of "The Trustees of Clark University," and that they, and such persons as shall be duly elected members of said corporation, shall be and remain a body corporate by said name for twenty years, with the privilege of renewal at the end of that term.

The said corporation not being for profit, and no stock, dividends or other pecuniary gain accruing to the corporators, but being simply intended for the advancement of learning, and the accomplishment of good, they have no capital stock, and only such property as has accrued from the benefactions of the charitable and philanthropic; and for further acquisitions, and to effect the objects of incorporations, must look to the income from present possessions (which are valued at Forty Thousand Dollars, and consist of the buildings and grounds now occupied by said University, furniture and apparatus, land in Fulton County, and Atlanta City bonds), and to bequests and donations and prudent management.

That the location of said University and the place of business of said corporation is in said county.

That the object and business of said corporation are to establish and perpetuate a University, and thereby promote learning, afford suitable opportunities for the acquirement of knowledge, and to foster piety and virtue as essentials of proper education; and for the orderly conducting of the business of said corporation, petitioners desire:

1. That said corporation shall have power and authority from time to time, as occasion may require, to elect a President, Vice-president, Secretary and Treasurer, and such other officers as may be found necessary, and to declare the duties and tenures of their respective offices, with the power of removal, and the right to fill vacancies in the way and manner, for the causes, specified in the by-laws of the corporation; and also to elect new members of said corporation, provided the number of members shall never be less than ten nor greater than thirty, and at least ten shall be necessary to constitute a quorum when any change is made in the by-laws, a Trustee removed; or a vacancy in the Board filled.

2. That the said corporation shall have full power and authority to determine at which times and places their meetings shall be held, and the manner of notifying the Trustees to convene at such

STEWART MISSIONARY FOUNDATION
GENERAL INFORMATION

Clark University is a Christian School, founded in the year 1870 by the Freedman's Aid and Southern Education Society of the Methodist Episcopal Church. It is open to students of all classes, regardless of sex or color, the sole conditions of admission being a desire to learn, good moral character, and obedience to lawfully constituted authority.

Location

The buildings and grounds are located just south of the corporate limits of the city of Atlanta, Ga. The campus is sufficiently elevated to overlook the city, and has perfect drainage on all sides. It is beautifully shaded with oaks and pines which, with its elevation—1,200 feet above the sea level—make it a delightful retreat even in midsummer. It would be difficult to find a more healthful location in the United States.

Accessibility

The South Pryor and Federal Prison electric line passes the campus gate, affording frequent communication with the center of the city. Atlanta is the great railroad center of the South, and is readily accessible from all points. The city contains about one hundred thousand inhabitants, and enjoys all the conveniences of modern city life, making it an admirable location for a large school.
Buildings

Chrisman Hall, named in honor of Mrs. Eliza Chrisman, a large commodious brick building, heated by steam, is the main edifice. The two lower stories are devoted to recitation rooms, study rooms and offices; the upper, to professors' rooms, young men's dormitory, library, reading room and physical laboratory.

The chapel occupies the third floor of the south wing, and will accommodate an audience of six hundred. The dormitory accommodates one hundred students.

Warren Hall, a four story brick building, named in honor of Bishop Warren, contains the boarding department and young women's dormitory. The dining hall is large enough to seat comfortably three hundred students; the dormitory accommodates ninety. The building is well equipped with kitchen, laundry, store-room, cold-storage, etc.

Thayer Home, named in honor of Dr. Thayer, is furnished with all improvements of a modern model home. It accommodates about thirty young women, who are taught cooking and house-keeping as practiced in a well-ordered household.

Ballard Hall is a brick structure, the gift of Stephen Ballard of Brooklyn, N. Y. The first floor is occupied by the Industrial Department. Large, well equipped Chemical and Biological laboratories and lecture-room occupy the second floor.

The Iron-working Department occupies a one-story brick building.

There are also on the grounds a modern barn and other outbuildings for the use of the Agricultural Department.

In addition to these buildings are five cottages used as teachers' residences.

Terms of Admission

Students under six years of age will not be enrolled.
Boarding students under fourteen years of age will not be
admitted.

Students are admitted and classified by examination, or by certificates from schools approved by the faculty.

Every student may choose the course he wishes to pursue, but when it has been chosen, he cannot change it without the consent of the faculty.

Special students may select such courses as, in the judgment of the faculty, they are capable of pursuing profitably but no change will be made in the schedule of recitations to accommodate them.

Pupils coming from other schools must present a certificate of honorable dismissal.

**Government**

No pupil will be assigned to a room or admitted to a class until he presents a ticket showing that he has settled with the registrar. The act of registration pledges all pupils to obey the regulations of the school until formally released therefrom.

In addition to the observance of specific regulations, all students are expected to work. Immorality, the use of alcohol and tobacco will not be tolerated. The discipline of this school is designed to encourage self-government. Every influence is thrown around the students to develop culture and character. The purpose of the institution is to promote broad and accurate scholarship, along with a high type of character.

Only such as manifest earnestness and moral purpose can remain connected with the institution. Those who disregard the few necessary rules framed for the individual and general good separate themselves from the University.

**Privileges**

Resident male students, sixteen years or more of age, who have been members of the school for at least one month, and
who, during that time, have proved themselves studious and law-abiding, shall be regarded as privileged students. These are permitted to be absent from the grounds between the hours of 4 p.m. and 5:30 p.m. on school days, and between 2 p.m. and 5:30 p.m. on Saturdays. No other resident student is allowed to leave the campus without permission.* Young women are not permitted to leave the grounds at any time without a chaperone.

The Religious Atmosphere

The life of the University from the beginning has been directed by men and women of unswerving faith in Christianity. No religious tests are imposed on any student. Perfect freedom is guaranteed to everyone. At the same time it is true that the authorities of the University believe that religious development is a matter of primary importance, and that no intellectual culture can compensate for a dwarfing of the religious nature. The atmosphere of the University is frankly and unequivocally Christian. It stands for broad and strong scholarship and the highest moral and religious life.

Chapel exercises are held every day in the week, with the exception of Saturday and Sunday, under the direction of the members of the faculty. All students are required to be present at these exercises.

The University is a regular appointment in the Atlanta Conference. The Professors of Gammon Theological Seminary supply the pulpit.

Board and Room

The dormitories of the institution have been fitted up with the view of making the students, occupying them, as comfortable as possible in every way. The rooms are all well lighted and are furnished with plain and substantial furniture. As

* Juniors and Seniors at any time that will not conflict with their studies.
many of the teachers occupy rooms in these dormitories, the opportunity for association with them is a valuable part of the training received.

The boarding department has recently been refitted and every effort is made to give the students good wholesome food.

All students attending the University are required to board and room on the campus, unless living with their parents or relatives or when especially excused by the president. We most heartily recommend that all students arrange to secure accommodations on the grounds.

All bills for room and board are due and payable strictly in advance, students being required to meet their bills every four weeks. Students whose bills are not settled when due will be excluded from the dining room and class rooms until the accounts are settled.

A deposit of two dollars is required of all boarding students upon entering school to cover possible damages to room furnishings. When a student withdraws from school all the money not expended for damages is refunded.

### Self-Help

The question of expense is always perplexing for the reason that most students who go to college in the south are purposeful young people who must largely support themselves. Students are urged to help themselves as far as possible, and some do earn their way while attending the University. The institution requires of every boarding student one hour's work each day for the University. For work done over this time, wages are paid at the rate of 7 1-2 cents per hour. Hitherto we have been able to furnish a few students with work on the campus to the amount of two or three dollars per month, but we cannot guarantee to furnish work. Atlanta offers many facilities to those desiring employment, and we can often assist them to secure positions. Independence and self-reliance are constantly taught. It is possible for a few deserving students to secure loans, through the recommendation of the University, from the board of Education of the Methodist Episcopal Church. It is the rule of the Board of Education to make such loans only to worthy students in the advanced classes.

### Advice

On arriving in Atlanta, take any east bound car at the railroad station and ask for a transfer to the Federal Prison Car and
get off at the Campus gate, in full view of the University build­
ing. Bring your check with you and present it to the clerk, who will have your trunk transferred for twenty-five cents. Pay no attention to hackmen; many will overcharge you.

Plan to arrive in the city in daylight, as it is inconvenient to reach the University at night. The cars cease running at 12 p. m.

When parents send daughters without an escort, if they will notify the president of the time of their arrival, some one will be in waiting at the station to receive and conduct them to the University.

Students should deposit their money in the University safe and draw it as occasion requires, in order to insure economy and safety.

Parents are requested to send money direct to the President, who will credit it as directed, and send a receipt by return mail. Remittance direct to the President will guard against extravagance. Instructions from the parents as to the amount to be allowed for personal expenditures will be strictly followed.

Students should be provided with umbrellas, overshoes and waterproof garments as recitations are conducted without regard to weather.

Every student must provide himself with sheets and pillow cases and a stout bag in which to carry his clothing to and from the laundry. Clothing must be plainly marked, in indelible ink, with the owner's name.

Without text books it is impossible to accomplish satisfactory work. We cannot expose both student and teacher to such a serious disadvantage, and, therefore, shall exclude from the classroom all students who are not provided with necessary books. Every boarding student is expected to come furnished with a Bible. Students must pay for books when they take them from the office. No credit on books.
**Library—L. Taylor, Librarian**

There are about two thousand volumes in the Library. Will not some benevolent friends endow this Library, so that, each year, it may be replenished with valuable works as they are issued from the press?

**Reading Rooms**

The students have access to two reading-rooms: one in Warren Hall for the young women and one in Chrisman Hall for the young men. These rooms will be supplied with the leading magazines and secular and religious papers.

**Literary Societies**

The Alpha Sigma for young men and the Marigold Club for young women furnish ample opportunities for the cultivation of extemporaneous speaking and parliamentary experience.

**Adjunct Schools**

Principal of high schools, and of grammar and district schools, will be furnished with catalogues containing our course of study. We invite correspondence with the view of making their courses and ours articulate as closely as possible, so that students may enter the University at any time without suffering the disadvantages arising from widely diverging courses of study.

Most of our patronage must come from public schools, but we are especially anxious to cultivate friendly relations with Cookman Institute, Jacksonville, Fla.; La Grange Academy; The Haven Academy, Waynesboro, Ga.; and the Haven Home, Savannah, Ga. We invite correspondence from the principals of these schools with regard to pupils who may desire to enter advanced classes. Address the President of Clark University, South Atlanta Station, Atlanta, Ga.
The Marigold Club Scholarship

The Marigold Club Scholarship of $50 is open to the young women of the school on the following conditions:

No. 1. The scholarship is to be given to an ambitious girl prepared to begin either the Higher Normal or College Preparatory work of the Third Year.

No. 2. She must be a sincere, sober and zealous Christian young woman.

No. 3. She must pass special examinations in Second Year English, Latin, Mathematics and History with an average of 90 per cent.

In the work of the Third Year she must maintain an average of 80 per cent. in order to retain the scholarship for the following year.

No. 4. If a Clark University student, she must maintain an average of 80 per cent. in her past year's work, in order to be a candidate for the scholarship. She must also have an unquestionable record of deportment.

No. 5. She must, at the time of examination, write an essay containing five hundred words on some subject presented by the Marigold Club. This essay, together with her examination papers, is to be rated by the English Instructor of Clark University and one Instructor from each of two other Universities. The essay must be marked as high as 90 per cent.

No. 6. Any young woman desirous of taking the examinations for the scholarship, must make formal application to the Secretary of the Faculty on or before the second Saturday after the opening of school in the fall. The examinations will begin on the third Friday of the school year. They will be held for the first time in October, 1907.

No. 7. The application for the scholarship must be endorsed by the principal of the school that the candidate last attended, by her pastor and by three good women of that church.
Uniform for the Young Women

The Faculty of Clark University have adopted a costume for the young women boarding on the campus, to be worn at the public exercises of the school, including Sunday services, and whenever students go off the campus.

These costumes will be provided at the school and no others will be accepted as substitutes. Arrangements have been made with one of the leading firms of the city, to furnish them at first cost. The suits will be made of heavy blue cheviot and will cost from $10 to $12.

The dressmaking department will duplicate the same costume in a cheaper material for students who wish a less expensive suit. Hats will also be provided at the school.

Departments of Instruction

Information Relating to Entrance

The privileges of all departments of the University are extended to men and women alike. The students of the College Preparatory and Normal Departments enjoy as a rule all of the privileges open to the students in the College Department, including library, lectures, laboratories, religious and social privileges.

Examinations for admission to any of the departments of the University are held in the fall at the opening of the college year. See announcements.

Students entering on other than regular registration days are required to pay a registration fee of one dollar in addition to other incidentals.
All applicants for admission to the first year of the Preparatory or Normal Schools must either pass a satisfactory examination in the subjects covered by the work of the Grade School of this Institution, or must present a certificate showing that they have completed an equivalent course in some other school.

All candidates for the B. Ped. degree must spend their Junior and Senior years in residence, and this residence must begin before the middle of October of their Junior year.

All College students are required to be in school by the middle of October of their Senior year.

Special Music Students

Special students in music will be enrolled on condition that they devote at least four hours per day to music, and that they take at least one other subject prescribed by the head of the department of music.

Admission to Advanced Standing

Candidates for advanced standing are not admitted later than October of the year in which they expect to graduate. All students from other schools must present certificates of honorable dismissal, and give satisfactory evidence of preparation for the courses that they desire to enter. The amount of credit to be obtained for work done in another institution is determined by a committee of the faculty. No advanced credit will be given without examination, except for work done in an approved school. No student will be recommended for a Bachelor’s degree until credit has been obtained for at least one full year of work in residence at this institution.

Admission on Probation

Any applicant deficient in not more than one of the subjects required for the rank to which he seeks admission, may
be admitted conditionally by the Faculty. All such conditions must be removed before the student will be permitted to begin the work the next year.

It should be clearly understood that students admitted on probation, and students admitted on certificates from other schools, are subject to the following regulation:

If the work of the student, in his first term, shall prove unsatisfactory, he may be reclassified and required to review the work.

Courses of Study

The college offers the following courses: the Classical, the Scientific, the Literary and the Higher Normal. Graduates from the Classical Course receive the B. A. degree; graduates from the Scientific Course receive the B. S. degree; graduates from the Literary Course receive the B. L. degree; and graduates from the Higher Normal receive the B. Ped. degree.

Twenty recitations per week, or their equivalents, for four years are required for the B. A., B. S., and B. L. degrees. Twenty recitations per week, or their equivalents, for two years are required for the B. Ped. degree.

Throughout this catalogue the expressions "one hour," "two hours," "three hours," "four hours," and "five hours," per week are used. The expression "one hour," means one recitation per week throughout one term. Twenty recitations a week for one term are thus called "20 hours." Since there are three terms in the college year, 60 hours constitute a full year's work. The four years course, therefore, embraces 249 hours and the two years course embraces 120 hour's work.

Students who have received the B. Ped. degree, may, by completing an additional 120 hours of college work, receive the B. A., B. S., or B. L. degree.

The college studies are divided into the following groups: Astronomy; Biology; Chemistry; English; French; Geology; German; History; Latin; Greek; Mathematics; Psychology;
and Pedagogy; Philosophy; Physics and Mechanics.

The following studies are required of all of the four year college courses for graduation:

- Mathematics: 20 hours
- English: 20 hours
- Ancient or Modern Language: 10 hours
- Natural Science: 10 hours
- Economics: 5 hours

The following studies are required in the Higher Normal course:

- Mathematics: 10 hours
- English: 10 hours
- Pedagogy: 20 hours
- Ancient or Modern Language: 5 hours
- Natural Science: 5 hours
- Economics: 5 hours

All candidates for degrees are required to be present at the service at which the Baccalaureate sermon is preached, also at Commencement exercises. On these occasions academic costume (cap and gown) must be worn.

All University fees must be settled by each candidate before his diploma is issued to him.
SYNOPSIS OF COURSES OF STUDY

Agriculture.

I. INTRODUCTORY WORK IN AGRICULTURE.

The purpose of this course is to so teach the elements of intensive agriculture as to fit the pupils to teach agriculture in the rural and grade schools.

Lectures 2 hrs. Laboratory 2 hrs. Three-fifths credit.

II. INTRODUCTORY WORK in the USE OF FARM TOOLS

This will include practical training in the use of the modern hand and horse farm tools and instruction in elementary farm surveying.

III. AGRICULTURAL ZOOLOGY

A theoretical and practical study of the feeding, breeding and management of stock.

Lecture 1 hr. Laboratory 8 hrs. 1 credit.

FALL TERM

A. The cow. (For college students this will include dairy bacteriology.)

WINTER TERM

B. The horse, hog, and sheep.

SPRING TERM

C. Poultry.

IV. AGRICULTURAL BOTANY

A theoretical and practical study of the feeding, breeding, and management of agricultural plants.

Lectures, 1 hour. Practical work *8 hours. 1 credit.

A. Field crops.

B. Orchard crops. (This will include pruning, grafting and spraying.)

C. Market garden crops. This course includes the man-

*Two hours of work in the laboratory or field give a credit of one hour.
agmenet of hot-beds, cold-frames, and a practical application of the most approved methods of intensive market-gardening.

V. EXPERIMENTAL AGRICULTURE.

A small track of land will be used as an experimental farm, on which will be investigated agricultural problems of value to the South.

VI. RESEARCH IN AGRICULTURE.

Problems of limited extent will be investigated under the supervision of the head of the department. 8 hrs. 1 credit.

Astronomy—Prof. Taylor

ELEMENTARY ASTRONOMY

1 hr. One-fifth credit.

Bible

I. A COMPARATIVE STUDY OF THE BIBLE

This course is required of all preparatory students, and of the I., II., III., Normal classes. The work is so arranged that, although each year's work is independent, yet it requires three years to complete the course. 1 hr. One-fifth credit.

II. HISTORICAL AND CRITICAL STUDY OF THE BIBLE

FALL TERM.

Books, Dates, Authorship, Subject Matter, Object, Style, Criticism and Exegesis. 5 hrs. One-third credit.

Biology

As far as possible, the facts given in lectures and dictations are verified by original observation of living plants and animals in the laboratory and field. Dissections and microscopic work are accompanied by careful drawings and notes embodying the student's interpretation of the structure and function of each type studied.
I. ELEMENTARY ZOOLOGY

FALL TERM

A study of the external structure, habits and classification of animals.

Lectures and Recitation, 2 hours. Laboratory and Field. 4 hrs. 1 credit.

A. Insecta, Arachnida, Centipedia, Millipedia, Crustacea.

WINTER TERM

B. Vermes, Molusca, Echinodermata, Protozoa.

SPRING TERM

C. Vertebrata and human physiology.

II. COMPARATIVE BOTANY.

A comparative study of the structure, habits, distribution and classification of plants, and of the nature and composition of soils and plant foods.

Lectures, 2 hours. Laboratory and Field Work, 6 hours. 1 credit.

III. COMPARATIVE ANATOMY of the INVERTEBRATES

A comparative study of the salient facts of general biology as illustrated by the invertebrates. Emphasis is placed on morphology, physiology and psychology.

Lectures, 2 hours. Laboratory and Field Work, 6 hours.

IV. EMBRYOLOGY AND COMPARATIVE ANATOMY OF THE VERTEBATES

The purpose of this course is to acquaint the students with the elements of animal embryology and of vertebrate anatomy and histology. A thorough study is made of the morphology of typical vertebrates and of the elements of histological technique.

The chicken and the frog will form the basis of the laboratory work in embryology.

Lectures, 1 hour. Laboratory 8 hours. 1 credit.

V. PRACTICAL ENTOMOLOGY; AN INTRODUCTION TO BIOLOGICAL RESEARCH

This course is planned to give special training in the methods employed by working entomologists. Especial attention
will be given to insects of the South.
Lectures, 1 hour. Laboratory, 10 hours. 1 credit.

VI. BIOLOGICAL RESEARCH

This work will be arranged to suit the individual needs and desires of the pupil. The completion of the course involves the consultation of the literature bearing upon the subject, and the preparation of a thesis embodying the results of the investigation. This course is for graduates studying for the master's degree.
Laboratory, 20 hours. 2 credits.

BIOLOGICAL CLUB

Instructors and advanced students will report and discuss important articles in biological literature. Any one who is taking college work in Biology or Agriculture may become a member of this club.

BIOLOGICAL LABORATORY

Three rooms on the second floor of Ballard Hall are used as a Biological Laboratory. This laboratory is equipped with desks, individual lockers, compound and simple microscopes, microtomes, paraffin bath, injecting apparatus, staining fluids, aquaria, vivaria, formicaria, a stock room, and a dark room.

Chemistry—Prof. Peterson.

I. INORGANIC CHEMISTRY

Lectures 2 hours. Laboratory work 6 hours. 1 credit.

FALL TERM
A. Lectures on Inorganic Chemistry.
Laboratory work upon the non-metals.

WINTER TERM
B. Lectures on Inorganic Chemistry.
Laboratory work upon the metals and acid-radical and their separations.

SPRING TERM
C. Lectures on Inorganic Chemistry.
Qualitative Analysis.
II. AGRICULTURAL CHEMISTRY

Lectures 1 hr. Laboratory work 4 hrs. Three-fifths credit.

FALL TERM
A. Chemistry of the elements and compounds which are of the most importance to agriculture.

WINTER TERM
B. Chemistry of human and animal foods.

SPRING TERM
C. Chemistry of soils and fertilizers.

CHEMICAL LABORATORY
The Chemical Laboratory occupies a large, well-equipped room on the second floor of Ballard Hall. A modern science lecture-room, a dark-room and a store-room adjoin this laboratory.

Cooking
(See Department of Domestic Economy.)

Domestic Science
(See Department of Domestic Economy.)

Drawing—Prof. Keith.
I. Form study and principles in the representation of form. Conventionalism applied in border and pattern drawing. A brief study of historic ornament and elementary color work.
2 hrs. Two-fifths credit.

II. MECHANICAL DRAWING
Geometrical problems, working drawings, developments, shadow-lines, inking, projections, sections, inter-sections, plans, elevations.
2 hrs. Two-fifths credit.

For other courses in Mechanical Drawing See Manual Training III B, IV B, V B.
FOURTH GRADE—Begin with a study of lines, horizontal, vertical, oblique, and parallel, be able to distinguish and use. Introduce some measuring and spacing. Combine lines in representation of familiar objects. Freehand work applying same work.

FIFTH GRADE—Continue the work begun in the fourth grade, using more complex forms and introducing curved lines with the necessary definitions involved.

Grouping objects based upon the use of these lines and made by combining them. This should be practiced both with instruments and freehand.

SIXTH GRADE—Angles taught, and used in connection with construction work.

Triangles drawn and the other more complex polygons constructed.

Freehand drawing of objects based upon the polygons and some object drawing.

SEVENTH AND EIGHTH GRADES—Projection taught leading up to working drawings of familiar objects. Patterns of the same objects made. Card board constructed of the objects drawn and of the type solids.

This work of these two grades is intended to develop accuracy in measurement, drawing and cutting. It must also develop neatness in the end.

Some of the fundamental principles of perspective will be taught near the close of the Eighth Grade.

Dressmaking
(See Department of Domestic Science.)

Electricity
(See Physics II)

English—Miss Overton and Miss Sweet

The work in English has been arranged with a view to securing following results: to give a general survey of English Literature from the earliest period to the present; to cultivate a fondness for reading, and an appreciation of good literature; to
give readiness and facility in both oral and written expression; and to train in rapid and intelligent note-taking.

It should be noted that the courses marked "a" and "b" are given in alternate years. By this arrangement, each student will be enabled to pursue a course in English each year, in accordance with the requirements.

1. **Principles of English Composition.** "Huntington's Elements of Rhetoric." The work based upon the text-book is supplemented by various written exercises and by practice in note-taking.

2. **A Brief History of English Literature.** Howe's "Primer of English Literature." For class study: "The Ancient Mariner," "Ivanhoe," and "Merchant of Venice."

4. **Prose Composition and Rhetoric.** Carpenter's "Elements of Rhetoric."

5. **English Poetry from 1730-1837.** This course includes a study of the biographies and most important poems of Burns, Scott, Byron, Wordsworth, Shelley, Keats and Coleridge. Entire year, Sophomore College and Senior Higher Normal.

6a. **Study of Halleck's History of English Literature** to the period of the Restoration. Special study of the rise and decline of the drama, including works of Shakespeare selected to show the classification of his plays by periods. Entire year, Junior College.
6b. Completion of Halleck's "History of English Literature." Special attention to Milton and writers of the Queen Anne Period. Entire year, Senior College.

---

**French**

---

**Geology**

**I. ELEMENTARY GEOLOGY**

Recitations and Field Work in Elementary Geology and Palaeontology. 2 hrs. Two-fifths credit.

---

**German**

I. Harris' "German Lesson"; Super's "Elementary German Reader." 4 hrs. 1 credit.

II. Harris' "German Lessons"; Super's "Elementary German an equivalent; Thomas' Practical German Grammar: Schiller's "William Tell," or "Jungfrau von Orleans." 4 hrs. credit.

III. "Hermann and Dorothea," Goethe; "Easy classics for rapid reading." 3 hrs. Three-fifths credit.

IV. Gore's Scientific German. 3 hrs. Three-fifths credit.

---

**Greek—Pres. Crogman and Miss Crogman.**

I. Grammar and Reader. 4 hrs. 1 credit.

II. Greek Literature. 4 hrs. 1 credit.

---

**FALL AND WINTER TERMS.**

A. Xenophon. Anabasis.

**SPRING TERM**

B. Homer. Iliad or Odyssey.

III. Greek Literature (continued) 5 hrs. 1 credit.
Invasion of Greece by Darius.
   Battle of Thermopylae.
A. Herodotus.
   Invasion of Xerxes.
   March to Europe.
   Battle by Marathon.
B. Plato. Selections from Apology and Phaedo.

SPRING TERM
C. Xenophon. Memorabilia of Socrates.

IV. Greek Literature (continued) 4 hrs. 1 credit.

FALL AND WINTER TERMS
A. Demosthenes.

SPRING TERM

History—Miss Overton

I. GENERAL HISTORY.

I. A. Greek and Roman History.
   B. Mediaeval History.
   C. Modern History.

II. English History. 2 hrs. 1 credit.

III. CIVIL GOVERNMENT

1 hr. One-fifth credit.

SPRING TERM

IV. SOCIOLOGY AND MODERN HISTORY 2 hrs. Two-fifths credit.

Latin—President, Miss Crogman and Miss Sweet.

I. Grammar and Reader 4 hrs. 1 credit.

II. Latin Literature 4 hrs. 1 credit.
FALL AND WINTER TERMS

II. Caesar or equivalent.

SPRING TERM

B. Cicero's Orations.

III. LATIN LITERATURE (Continued.)

4 hrs. 1 credit.

FALL TERM

WINTER AND SPRING TERMS

B. Virgil's Aeneid.

IV. LATIN LITERATURE (Continued)

5 hrs. 1 credit.

FALL TERM

A. Livy. Book XXI.

WINTER AND SPRING TERMS

B. Horace, Odes: De Senectute.

V. LATIN LITERATURE (Continued)

5 hrs. 1 credit.

FALL AND WINTER TERMS

A. Tacitus. Germania and Agricola.

SPRING TERM

B. Pliny's Letters.

Manual Training—Prof. Keith

I. ELEMENTARY SLOYD

The sloyd system of knife work will be taught. The aim of the work in this course is to develop accuracy in laying off work and in cutting out of same. This training also forms a scientific basis for cabinet and fine carpenter work.

In all sloyd construction thin wood will be used and different varieties introduced as the work advances. The natural characteristics of each wood used will be considered in connection with the construction work.

Required of all Sixth Grade Boys.
President's Residence
III A. WOOD-WORKING

Marking, sawing, planing, squaring, boring, chiseling and nailing. Application of these in making of joints and close fitting frames, boxes, surfaces, etc. 2 hrs. Two-fifths credit.

III B. MECHANICAL DRAWING.

1 hr. One-fifth credit.

V B. MECHANICAL DRAWING

Same as in first and second years, and including finished drawings in ink of all pieces made in wood or steel.

1 hr. One-fifth credit.

(See Department of Domestic Economy.)

Mathematics—Prof. Taylor.

I. Elements of Algebra. 5 hrs. 1 credit.
II. Plane Geometry. 5 hrs. 1 credit.
III. Advanced Algebra. 5 hrs. 1 credit.
IV. Solid Geometry and Plane Trigonometry.

3 hrs. Three-fifths credit.

Music—Mrs. Hamlin

PIANO MUSIC

It is the purpose of this course to prepare the students for practical work as soloists, teachers or accompanists. The course is designed to cover a period of six years. And one completing this should be able to secure a diploma from a good conservatory in one or one and a half years.

Pupils entering this department are classified with reference to the amount of musical work they can do, not with reference to what they have had.

Pupils above the Third Grade are required to attend the class in Harmony twice a week. Qualification in this branch of
music is necessary in order to receive a certificate from the department. An exhibition of the department will be given during each school year, and all pupils, who are capable of doing so, are required to participate.

Many opportunities are afforded advanced pupils for playing on public occasions in the school chapel. The pianos in the school building are under control of the Musical Department and must be used only by the pupils of the department.

Pupils pay fifty cents per term for one hour daily practice on the instruments, but may arrange to practice a longer period by paying fifty cents per term for each additional hour he may practice daily.

Tuition in this department: Twenty lessons for five dollars. Each pupil is required to pay a musical library fee of twenty-five cents per year.

Each pupil receives two lessons a week.

I. FIRST GRADE

II. SECOND GRADE

III. THIRD GRADE

IV. FOURTH GRADE

National Graded Course Book IV. or Sartorio Method Book

V. FIFTH GRADE.

VI. SIXTH GRADE

VOCAL MUSIC

Vocal music is taught in all grades from the Primary through the College Preparatory and Normal Courses. Owing to the increasing demand for teachers qualified in this branch, vocal music has been placed upon equal footing with other studies in the curriculum and all students are required to give satisfaction in this study before graduation from any department. The Music in the grades consists of that covered by the series of music readers in the Educational Course by Ginn & Co.

COURSES OF INSTRUCTION

I. First Year, Normal and Preparatory—Elementary work in notation. Drill in intervals, time exercises, etc. Four part singing.

III. Third Year, Normal and Preparatory—Review of the second year's work. Difficult salfeggi. Written work. The study of oratorio choruses, cantatas, etc.
IV. Fourth Year. This year is devoted to the study of methods and the student must do actual work of teaching music in the grades.

A choral union of probably forty or more voices will meet for rehearsals twice a week. This union will furnish the singing for public worship, and each year will render one of the important oratorios or cantatas.

Pedagogy—Prof. Rowell

I EDUCATIONAL PSYCHOLOGY

A study of the Nervous System, the Senses and their cultivation and the development of the expressive in connection with the receptive faculties; Memory and the Laws of Association, Imagination, Thinking, Emotion, Feeling and Willing. Attention, Interest and Desire are studied in connection with other powers of mind. During the Spring Term Psychology is reviewed and Psychological Laws of the various activities of the mind are stated by the student and he then forms Pedagogical Rules to supplement these laws. 3 hrs. Three-fifths credit.

II. METHODS

A study of General Method with application to the teaching of common branches.

Constant reference is made to Pedagogy I, so that the Psychological foundation is fully brought out. Much emphasis is placed upon the importance of real observation of things themselves and the complete expression of the ideas gained. It is shown that ideas may be expressed in the general bearing of the body, dress and surroundings, actions, drawings, models, plans and manufactures and by means of oral and written statements and in composition.

Model lessons are given by the instructor, students taking notes, after which is a class review and full discussion is entertained. Students are selected to teach lessons before the class to be criticised by class and instructor. Our large Grade Department offers splendid opportunities for observation and practice in Methods of Instruction.

4 hrs. 1 credit.
III. PRACTICE TEACHING AND CRITICISM
Seniors and Fourth Year Students teach a subject in the Grades one hour each day during the year. They are responsible for discipline and instruction under observation of a critic teacher.

In criticism good as well as faulty points are noted and class discussion upon school management and general principles are frequent. 5 hrs. 1 credit.

IV. REVIEW
Arithmetic, Grammar, Geography and General Reviews. 3 hrs. Three-fifths credit.

FALL TERM
V A. Moral Science.
The relation of Ethics to home school and religious life. Methods of teaching ethical principles. 3 hrs. Three-fifteenths credit.

WINTER AND SPRING TERMS
V. B. History of Pedagogy.
Reading from Camparye and references. 3 hrs. Three-tenths credit.

Philosophy—Prof. Peterson

FALL TERM
DEDUCTIVE AND INDUCTIVE LOGIC. 5 hrs. One-third credit.

WINTER TERM
II. CHRISTIAN EVIDENCES
Historical, archaeological and internal evidences. 5 hrs. One-third credit.

WINTER TERM
III. ETHICS
5 hrs. One-third credit.

SPRING TERM
IV. HISTORY OF PHILOSOPHY
Greek and Roman Philosophy; Mediaeval and Renaissance
Catalogue Edition

Philosophy; Eighteenth Century, and Recent Philosophy.  5 hrs. One-third credit.

Physical Geography—Miss Overton.

Class discussions, and recitations guided by Davis' "New Physical Geography."  2 hrs. Two-fifths credit.

Physics—Prof. Taylor

I. ELEMENTARY PHYSICS

The text-book used is Gage's "Introduction to Physical Science." The laboratory work is guided by "Gage's Physical Experiments." Recitations and lectures 2 hrs.

Laboratory 4 hrs. 1 credit.

FALL TERM

A. Mechanics and heat.

WINTER TERM

B. Heat (continued), sound and light.
C. Electricity and magnetism.

II. ADVANCED PHYSICS

The text-book is Gage's "Principles of Physics." Recitations and discussions 2 hrs.

Laboratory, 2 hrs. Three-fifths credit.

FALL TERM

A. Mechanics and heat.

WINTER TERM

B. Sound and light.

SPRING TERM

C. Electricity and magnetism. This work will be largely experimental, especial emphasis being placed upon electrical measurements and upon the construction of electrical instruments.

Physical Laboratory

The Physical Laboratory occupies two well-equipped rooms on the third floor of Chrisman Hall. It has been recently fitted up with tables and apparatus.
Printing—Mr. Lowery

I. Learning cases, names and style of type, composition, care of press, care of type, name and uses of printers' materials. 6 hrs. Three-fifths credit.

Psychology
Lectures and laboratory work in modern psychology. Lectures, 2 hrs. Laboratory 2 hrs. Three-fifths credit.

Sloyd
(See Manual Training.)

Wood Working
(See Manual Training.)
DEPARTMENT OF DOMESTIC ECONOMY.

This department is carried on in Thayer Home, a modern and convenient edifice on the campus, erected and maintained by the Woman's Home Missionary Society of the M. E. Church. The object of this home is to train young women not only in cooking, housekeeping, dressmaking, etc., but in Christian womanhood. The work of this home is done by the occupants alternately, so as to give all a practical knowledge of housekeeping. Lectures are given on domestic science, food, dress, physical culture, and social ethics. In short, the aim of the home is to fit young ladies to conduct and adorn a model Christian home.

A kindergarten has been in operation three years and we aim that this department shall not only afford training for the children, but a course for the benefit of young women who look forward to work among the children.

COURSES OF STUDY.

Dressmaking.

Time required:

- Drafting... 2 lessons a week.
- Model work... 2 lessons a week.
- Practice work... 10 hours a week.

All students in dressmaking are charged one dollar per month tuition, and are required to provide themselves with shears, tape-measure and thimble.

Certificates from two courses will be given from this depart-
Candidates for the first must have a general English education, and will be recommended as dressmakers. For the second, in addition to the requirements of the above course, candidates must be graduates from the Normal course or from the College Preparatory course, with one year of practice teaching in sewing, and will be recommended as teachers of sewing.

Sewing.

Grades.—Sewing in the grades includes linear sewing, on cardboard, canvas, and cloth, overhanding, hemming and running, felling, backstitching, gathering, and putting on bands, practicing buttonhole-stitches and darning. Making small garments, also plaiting rafia, etc.

Two lessons per week. Time: Each lesson, 45 min.

Normal and Preparatory Courses.

The following courses are a part of this school curriculum and are required of all young women, of the Normal and College Preparatory work.

Sewing.

I. Overhanding, hemming, running, felling, backstitching, gathering, stocking-gathers and putting on bands; overcasting, buttonhole stitching, hem-stitching, cross-stitching, feather-stitching; outlining; practical application of above stitches; cutting and making of undergarments by pattern.

II. Folding and basting hems by measure; tucking, darning, and patching; instruction in taking measure, and drafting patterns for underclothing, cutting and making of garments; practice work.

III. Plain machine work; drafting continued, buttonholes and eyelets; cutting and making garments and shirt waist suits.

One lesson a week. Time: 1 hr. 30 min.

Cooking.

Air, in relation to life and fire; fuels; management and care of stove or range. Water, cleanliness and cleaning. Definitions, tables, rules. Fuel, foods; starchy plants, potatoes, cereals, etc. Tissue-building foods; eggs, milk, dairy products. Bread, wheat flour, baking-powder, yeast. (Theory and prac-
tice work.)

II. Food in its relation to life; body stuffs and food stuffs. Diet. Tissue building foods; the flesh of animals, poultry, fish, etc. Fuel foods; fats and oils; cooking in fat; sugar; candies, cake, desserts, ice cream and water ices. Acid and salt supplying food; fruits, vegetables; salads, cream of vegetable soups.

III. Preservation of food; canning, jelly-making, etc. Special diets for infants and invalids. Beverages.

Practice work in teaching.
Review work in bread-making.
IV. Practice work in preparing meals and fancy dishes, course dinners, dietary studies.

One lesson a week. Time: 1 hr. 30 min.

For use of materials, a charge of 50c. per term is made; payable in advance.

Domestic Art.

Drafting and sewing.
Drawing and water colors.
Nature study.
Art needle work.
Weaving and basketry.
Home furnishing and decoration.

Drafting and Sewing.—This course includes demonstration lessons in drafting in connection with and construction for mechanical drawing.

Drawing and Water Color.—This gives the fundamental principles of drawing, composition and design, embracing the elements of industrial art, and aims to develop the appreciative creative art power in the individual pupil.

Lectures on the theory, classification, and harmony of color, based on the solar spectrum; also practical work with pigments in coloring from nature, and applied to elementary art and costume.

Nature Study.—This work is based on the development of cotton and linen from the seed through the various stages to the woven fabric; also study of the sources from which the fabrics are obtained, as the sheep, silk worm, etc. Nature study talks on the various articles used; as pins, needles, scissors, thimbles, buttons, etc., from the rude material to the furnished articles.
Art Needle Work.—This teaches the application of art in decorative stitchery to garments, and household articles.

Weaving and Basketry.—The principles of plain and fancy weaving are taught, with practical work on the hand loom, in threads, beads, rafia and other materials. Basketry is studied for its value in manual training, as well as for the pleasure and profit derived from this useful and decorative art. Originality in form and design on the part of the student is encouraged. This course teaches the method of making baskets of various weaves and shapes, in rafia, splint, reed, grasses and other materials. Also chair seating in cane and knotted rafia mats, hats, etc. Lectures are given and written work required on the history of ancient and modern basketry.

Home Furnishing and Decoration.—Lectures given on the treatment of walls, floors, and ceiling; also the selection of furniture, pictures, rugs and hangings.

One lesson a week. Time: 1 hr. 30 min.

I. Lectures and written work on the history of sewing, its aim and object in education. Lectures and practical work.

Lectures and written work on the textiles—cotton, linen, wool and silk, also on articles used, as scissors, pins, needle, etc.

Drafting and making the undergarment.

II. Drawing and designing. Lectures and written work on basket-making. Practical work on basket-making.

III. Drafting and making a shirt waist suit. Theory and practical work on color in costume and in home decoration.

Kindergarten.

In the Kindergarten the children learn to do by doing. The Kindergarten includes education through games, through songs, and rhythmic exercises, through the handling of typical play-things, and through the use of typical employments, and through exercises and conversations based upon the study of nature, and of human life, all of this being carried on in accordance with certain fundamental laws, that are found operating throughout the universe.

Tuition one dollar per month.

For particulars concerning any department in school of domestic science, address Miss Flora Mitchell, Superintendent, Thayer Home, South Atlanta, Ga.
In a school of this kind it is neither possible nor desirable to have the studies elective. Therefore we have formulated the following balanced courses of study, any one of which may be selected by the student. Full explanations of the courses will be found, arranged in alphabetical order, in the "Synopsis of courses of study."

CATALOGUE EDITION

HIGHER NORMAL—(Collegiate Course.)

The Higher Normal Department was organized to prepare a class of students to fill demands upon the university for teachers to take positions in academies, and high schools, and in city systems. This provides for a complete college preparatory course with two years of additional training in English, Science and Pedagogy.
