REVIEWS OF COMMON BRANCHES.
GENERAL HOUSE-KEEPING FOR GIRLS.

MECHANICAL COURSE.

At present this course covers three years—two of wood-working and one of metal-working. Another year of metal-working will, it is expected, be added soon. It is required of all boys above the third grade, in addition to their regular studies in other courses. Seven and a half hours each week are given to this work.

It is the aim, during this time, to teach the use of tools and the principles of wood-working and metal-working. Those having finished this course who have the ability and the desire to become finished workmen in some one of the trades, will have the opportunity to do so.

FIRST YEAR.

The use and care of the common wood-working tools, as the hammer, saw, plane, try-square, gauge, rule, chisel, mallet, bit and brace, bevel steel, square, drawknife, dividers, screwdriver.

The general principles of wood-working, as sawing, planing, marking, chamfering, boring, mortising, tenoning, halving, grooving, matching, mitering, beveling, dovetailing, gluing, steaming and bending, driving nails and screws, sandpapering.

Working drawings with steel square and pencil. Measuring lumber.
SECOND YEAR.
Further use of tools and some application of principles in construction.
The use of the wood turning lathe and the jig saw.
First steps in pattern-making.
Glazing.
Mechanical drawing.

THIRD YEAR.
The use and care of the blacksmith's forge and tools, as the anvil, hand
and sledge hammers, tongs, punches, hot and cold chisels, heading tools,
swaging tools, files.
The building and care of the fire, the proper degrees of heat for iron and
steel.
The general principles of forging, as drawing, bending, upsetting, spread­
ing, welding.
The tempering of steel.
Chipping and filing to line, gauge and surface. Polishing.
Mechanical drawing, continued.

GRAMMAR SCHOOL COURSE.
The studies of the first three years are taught in the Primary School.

FIRST YEAR.
Monroe Reading Charts, Appleton's First Reader, Number Lessons, Object
Lessons, (Place, Direction, Plants), Drawing, Writing with pencils, Singing.

SECOND YEAR.
Second Reader, Oral Spelling, Number Lessons, Object Lessons, (Animals,
Land and Water), Drawing, Writing with pencils, Singing.

THIRD YEAR.
Third Reader begun, Primary Arithmetic, Geography of city or county
and State, Globe Lessons, Dictation Exercises, Copy-book No. 1, Spelling,
Singing, Writing.

FOURTH YEAR.
(Fifth Grade.)
Third Reader and Supplementary Reading, Intermediate Arithmetic
through fractions, Primary Geography, Harper's (text-book), Language Les­
sions (Knox or Powell), Written Spelling, Copy-books Nos. 2 and 3, Music,
Drawing.

FIFTH YEAR.
(Fourth Grade.)
Fourth Reader introductory, Intermediate Arithmetic completed, Larger
Geography begun, (U. S. and N. A.), Mrs. Knox's Language Lessons, Spell­
ing, Copy-books Nos. 3 and 4, Music.

SIXTH YEAR.
(Third Grade.)
Fourth Reader, Practical Arithmetic through fractions, Geography of S. A.
and Europe, Elementary Grammar (Reed and Kellogg), Familiar Science,
Writing, Music.
SEVENTH YEAR.
(Second Grade.)

Fifth Reader, Practical Arithmetic through Percentage, Mental Arithmetic, Grammar, Geography completed, Music, Drawing.

EIGHTH YEAR.
(First Grade.)

Reading, Practical Arithmetic completed, Grammar and Composition, U. S. History, Alcohol and Hygiene (Coleman), Music, Drawing.

Instruction in sewing is given to all girls.

Weekly Bible Lessons and Composition Work are required throughout the course.

Written examinations are required in the studies of all the courses at the close of the Fall and Winter Terms, and oral examinations annually during the three days preceding Commencement; also written examinations are required frequently in common English branches, from all students above the Grammar School Course.

PRIMARY SCHOOL.
(See Grammar School Course.)

GENERAL INFORMATION

MEMBERSHIP.

For membership in the Institution a person must have a good moral character, and must sign a pledge to abstain from the use of all intoxicating drinks and tobacco in every form, while a member of the school.

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The Institution has had a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained.

Pupils from other schools must present certificates of honorable dismissal.

Applications for admission should be made at least a month before the beginning of the school year, and should state fully previous education and present plans.

Pupils should enter the first day of the school year, that they may be immediately classified, and thus lose no time in beginning work.

Students lose their membership when absent one month. During vacation, as well as during term time, students are held amenable to the authority of the school.

Those who have not a fixed purpose to improve their time, and an earnest desire to fit themselves for usefulness, should not seek admission, as the presence of such persons is not tolerated.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

*EXPENSES.*

Board, including furnished rooms, fuel, lights and washing, per month: $9 00
Tuition in College Course: 2 00
Tuition in Primary School: 50
Tuition in all other Courses: 1 00
Instruction in Instrumental Music: 1 00
Use of Instruments one hour per day: 1 00

All payments are due in advance on the first day of each calendar month. Fractions of a month are charged at a somewhat higher rate.

All pupils are required to work for the Institution at least one hour a day. This requirement helps to make the above low charges possible.

*Subject to change by action of the Board of Trustees.*
Remittances in payment of bills should be made by money orders, drafts, in registered letters, or by express.

Make money orders and drafts payable, during 1889-90, to H. Bumstead, and address all moneys to him. Receipts will be promptly returned.

STUDENT AID.

Some students have been aided during the past year by contributions from the friends of popular education. It is expected that this help will be continued.

The income of the King, the Cassedy, the Dodge, the Hastings, the Boyd, and the Plainfield Scholarship Funds, is now available.

Persons should not come expecting to receive aid until they have applied for it and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and, as far as possible, what pursuit they intend to follow.

It is expected that those who are aided will, when able, return the amount to aid others.

TEACHING IN VACATION.

Nearly all of those who are sufficiently advanced in scholarship, aid themselves by teaching. The demand for teachers is usually in excess of the supply.

County School Commissioners and others desiring teachers from this Institution, will find it advantageous to arrange their schools, if possible, so as to include its summer vacation, viz: the months of June, July, August and September. Communications from all such officers will receive prompt attention.

Students of this Institution desiring to teach, will be furnished certificates of membership and standing. As a means of protection against imposition, applicants for schools claiming to be from Atlanta University should be required to exhibit such certificates.

It is expected that a majority of the students will engage in teaching, and instruction in all departments is adapted to that end. Earnest efforts are made to induce young men to prepare for the ministry.

GRAVES LIBRARY.

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains over six thousand volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, which insures its steady growth.

In connection with the Library are two Reading Rooms well supplied with the leading papers and periodicals of the country, and the students have free access to those, as well as to the Library.
APPARATUS.

A good beginning has been made in procuring Philosophical Apparatus. Enough has been obtained for illustrating some of the simpler principles of Natural Science, and also instruments for Surveying and Engineering purposes.

An excellent telescope and microscope have been secured, largely by the gift of friends.

MUSIC.

Facilities for instruction in both Vocal and Instrumental Music are ample. The elements of Vocal Music are taught without extra charge, by the Tonic Sol-fa Method.

For practice in Instrumental Music, there are four organs and two pianos. (See expenses.)

INDUSTRIAL TRAINING.

The boys of the College, College Preparatory and Normal courses, and the first two grades of the Grammar School course, are taught the use of tools. (See Mechanical Course, p. 23, and Knowles' Industrial Building, p. 30).

The boys are also taught some of the principles of farming and gardening. Attention is given to the raising and care of stock, to the raising of fodder crops, their comparative value and fitness for this soil and climate. The cultivation of vegetables is encouraged by competition and prizes for the best results.

The girls are taught various branches of household science, such as plain sewing, dress making, cooking, and nursing the sick, under experienced teachers.

An outfit of type and other printing material has been purchased for instruction in printing, and additions of material will be made as our funds allow.

A small job press and a large thirty-two inch paper cutter have been given by friends in Massachusetts. A considerable part of the sum needed to procure a large press has also been donated. Classes in printing have been organized, a monthly paper, "THE BULLETIN," has been issued, and most of the job printing of the institution has been done by student labor.

GOVERNMENT.

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a fixed purpose to improve his time, and an earnest desire to fit himself for usefulness, parents will be requested to take him home.
Suspension from school is resorted to when other means of correction fail. When students are exposing themselves and others to permanent harm, it is expected that high minded persons will be governed by the dictates of conscience and common sense, rather than by any false sense of honor in regard to disclosing the facts to the proper authority.

**MISCELLANEOUS SUGGESTIONS.**

Each pupil should bring a Bible. It is needed for private reading, for the Sunday-school, and for the weekly Bible lesson. It is well to bring the text books formerly used. All should be provided with warm clothing. Young women must have rubbers and waterproofs. The use of expensive and showy dress is not permitted. Silks, velvets and jewelry worn by school girls is indicative neither of good taste nor good sense. Prints, ginghams and plain worsteds neatly made, and colored underskirts are the most approved wear. White dresses are not permissible—the washing of them being too expensive.

Parents will do well not to send clothing unless the request for it is endorsed by the Matron. No extra dress is required for the close of school. Experience has taught that much evil comes from pupils receiving food or large quantities of fruit or candy from home. They are, therefore, not allowed to receive it. *Friends will please not send it.*

Letters should be directed to Atlanta University, Atlanta, Ga. Students who do not board at their homes are not allowed to board out of the Institution, except by special permission. Boarders are expected to furnish their own towels. Keeping or using fire arms on the premises is forbidden. During term time, students shall not, without permission, actively participate in any political or mass meeting.

Students should, in all cases, be regularly excused, when they leave school, as leaving otherwise is regarded as an offence.

Students from a distance should arrange their journey so as not to arrive on the Sabbath, as they will not be admitted on that day. When going away, they should apply for dismissal in season to arrive at home before the Sabbath.

*Students are not allowed to make visits on the Sabbath, and their friends are earnestly requested not to call upon them on that day.*

The Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Among the appropriate means for securing such results, the Sabbath, with its religious services, is most important. The excitement of visiting prevents, in a great measure, the benefit that may be derived from a proper observance of the day.

It is desired to make the school, as far as possible, a *home* for those who attend. Not only their intellectual, but also their physical, social, moral and religious culture receive careful attention.
BUILDINGS.

The buildings are situated on high ground in the western part of the city, and are surrounded by about sixty acres of land belonging to the Institution.

DORMITORIES.—During the summer of 1869 a plain, four-storied, brick building was erected, containing sleeping rooms for about forty pupils, and also a parlor, dining room, kitchen, etc. It was designed for a girls' dormitory, but, during the first year, furnished all accommodations, both school and boarding, for boys and girls. In August of 1870 another building of the same style, but larger, containing sleeping rooms for about sixty boys, besides temporary school-rooms, was completed. In the summer of 1871 this building was enlarged by a wing, providing rooms for about forty additional pupils, and other school-rooms. In the summer of 1880, a portion of the gift of Mrs. Stone, of Malden, Mass., was used in erecting a wing to the first named building. This wing provides for fifty additional pupils, and has a large study hall which is now used by the Primary School.

In the summer of 1884 large rooms for the accommodation of the cooking classes and for other purposes, were added to this building.

STONE HALL.—This building, erected in 1882, stands between the two dormitories, and is the gift of the late Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel and library, the school-room, recitation and lecture rooms for the more advanced students, the philosophical and chemical laboratory, offices, etc. This building and the two dormitories are heated by steam from one large engine.

KNOWLES' INDUSTRIAL BUILDING.—This building, erected in 1884, is for the use of the Mechanical Department. It is a memorial of the late Mr. L. J. Knowles, Worcester, Mass., his widow having appropriated from his estate $6,000 for its erection.

The building is of brick, one hundred by forty-four feet, and three stories high. One room, forty by fifty feet, is furnished with thirty cabinet benches, each fitted out with the following tools: Rip saw, cut off saw, panel saw, back saw, compass saw, claw hammer, hatchet, mallet, jack plane, jointing plane, smoothing plane, block plane, four paring chisels, two mortising chisels, six bits and countersink, bit-brace, rule, steel square, try square, bevel, dividers, gauge, drawknife, spoke shave, screw driver, brad awl, nail-set, oil stone and oil can.

In another room are twelve wood turning lathes, run by steam power. More machinery has been added the past year for wood work. An addition for a forge room has recently been erected, and twelve forges and anvils have been in use during the present year.

A large room has been fitted up for the mechanical drawing, and has been in use since January, 1888, the furniture having been made by the students, as most of that in the building has been.

Other contributors towards the building and its furnishing are Mr. F. C. Sessions, of Columbus, O., $700.00; the Slater Fund, $900.00; a friend in New York, and friends in Massachusetts.

THE BARN.—A barn erected in 1882, forty by sixty feet, with cellars of the same size, furnishes facilities for the development of the farm work of the Institution.
PROJECTED BUILDINGS.—Efforts are being made to raise money for a cottage for the Housekeeping School, and also for a building for the Grammar School, which may give greater advantages as a practice school for the Normal Department.

Funds.

The school being almost entirely without endowments, has been dependent upon the American Missionary Association for all support not derived from other sources.

For fifteen years there was received from the State of Georgia, in aid of this school, an annual appropriation of $8,000. This grant was made under the provisions of "an Act equitably to adjust the claims of the colored people to a share of the Agricultural Land Scrip." One of these provisions was, that the school should educate, free of charge for tuition, one pupil for every member of the House of Representatives, to be nominated by the member. Since January, 1888, no money has been received from the State.

Earnest efforts have been made by appeals to the friends of popular education for all classes, in all parts of the country, to make up to the Institution the sum withheld by the State. Last year the entire amount needed was contributed, and the same result is hoped for this year. It will be necessary to continue these appeals until adequate endowments are secured.

The Trustees of the Slater Fund have appropriated $1,600 this year.

The late Mr. Tuthill King, of Chicago, founded the King Scholarship Fund of five thousand dollars.

Mr. J. H. Cassedy, of New York, has founded the Cassedy Scholarship Fund of five thousand dollars.

The late Hon. Wm. E. Dodge, of New York, founded the Dodge Scholarship Fund of five thousand dollars.

A friend has founded the Hastings Scholarship Fund of one thousand dollars.

The late Mrs. Sarah C. Boyd, of Bradford, Mass., founded the Malcolm Boyd Scholarship Fund of five hundred dollars.

The Plainfield Scholarship Fund consists of three hundred dollars, and the Garfield Scholarship Fund, now being raised, has reached the sum of $657.22.

GARFIELD SCHOLARSHIP.

The Garfield Scholarship of one thousand dollars is being raised in the South. The amount already received has come chiefly from the "Weekly Offerings" at the University, from former pupils, and from schools under the instruction of present and former pupils.

The following amounts have been received up to May 8, 1889:

- Previously acknowledged ........................................ $ 601.92
- Teachers and Students of Atlanta University ................... 31.80
- Interest on loans .................................................. 24.00

Total ................................................................. $ 657.22
WANTS.

Our most pressing needs at present are the following:
Donations for increased current expenses incident to the enlargement and improvement of our work, and the withdrawal of aid from the State.
Donations for the aid of needy and worthy students.
Donations for additional buildings, and the needful repair of present buildings.
Donations for iron-working machinery.
Gifts of bedding, table ware, and furniture.
Endowment of professors' chairs.
An endowment of at least two hundred and fifty thousand dollars for current expenses.

THE WORK OF OUR PUPILS.

Nearly all the graduates and many others, who have left before finishing their course, are engaged in teaching during a part or all of the year. Besides these, during the four months of the summer vacation, a large number of students engage in teaching, and it is estimated that over ten thousand children in Georgia are taught, annually, by those who have been connected with the Institution.
