Vacation Days, ........................ Jan. 1, Feb. 22.
TRUSTEES.

FOR ONE YEAR.
MR. GEORGE G. BRADFORD, A. B., Boston, Mass.
REV. JOSEPH E. SMITH, Chattanooga, Tenn.
HON. RUFUS B. BULLOCK, Atlanta, Ga.
REV. C. CUTHBERT HALL, D. D., New York, N. Y.

FOR TWO YEARS.
MR. HUGH YOUNG, New York, N. Y.
MR. ATWOOD COLLINS, A. B., Hartford, Conn.
REV. EDGAR J. PENNEY, A. M., Tuskegee, Ala.

FOR THREE YEARS.
REV. JOSEPH H. TWICHELL, A. M., Hartford, Conn.
REV. EDWARD C. MOORE, D. D., Providence, R. I.
MR. ARTHUR C. WALWORTH, A. B., Boston, Mass.

FOR FOUR YEARS.
HON. JOHN L. HOPKINS, Atlanta, Ga.
REV. FREDERICK H. MEANS, A. B., Windham, Conn.
REV. L. B. MAXWELL, A. B., Decatur, Ga.

EX-OFFICIO.
RES. HORACE BUMSTEAD, D. D., Atlanta, Ga.

PRESIDENT—HORACE BUMSTEAD.
VICE PRESIDENT—C. CUTHBERT HALL.
SECRETARY—GEORGE G. BRADFORD.
TREASURER—MYRON W. ADAMS.
Officers and Instructors.

REV. HORACE BUMSTEAD, D. D.,
President.

REV. MYRON W. ADAMS, Ph. D.,
Professor of Greek and Dean of the Faculty.

THOMAS N. CHASE, A. M.,
Professor of Latin.

EDGAR H. WEBSTER, A. M.,
Professor of Science and Principal of Normal Department.

WALTER D. SMITH,
Business Manager.

W. A. M. STREETER,
Superintendent of Printing Office.

W. E. BURGHARDT DU BOIS, Ph. D.,
Professor of Economics and History.

EDWARD T. WARE, A. B.,
Northern Secretary.

HARRY W. LELAND, B. S.,
Instructor in Mechanic Arts and Superintendent of Shop.

MRS. LUCY E. CASE,
Honorary Matron.

MRS. HARRIET W. CHASE,
Teacher of English Branches.

MISS IDELLA M. SWIFT,
Instructor in Mathematics.

MISS JULIA A. ELLIS, A. B.,
Instructor in Literature and Composition.

MISS EMILY J. STENABAUGH,
Librarian and Bursar.

* MISS SUSAN A. HOSMER,
Matron in Stone Hall.

MRS. ANNA H. BUMSTEAD,
Northern Secretary.
MISS KATHARINE M. MARVIN,
Local Secretary and Teacher of Science.

MRS. ADRIENNE MO'NEIL HERNDON,
Teacher of Elocution.

MISS M. ALICE KNEEN, A. M.,
Instructor in Mathematics and Greek.

MISS LIZZIE A. PINGREE,
Matron in South Hall.

MISS M. PAULINE SMITH,
Teacher of Sewing and Domestic Science.

MISS HATTIE E. CLIFFORD,
Teacher of Music.

MISS ELIZABETH S. BENSON,
Preceptress in North Hall.

MISS EMMA D. PUTNAM,
Matron in North Hall.

Note.—While not enrolled as a regular instructor, REV. MARTIN POST has assisted in the supply of the pulpit and rendered other valued services.

*Served a part of the year.*
The following courses of study are now established, and others will be added as may be required.

### COLLEGE PREPARATORY COURSE.

For admission to this course, a thorough examination must be passed in Spelling, Geography, United States History, Grammar, and Arithmetic as far as Mensuration. Certificates showing attainment may be given to those who complete this course with credit.

The figures refer to the number of exercises a week.

#### FALL.

<table>
<thead>
<tr>
<th>JUNIOR</th>
<th>WINTER</th>
<th>SPRING</th>
</tr>
</thead>
</table>

#### JUNIOR.

| FIRST BOOK IN LATIN-5. | ALGEBRA-5. | MANNERS AND MORALS (GOW)-4. |
| CAESAR (ALLEN & GREENOUGH)-5. | PHYSIOLOGY (WALKER)-5. | PRIMARY METHODS-8. |
| AMERICAN LITERATURE-4. | ENGLISH-2. | ENGLISH-1. |

Iron-working and Mechanical Drawing throughout the year, triple periods—2. Music throughout the year—1.

#### SENIOR.

| CICERO (ALLEN & GREENOUGH)-5. | VIRGIL (GREENOUGH)-4. | VIRGIL-4. |
| HIGHER ARITHMETIC-5. | PLANE GEOMETRY (CHAUVENET)-4. | PLANE GEOMETRY-4. |
| GREEK READER (Moss) and Grammar (Goodwin)-4. | GREEK-4. | XEN. ANAB. (HARPER & WALLACE)-4. |
| ENGLISH-2. | PHYSICS (GAGE)-3. | PHYSICS-3. |

Advanced Mechanical Work throughout the year, triple periods—2. Music throughout the year—1.
For admission to this course, pupils must pass a thorough examination in the common English branches, and also in the studies of the Preparatory course, or their equivalent. The degree of A. B. will be given to those who graduate from this course.

**FALL.**
- Xenophon's Anabasis-5.
- Cicero's De Senectute and De Amicitia (Kelsey)-4.
- Algebra (Wells)-5.
- Hebrew History-2.
- Elocution-1.

**WINTER.**
- Memorabilia (Winans)-5.
- De Amicitia, and Livy (Lord)-4.
- Algebra-5.
- Hebrew History-2.
- Eng. Composition-1.

**SPRING.**
- Odyssey (Merry)-5.
- Livy-4.
- Algebra-5.
- Greek History (Myers)-2.
- Eng. Composition-1.

**FRESHMAN.**
- Demosthenes' Olynthiacs and Philippics (Tyler)-5.
- Horace (Chase & Stuart)-4.
- Geometry (Wentworth)-5.
- Modern History (Schwill)-2.
- Elocution-1.

**SOPHOMORE.**
- Plato's Apology (Stock)-5.
- Tacitus' Agricola and Pliny's Letters (Platner)-4.
- Germania (Greenough)-4.
- Surveying, and Analytical Geometry (Wentworth)-5.
- Modern History-3.

**JUNIOR.**
- Chemistry (Remsen)-3.
- Laboratory Practice, triple periods-2.
- German-5.
- Economics (Hadley)-4.
- English Literature-3.

**SENIOR.**
- Physics (Carhart)-5.
- Laboratory Practice, triple periods-2.
- Psychology (James)-5.
- Sociology (Mayo-Smith)-4.
- Biblical Literature-3.

- Physics-3.
- Ethics (Muirhead)-3.
- Sociology-4.
- Biblical Literature-4.
- Elocution-1.
NORMAL COURSE.

The requirements for admission to this course are the same as for the College Preparatory Course.

A certificate of graduation will be given to those who complete this course with credit.

POST-GRADUATE COURSE.

In 1896 the Trustees voted to establish a post-graduate course, leading to the degree of A. M. Its essential feature is, one year of resident post-graduate study. The requirement of residence for a full year is modified only in the case of a graduate of this Institution whose rank warrants it.

Further details concerning the requirements will be sent upon application.

MECHANICAL COURSE.

A mechanical course, co-ordinate with the normal and classical courses, has been established by the Trustees, and only waits the providing of necessary funds to be put into operation. The object of this course will be, not to give manual training merely as a part of a general education, but to thoroughly prepare young men for industrial vocations.

SUB-NORMAL CLASS.

In 1894 the Grammar School course was discontinued, partly from lack of means and partly in accordance with the original plan of the Institution to do only advanced work. But for the present there will be a Sub-Normal Class corresponding to the highest grade of a Grammar School course, with the following studies:

Reading, Practical Arithmetic completed, Grammar and Composition, U. S. History, Vocal Music, and Bible.
DEPARTMENTS OF INSTRUCTION.

I. CLASSICS AND GERMAN.

GREEK. The more important forms are mastered, and there is also practice in easy reading, during the first half of the Senior Preparatory year. This is followed by a thorough drill in the Anabasis. The pupil is then prepared for more rapid work in the Memorabilia, Odyssey and Demosthenes, concluding the work of this department with Plato's Apology, and Aeschylus's Prometheus Bound or Sophocles's Oedipus Tyrannus. Greek History is also studied, and lectures are given on Greek Philosophy and the Greek Drama. For work in the Greek New Testament, see Bible.

LATIN. The first year of the Normal and Preparatory courses is devoted to mastering the elements of the language. By the early and critical translation of sentences from English into Latin, pupils are led to see the need of a good knowledge of inflections and rules before they are required to learn them. During the next two years of the Preparatory course the time is about equally divided between Caesar, Cicero's orations (including Latin Prose) and Virgil's Aeneid (including Prosody). In the College course Cicero's essays on Old Age and Friendship are followed by Livy, Horace, Tacitus's Agricola and Germania, and Pliny's Letters. Some work is done in Grammar building by collecting, from the texts of authors read, expressions illustrating the various principles of syntax, classifying the same and making inferences from them.

GERMAN is taught to the Junior College class, during the first part of the time by conversation in the class-room, the use of the Joynes-Meissner Grammar, and translations from Joynes' Reader. The latter part of the time is given to the reading of a German classic with some attention to the literature and civilization of Germany. The last class read Schiller's Jungfrau von Orleans.

II. PHYSICAL AND NATURAL SCIENCES.

PHYSICAL GEOGRAPHY is taught in the first year of the Normal and Preparatory courses. The work is illustrated by specimens and apparatus selected from cabinets.

PHYSIOLOGY. This study comes in the second year of the same courses. Special attention is given to Temperance and Hygiene.

BOTANY also comes in the second year. The subject is taught objectively. Each student prepares an Herbarium of 50 specimens carefully analyzed and mounted. The Institution owns a good microscope.

ZOOLOGY is taught in the third Normal year. It is illustrated by a fairly good cabinet of the lower forms of animal life.
PHYSICS. Two terms are given to Elementary Physics in the third year of the Normal and Preparatory courses. There are three exercises weekly in class room work and one triple period weekly in individual laboratory experimentation. The laboratory experiments are forty in number and include Physical Measurements, Mechanics of solids and fluids, Heat, Sound, Light and Electricity.

In the Senior College year two terms are given to College Physics. Two triple periods weekly are spent in laboratory work, and three in lectures, demonstrations or recitations in the class room. In the year 1898—99 the number of experiments was fifty.

CHEMISTRY. One term of the third Normal year is given to this study. The method of the course is largely laboratory work, to which one triple period a week is devoted; while four periods are given to class exercises.

In the College course two terms of the Junior year are given to Chemistry. There are three class periods and two triple laboratory periods weekly. The laboratory work is in General Chemistry with class room work based upon Rensson's Inorganic Chemistry. At the close of the course an elective is offered in Qualitative Analysis.

ASTRONOMY is taught in the Senior College and Normal years. The Institution owns a very good telescope. The College class pays especial attention to mathematical work.

Geology and Mineralogy are also taught to the two Senior classes. The course in Geology includes Dynamical and Structural Geology followed by an outline of Historic Geology. Sufficient insight into Mineralogy is given to make the student acquainted with the more common minerals and constituents of the earth's crust.

Laboratories and Cabinets. The courses in Chemistry and Physics are arranged to secure a large amount of individual practice. The Physical Laboratory, 50x20 ft., and the Chemical Laboratory, 50x25 ft., are fitted and furnished for the elementary and advanced courses. A well equipped Science lecture room is furnished with apparatus for class demonstration and lecture purposes.

Recently considerable additions have been made to apparatus, particularly in the lines of light and electricity; among these additions may be mentioned a spectroscope, an oxy-hydrogen lantern, and an influence machine especially adapted to demonstrate the X-ray.

The Geological and Mineralogical cabinets are well adapted to teaching purposes, especially in Dynamical and Structural Geology. There is also a fair beginning of a Zoological cabinet in the lower orders.

III. MATHEMATICS.

ARITHMETIC. For this as studied in the second year of the Normal course, and in the third year of the Normal and Preparatory courses, see Pedagogics.

Book-Keeping is required in the second year of the Normal and Preparatory courses and is especially designed to secure training in accu-
racy and in business methods.

**Algebra** is studied throughout the first year of the Normal and Preparatory courses. It is also studied during Freshman year, the drill being especially in Quadratics, Series, Logarithms, Theory of Equations, and Solutions of Higher Equations.

**Geometry.** Plane Geometry, entire, is taught in the third year of the Normal and Preparatory courses. A part of the Sophomore year is given to Solid and Spherical Geometry, including Conic Sections with problems.

**Analytical Geometry.** This subject is taken up during a portion of the Sophomore year.

**Trigonometry.** Plane and Spherical, with practical applications, including Spherical Astronomy, comes in the Sophomore year.

**Surveying,** with field practice, for which the school possesses good instruments, also comes in the Sophomore year.

---

### IV. English.

**Composition.** In the lower classes of the Normal and Preparatory courses, two hours a week are given to this work. Use is made of Lockwood's Lessons in English. In the upper classes the writing of themes, with criticism and Forensics, is employed. The writing of abstracts and theses is also required as a part of the study, in many classes. Public Rhetorical exercises are held six times a year, being made up of orations, essays, recitations and music.

**Rhetoric** is studied, in a more formal manner, by the Junior College and Senior Normal classes.

**English Literature.** The second and third year classes of the Normal and Preparatory courses are made familiar with some of the better known English and American prose writers. In College, the Junior class is expected to undertake a more thorough study of the most famous English poets, including Shakespeare and Milton.

---

### V. Biblical Literature.

Outlines of Biblical History are thoroughly mastered by the Normal and Preparatory classes with the use of the Blakeslee Graded Lesson system. In College the Freshman class uses Kent's History of the Hebrew People as the basis of a detailed study of the Hebrew Prophets. The Senior class also takes up the study of the more important parts of the Old Testament, as well as New Testament Greek with lectures on Textual Criticism and the Revised Version.

---

### VI. Philosophy.

**Psychology.** The Senior Normal class uses Ladd's Primer of Psychology with a view to becoming familiar with the more fundamental principles of mental activity, special attention being given to practical psychological observation and the pedagogical aspects of Psychology.
The Senior College class uses James' Psychology, the text book being supplemented by lectures and experiments.

Ethics. Some elementary work in this subject is done in the first year of the Normal and Preparatory courses. In the Senior Normal class the subject is again studied. In the College course the regular recitation work is supplemented by lectures.

For lectures on Greek Philosophy, see Greek.

VII. SOCIOLOGY AND HISTORY.

It is intended to develop this department not only for the sake of the mental discipline but also in order to familiarize our students with the history of nations and with the great economic and social problems of the world. It is hoped that thus they may be able to apply broad and careful knowledge to the solving of the many intricate social questions affecting their own people. The department aims therefore at training in good intelligent citizenship; at a thorough comprehension of the chief problems of wealth, work and wages; and at a fair knowledge of the objects and methods of social reform. The following courses are established:

Citizenship. In the Junior Preparatory and Junior Normal classes Dole's American Citizen is studied as an introduction. The Normal classes follow this by Fiske's Civil Government in the Senior year, and the Junior College class takes up Wilson's The State.

Wealth, Work and Wages. Some simple questions in this field are treated in the Junior Preparatory year, and Hadley's Economics is taken up in the Junior College year.

Social Reforms. Three terms of the Senior year are given to Sociology; the first term to a general study of principles, the second term to a general survey of social conditions, and the third term to a study of the social and economic condition of the American Negro, and to methods of reform. Mayo-Smith's Statistics and Sociology is the text book in use, and special library and thesis work is required.

In addition to this, graduate study of the social problems in the South by the most approved scientific methods is carried on by the Atlanta Conference, composed of graduates of Atlanta, Fisk, and other institutions. The aim is to make Atlanta University the center of an intelligent and thorough-going study of the Negro problems. Three reports of the Conference have been published, and a fourth is in preparation.

History. General and United States History are studied in the second and third years of the Normal course. Ancient History is taken in connection with the Ancient Languages and Bible study. Modern European History is studied in the Sophomore year; and some historical work is done in connection with other courses. Special reports on outside reading are required in all these courses.

The library contains a good working collection of treatises in History and Sociology.
VIII. PEDAGOGICS.

While the Normal course is distinctively a course preparatory to teaching, definite instruction in Pedagogy is not confined to the Normal Department. A course in Primary Methods, especially adapted to ungraded schools, is required in the Preparatory Department. In addition to this, instruction in Pedagogy was, in 1898, made an integral part of the College course. For the present a half-term will be required in the Junior and Senior College years. The course will include "Theory and Art of Teaching" and a study of problems in the practical administration of public schools.

ARITHMETIC. In the second Normal year a term is devoted to the science of Arithmetic, covering the expression, operations and relations of numbers, including fractions, ratio and proportion. Special stress is laid upon principles and analytical methods.

In the third year of the Normal and Preparatory courses there is a careful review of the applications of Arithmetic to denominate numbers, including the metric system, mensuration, percentage and its applications, and evolution. The method pursued here is analytical as above.

In the Senior Normal year a term is devoted to the discussion of methods in Arithmetic and to the principles of education and the art of teaching.

GEOGRAPHY. This subject is carefully reviewed in the Senior Normal year. Stress is laid upon the physical aspects of the subject and upon topical recitation. The class is used in this subject, and in Arithmetic and Language also, as a model class, and the pupils are used as practice teachers.

LANGUAGE. The structure of the English language is carefully studied in the Senior Normal year. The course recognizes that our English construction is based upon use and not upon inflection.

PRIMARY METHODS. In the second year of the Normal and Preparatory courses a term is given to this subject, including an outline of Psychology, principles of Education, discussion of methods in teaching, primary reading, spelling, writing, language and numbers; and discussion of school organization, teachers' moral duties, etc.

PSYCHOLOGY. For this as studied in the Senior Normal year, see Philosophy.

IX. ELOCUTION AND GYMNASIACS.

ELOCUTION. Instruction in this subject, including vocal expression, voice-training, pantomime and exercises from the Swedish gymnastics, is given to all the classes in the College and Normal courses.

The teacher is a graduate from the Normal course, who received special preparation for her duties at the School of Expression in Boston. She not only gives class instruction, but also individual drill to students who appear in public exercises.

GYMNASTICS. The room in the boys' dormitory formerly used as the study-hall of the Grammar School is now being fitted up for use as a
gymnasium. Nearly all of the apparatus is of our own manufacture. Instruction is given to an optional class during the winter season, and in rainy weather.

X. MUSIC.

VOCAL. This is required of all the Normal and Preparatory students. The lower classes receive elementary instruction according to the Holt system, while the upper classes have practice in chorus singing. Individual vocal instruction is given in special cases. The music on Commencement day is furnished by the students.

INSTRUMENTAL. Instruction on the piano and organ is given at a reasonable charge, for which see EXPENSES. Six pianos and four organs are owned by the Institution.

INDUSTRIAL TRAINING.

FOR BOYS.

All the boys in the Preparatory course receive instruction at the Knowles Industrial Building—for a description of which, see BUILDINGS—two triple periods each week. One year is devoted to wood-working, including wood-turning; one half year to forging; one and one half years to mechanical drawing, including machine design and strength of materials.

First Year. In the Bench Room are thirty benches and vices; each bench being fitted with a case of wood-working tools—squares, planes, chisels, gauges, saws, hammer, mallet, bit and brace, draw-knife, dividers, screw-driver, oilstone, etc. All boys in the Preparatory course begin their industrial work here, and are instructed in the general principles of wood-working: marking, sawing, planing, boring, chamfering, mortising, tenoning, grooving, mitering, beveling, dovetailing. All students are advanced through a series of carefully graded exercises, which are fully shown by working drawings and models of the same. The exercises for the earlier part of the year are nearly all performed at the benches; later, the students do cabinet work and pattern making, and construct useful and ornamental articles as may seem best adapted for their individual advancement.

Wood-turning is also introduced in the latter part of the year. The Lathe Room is fitted with twelve wood-turning lathes: each has a set of chisels, gauges, face-plates, chucks, and centers, suitable for a large variety of work. The course follows a series of graded working drawings, and at its completion useful and fancy articles can be made.

Second Year. The Forge Room is fitted with eleven forges and anvils, and is thoroughly supplied with small tools, suitable for doing ordinary blacksmith work and small machine forging. Instruction is given in heating, drawing, bending, upsetting, welding, annealing, tempering, etc. In iron-working, students are taught the correct ways of boring, turning, drilling, tapping, and finishing iron and steel; the use and care of the machines, and machine tools; the care and management of engine and boiler.
The last half of this year is devoted to Mechanical Drawing. The students gain a familiarity with the use of drawing instruments through a series of geometrical constructions, orthographic projections, sections, line shading, development of helical curves, lettering, and blue printing.

**Third Year.** Mechanical drawing for the last year includes the working of problems in kinematics—cams, gear teeth outlines, screws, shafts, cranks, pulleys, etc. General and detailed drawings and tracings of the same are made. In all possible cases the kind and strength of material and cost of manufacture are considered. The course closes by each student making an assemblage drawing, upon some approved subject, called a thesis drawing.

**FOR GIRLS.**

Instruction is given to all girls in the Normal and Preparatory courses in sewing, cooking, and household management.

**First Year.** Instruction is given in sewing; the stitches being learned on a piece of cloth with different colored threads; then holders, sheets, pillow cases and aprons are made.

**Second Year.** Different kinds of darning and patching are taught, and various articles made, including underwear, children's dresses, etc. The girls have the privilege of buying at cost the articles made.

**Third Year.** The work in cooking extends throughout the year. The care and management of a fire, the structure of the stove, the washing of dishes and cleaning of boards and closets are given careful consideration.

The chemistry of cooking is illustrated by simple experiments and then given practical application in the cookery of eggs, meat, vegetables, cereals, batters, doughs, soups, etc.

Sewing is continued through the year and includes the making of a shirt waist and simple skirt.

**Fourth Year.** An advanced course in practice cooking is given. The subjects considered theoretically are, the classification of food both chemically and physiologically, buying and care of food supplies, food economics, preparation of menus with reference to nutritive value and cost, theory of digestion and fermentation.

Instruction in the care and management of the house is given in lectures on sanitation, plumbing and ventilation, and practice in the different lines of household work.

**PRINTING OFFICE.**

There is a large and well appointed Printing Office in the principal University building, in which instruction is given to optional classes, both of boys and girls, without extra charge. Type-setting, newspaper, book and job work are taught by an experienced superintendent. Two monthly papers are published: one by the institution, *The Bulletin of Atlanta University*; one by the students, *The Scroll*. Job printing is done for the institution and others by student labor.
GENERAL INFORMATION.

LOCATION.

The University grounds are at the head of West Mitchell street, about one mile from the center of the city of Atlanta, Ga. Electric cars, marked “ATLANTA UNIVERSITY,” leave the corner of Marietta and Broad streets every half-hour, and run past the gate.

MEMBERSHIP.

For membership in the institution, a person must have a good moral character, and must sign a pledge to abstain from the use of all intoxicating drinks, and tobacco in every form, while a member of the school.

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The institution has a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained.

Pupils from other schools must present certificates of honorable dismissal.

Applications for admission should be made at least a month before the beginning of the school year, and should state, fully, previous education and present plans.

Students should enter the first day of the school year, that they may be immediately classified, and thus lose no time in beginning work.

Students lose their membership in class when absent one month.

During vacation, as well as during term time, students are held amenable to the authority of the school.

Those who have not a fixed purpose to improve their time, and an earnest desire to fit themselves for usefulness, should not seek admission, as the presence of such persons is not tolerated.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.
EXPENSES.

Boarding, including furnished rooms, fuel, lights, and washing,
per month — — — — — — — — $10.00
Tuition in College Course, per month — — — 2.00
Tuition in Normal, College Preparatory, and Sub-Normal Courses, per month — — — 1.50
Instruction in Instrumental Music, per month — — 1.00
Use of instrument one hour per day, per month — — 1.00
Instruction in Vocal Music per month — — 2.00

All payments are due in advance on the first day of each calendar month. Fractions of a month are charged at a somewhat higher rate.

In case girls do their own washing in the Institution Laundry, an allowance from the above charges for board will be made.

All boarding pupils are required to work for the Institution at least one hour a day. This requirement helps to make the above low charges possible.

Remittances in payment of bills should be made by money orders, drafts, in registered letters, or by express.

Make money orders or drafts payable to Atlanta University. Receipts will be promptly returned.

STUDENT AID.

Some students have been aided during the past year by contributions from the friends of popular education. It is expected that this help will be continued.

The income of the King, the Cassedy, the Dodge, the Hastings, the Boyd, the Plainfield, and the Garfield Scholarship Funds is now available.

Persons should not come expecting to receive aid until they have applied for it, and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and, as far as possible, what pursuit they intend to follow. In no case is aid granted for a longer time than the current year, without renewed application.

Those who are aided are assigned to some extra work. It is expected that they will, when able, return the amount to aid others.
Nearly all of those who are sufficiently advanced in scholarship, aid themselves by teaching. The demand for teachers is usually in excess of the supply.

County School Commissioners, and others, desiring teachers from this Institution, will find it advantageous to arrange their schools, if possible, so as to include its summer vacation, viz.: the months of June, July, August and September. Communications from all such officers will receive prompt attention.

Students of this Institution desiring to teach will be furnished certificates of membership and standing. As a means of protection against imposition, applicants for schools, claiming to be from Atlanta University, should be requested to exhibit such certificates.

It is expected that a majority of the students will engage in teaching, and instruction in all departments is adapted to that end.

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains over ten thousand volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, which insures its steady growth. It has been completely catalogued according to the Dewey system.

In connection with the Library are two Reading Rooms, well supplied with the leading papers and periodicals of the country, and the students have free access to these, as well as to the Library.

The students of Atlanta University come largely from cities, and the majority of the graduates are at work in cities. Hence it seems eminently fitting that this Institution should take the lead in considering the problems that arise in connection with the life of the Negro in the cities.

Three conferences have been held, in 1896, '97 and '98. The proceedings of each have been published in pamphlet form by the Atlanta University Press, the titles being: "Mortality among Negroes in Cities," "Social and Physical Condition of Negroes in Cities," and "Some Efforts of American Negroes for their own Social Betterment."

The fourth conference will be held May 30 and 31, 1899.
GOVERNMENT.

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment, which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a fixed purpose to improve his time, and an earnest desire to fit himself for usefulness, he is removed without specific charges.

Suspension and expulsion from the institution are resorted to in cases whose seriousness calls for such punishment.

When students are exposing themselves and others to permanent harm, it is expected that high-minded persons will be governed by the dictates of conscience and common sense, rather than by any false sense of honor in regard to disclosing the facts to the proper authorities.

BUILDINGS.

The buildings are situated on high ground, in the western part of the city, and are surrounded by about sixty-five acres of land belonging to the Institution.

DORMITORIES.

During the summer of 1869, a plain four-story brick building was erected, containing sleeping rooms for about forty pupils, and also a parlor, dining-room, kitchen, etc. It was designed for a girls' dormitory, but, during the first year, furnished all accommodations, both school and boarding, for boys and girls. In August of 1870, another building of the same style, but larger, containing sleeping rooms for about sixty boys, besides temporary school-rooms, was completed. In the summer of 1871, this building was enlarged by a wing providing rooms for about forty additional pupils and other school-rooms. In the summer of 1880, a portion of the gift of Mrs. Stone, of Malden, Mass., was used in erecting a wing to the first-named building. This wing provides for fifty additional pupils, and has a large study-hall connected with it.

In the summer of 1884, large rooms for the accommodation of the cooking classes, and for other purposes, were added to this building.

In the summer of 1893, a complete system of sanitary plumbing, with bathtubs supplied with hot and cold water, was put into the buildings.
STONE HALL.

This building, erected in 1882, stands between the two dormitories, and is a gift of the late Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel and library, the large school-room, recitation and lecture rooms, the printing office, the physical and chemical laboratories, offices, etc. This building and the two dormitories are heated by steam, from one plant.

KNOWLES INDUSTRIAL BUILDING.

This building, erected in 1884, is for the use of the Mechanical Department. It is a memorial of the late Mr. L. J. Knowles, of Worcester, Mass., his widow having appropriated from his estate $6,000 for its erection. Other contributors towards the building and its furnishings are Mr. F. C. Sessions, of Columbus, Ohio, $700; the Slater fund, $900; a friend in New York, and friends in Massachusetts.

The building is of brick, one hundred by forty-four feet, and three stories high. One room, forty by fifty feet, is furnished with thirty cabinet benches, each fitted out with a set of wood-working tools.

Another room contains a fifteen-horse-power engine, cut-off and rip saws, pony planer, grindstone, benches, and tools for general use.

In another room are twelve wood-turning lathes, and two power jig-saws.

A wing, thirty-two by forty feet, contains twelve forges and sets of tools. Still another room is used for mechanical drawing, accommodating a class of twenty-five, the furniture of which was made by the students, as most of that in the building has been.

A basement room, forty by fifty feet, designed for a machine shop, contains one 14-inch Lathe & Morse engine lathe, a Loge & Davis upright drill, a double emery grinder, set of machinist's tools, and twelve cabinet benches, equipped with vise, and tools for chipping and filing.

There is also a moulding-room for casting lead and brass.

THE BARN.

The barn, erected in 1882, forty by sixty feet, with cellars of the same size, furnishes facilities for development of the farm work of the Institution.
THE MODEL HOME.

Contributions for the erection of this building have been gradually accumulating for several years, chiefly from Circles of King's Daughters in many parts of the country and from personal friends of the late Mrs. Maria B. Furber, wife of the Rev. Dr. Daniel L. Furber of Newton Centre, Mass. The building is now in process of erection, and will greatly increase our facilities for teaching the domestic arts in the most thoroughly scientific as well as practical manner.

FUNDS.

The school being almost entirely without endowment is dependent mainly upon annual donations from the benevolent public for all support not derived from tuition charges. The amount required from benevolent sources to support the school, on its present scale, is at least $25,000 yearly. The American Missionary Association aided in the foundation of the school, and, until recently, has assisted it with a small annual appropriation, which of late years has been $3,000. This has now ceased, in accordance with the recently formulated policy of the Association, to throw upon institutions aided by it the burden of self-support as soon as practicable.

The late Mr. Tuthill King, of Chicago, founded the King Scholarship Fund of five thousand dollars.

Mr. J. H. Cassedy, of New York, founded the Cassedy Scholarship Fund of ten thousand dollars.

The late Hon. Wm. E. Dodge, of New York, founded the Dodge Scholarship Fund of five thousand dollars.

A friend founded the Hastings Scholarship Fund of one thousand dollars.

The late Mrs. Sarah C. Boyd, of Bradford, Mass., founded the Malcolm Boyd Scholarship Fund of five hundred dollars.

The Plainfield Scholarship Fund consists of three hundred dollars; and the Garfield Scholarship Fund, contributed mainly by scholars in the University, and pupils in schools taught by them, consists of one thousand dollars.

The Rescue Fund for endowment now amounts to $2,086.42.

The Frederick E. Weber Fund of five thousand dollars is from the estate of the late Frederick E. Weber of Boston, Mass.
PRIZES.

The Quiz Club Prizes for an annual contest in English Composition and Oratory were established by an association of gentlemen in Boston, Mass., in 1890. The following conditions of the contest are prescribed by the givers:

1. All members of the College and Senior Preparatory classes of Atlanta University shall be allowed to compete.

2. No essay shall exceed 2,500 words in length, and none shall be less than 2,000 words.

3. All essays shall be handed to the President of Atlanta University on or before the 31st of March. Those deemed of sufficient merit shall then be forwarded to the Quiz Club Committee. The committee, with the addition of one of the professors in the English Department in Harvard University, shall examine and mark the essays. They shall be marked on the scale of 100.

4. The essays shall then be returned to Atlanta University; with them a list of the marks accorded to each essay. These marks are not to be made known until after the oratorical contest.

5. A public oratorical contest shall then be held, the competitors to be the writers of the eight best essays. The essays shall be shortened, so that none shall exceed fifteen minutes in delivery. Marks shall be awarded the orations, on the merit of delivery, on the scale of 100.

6. The two marks of each competitor shall then be averaged, and the prizes awarded.

The subject assigned by the committee for essays for the year 1898-99 is:

"Some Practical Educational or Political Reform".

For the year 1897-98 prizes were awarded as follows:

1st Prize, $35—Ruth M. Harris.
2d Prizes, $25 each—George F. Porter, Edward E. Curtright.
3d Prizes, $15 each—John P. Seabrooke, Edward L. Simon.

For the school year of 1898-99, five prizes, of the value of $115, are offered. The third prizes are open only to those who have not previously won a prize.

The public oratorical contest is held during Commencement week.
HONORS.

At the end of their Sophomore and Senior years, honors are awarded to those students who have maintained a certain average rank. The designating phrases used are: With Highest Honor; With High Honor; With Honor.

The award announced at the Commencement of 1898 was as follows:

Class of 1898.
With Honor.
OPHELIA OLIVIA BROOKS,
JULIA GOODWIN CHILDS.

Class of 1900.
With High Honor.
LULA IOLA MACK.

MISCELLANEOUS SUGGESTIONS.

Each pupil should bring a Bible. It is needed for private reading, for the Sunday-school, and for use in classes.

It is well to bring text-books formerly used.

Students are required to be furnished with all prescribed text-books at the time when the use of them begins.

All should be provided with warm clothing.

Young women must have rubbers and waterproofs.

The use of expensive and showy dress is not permitted. Silks, velvets and jewelry worn by school-girls is indicative neither of good taste nor good sense. Prints, ginghams and plain worsteds, neatly made, and colored underskirts, are the most appropriate wear.

White dresses are not permissible.

Parents will do well not to send clothing, unless the request for it is endorsed by the Preceptress. No extra dress is required for the close of school. Experience has taught that much evil comes from pupils receiving food or large quantities of fruit, or candy, from home or friends. They are, therefore, not allowed to receive it. Friends will please not send it.

Letters should be directed to the care of Atlanta University, Atlanta, Ga.

Students who do not board at their own homes are not allowed to board out of the Institution, unless by special permission.
Boarders are expected to furnish their own towels and napkins. Keeping or using firearms on the premises is forbidden.

Students should, in all cases, be regularly excused when they leave school, as leaving otherwise is regarded as an offense.

Students from a distance should arrange their journey so as not to arrive on the Sabbath, as they will not be admitted on that day. When going away, they should apply for dismission in season to arrive at home before the Sabbath. Students are not allowed to make visits on the Sabbath, and their friends are earnestly requested not to call upon them on that day.

The Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends.

Among the appropriate means for securing such results, the Sabbath, with its religious services, is most important. The excitement of visiting prevents, in a great measure, the benefit that may be derived from a proper observance of the day.

It is desired to make the school, as far as possible, a home for those who attend. Not only their intellectual, but also their physical, social, moral and religious culture receives careful attention.

CORPORATE NAME.

The corporate name of this Institution is The Trustees of the Atlanta University.

THE WORK OF OUR PUPILS.

The great majority of the graduates, and many others who have left before finishing their course, are engaged in teaching during a part or all of the year. Besides these, during the four months of the summer vacation, a large number of students engage in teaching, so that a very large number of children in Georgia are taught annually by those who have been connected with the Institution.
