COURSES OF STUDY

There are three courses of study: the High School, the Normal, and the College. See p. 8 for entrance requirements.

NOTE.—The figures denote the number of recitations, or their equivalent, a week. All studies continue throughout the year, unless otherwise indicated. Subjects italicized are elective in the group in which they occur.

The High School

The Classical Course prepares for the College courses.
The English Course prepares for the College Course in Education and the Normal Course.

It is not intended that the above groups shall be absolutely rigid, but that the Faculty may make changes in the method of grouping to meet special conditions.

No subject is ordinarily offered unless elected by at least four students.

The College Course in Education includes in its first two years the college work required of all (15), Psychology A (2), and the Junior Normal subjects (17). In its last two years it includes the college work required of all (9, as Pedagogy B is in the next group), the Senior Normal subjects (17), and such other Junior or Senior College work (8) as will compete the number of courses needed.

The Kindergarten Course is parallel with the Normal Course, including in the Junior year Children's Hand-work and Games (2), Froebel's Gifts and Occupations (4); and in the Senior year Practice Teaching (5 or 6), Kindergarten Principles (2), Froebel's Mother-play (3); and such other assigned Junior and Senior Normal work as will complete the number of courses needed in each class respectively.

ENTRANCE REQUIREMENTS

The requirement for admission to the lowest class in the High School is the completion of the ordinary grammar school course. Examinations are given in arithmetic, grammar, U. S. history and geography. For admission to higher classes and courses students are required to give evidence that they have completed all lower work, or its equivalent.

Candidates for advanced standing, from certain schools on a list approved by the faculty, are admitted almost wholly by certificate; though even such candidates are usually examined in some subjects. Certificates must be explicit, on blanks provided by us. Principals filling out such certificates are referred to the descriptions of Preparatory Courses, under "Courses of Instruction," p. 10 ff., as a guide indicating the character and amount of work expected by us in the various subjects.

The requirement of four full years for admission to the Normal course does not go into full effect until the fall of 1914. Three years of high school work, judged by our standards, will suffice for admission to this course in the fall of 1912.
Post-Graduate Course

The following information is given concerning the conditions which must be met by candidates wishing to receive the degree of A. M. from Atlanta University:

1. Post-graduate work is under the supervision of a standing committee, composed of the President and two other members of the Faculty.

2. It is the duty of this committee to admit candidates to registration, oversee their work, and recommend such as they approve to the Faculty as suitable candidates for the degree of Master of Arts.

3. Candidates shall select their courses of study under the supervision of this committee. In the case of non-resident as well as resident candidates, instructors for each course shall be designated by the committee.

4. Forty credits shall be necessary to the granting of a degree, this being equivalent to four courses during one year of resident work, or to an approved number of courses during at least two years of non-resident work.

5. In the case of non-resident students it is expected:
   (a) That a minimum of two hours a day for 104 weeks will be given to the study.
   (b) That written quarterly reports be submitted regularly to the committee on graduate work, stating in detail the work done.
   (c) That a written thesis be submitted at the end of the first year's work.
   (d) That a written examination be passed at Atlanta University before the conferring of the degree.

In imposing the above conditions the committee may take such account as they think proper of work already done by the student before registration. The Trustees have authorized the granting of credit for advanced work, either as student or teacher, in other schools of high rank. Application for credit, for work done before registration, must be made to the President, and must be explicit and in detail.

6. The course of study open to graduate students, subject to the approval of the committee, shall be:
   (a) Any of the advanced courses given in the catalogue which the student has not had.
   (b) Any other practicable courses suggested by the standing committee or the candidate.

7. The fee is $20.00, i.e., the same as the college tuition for one year. The diploma is $5.00 additional.

Two Fellowships have been established by the Trustees, open to college graduates. Holders of these fellowships will have part of their time for study, and will also, for a moderate compensation, be assigned to certain work as teachers or assistants of teachers.

Three Tutorships have been similarly established for graduates of the normal course. Holders of these tutorships will be assigned to work in the Oglethorpe School; one in the kindergarten, two in the grades.

Further particulars can be learned from the President.
COURSES OF INSTRUCTION

The figures denote the number of recitations, or their equivalent, a week. All studies continue throughout the year unless otherwise indicated.

I. CLASSICS AND MODERN LANGUAGES

PREPARATORY COURSES

LATIN B 8. Second Year. The equivalent of four books of Caesar; drill in grammar and prose composition. Greenough, D’Ooge and Daniell’s Second Year Latin.

GREEK A 8. Senior Prep. Elementary, and two books of Xenophon’s Anabasis.

COLLEGE COURSES

LATIN I 8. Freshman. Selections from Cicero, Livy and Horace, or equivalents; attention also given to Roman history and literature.

LATIN II 8. Sophomore. Selections from Tacitus and other Latin authors.

GREEK I 8. Selections from Lucian, Herodotus and Homer.

GERMAN I 8. Sophomore. Elementary, followed by easy reading, then a selected classic, as Schiller’s William Tell. Required of all.

FRENCH I 8. Senior. Chardenal’s Complete Course, supplemented by exercises in conversation, and the stories L’Abbe Constantin and Gil Blas, or their equivalents. Required of all.

II. PHYSICAL AND NATURAL SCIENCES

PREPARATORY COURSES

PHYSICAL GEOGRAPHY (½) 8. Second Year. Elementary.

BIOLOGY A 8. Junior Prep. Physiology one-half year; and botany, and also elements of agriculture, one-half year. At least three periods weekly required of all.

CHEMISTRY A 8. Junior Prep. Elementary, one-third of the time being given to laboratory work.

PHYSICS A 8. Senior Prep. Elementary, one-third of the time being given to laboratory work; experiments in physical measurements, mechanics of solids and fluids, heat, light, sound and electricity. Required of all.
COLLEGE COURSES

CHEMISTRY I. Open to Freshmen. One-half of time given to laboratory work. General chemistry.

CHEMISTRY II. Open to Sophomores. Qualitative analysis.

PHYSICS I. Open to Juniors. Mathematics I, II and III are prerequisites. One-half of time given to laboratory work, and one-half to lectures, demonstrations and recitations.

BIOLOGY (J). Open to Juniors. (To be announced next year.)

GEOGRAPHY (J). Open to Juniors. Including mathematical and astronomical geography.

GEOLOGY (J). Open to Juniors. Dynamical and structural, followed by an outline of historic.

ASTRONOMY (J). Open to Juniors. Special attention paid to mathematical astronomy.

NORMAL COURSES

See GEOGRAPHY and GEOLOGY, under PEDAGOGY.

LABORATORIES AND CABINETS. The physical laboratory, 50x20 feet, and the chemical laboratory, 50x25, are fitted and furnished for the elementary and advanced courses. A well-equipped science lecture room is furnished with apparatus for class demonstration and lecture purposes. The geological and mineralogical cabinets are well adapted to teaching purposes.

III. MATHEMATICS

PREPARATORY COURSES

A. ALGEBRA. First or Second Year. Elementary, including ratio and proportion, radicals, radical equations, theory of exponents, the binomial theorem, simple quadratics, use of the graph. Required of all.

B (J). GEOMETRY. Junior Prep. The more essential principles of plane geometry, including the simpler originals, theorems and constructions. Required of all.

D. ALGEBRA. Senior Prep. Review of elementary work, and especial drill in quadratics, complex numbers, logarithms, the use of the graph.

E (J). BUSINESS METHODS. Junior Prep. Designed to give a general knowledge of business forms and the keeping of accounts.

COLLEGE COURSES

I. Freshman. ALGEBRA one-half year, with especial drill in series, determinants, solutions of higher equations; and GEOMETRY one-half year, solid and spherical, with problems. Required of all.
II (J) 4. TRIGONOMETRY. Sophomore. Plane and spherical, with practical applications, including spherical astronomy; and surveying, with field practice. Required of all.

III (J) 4. ANALYTICS. Sophomore. The classes will take up the topics usually treated under these heads, with special application to engineering problems.

For ENGINEERING and MECHANICS, see MECHANIC ARTS.

IV. ENGLISH

PREPARATORY COURSES

ENGLISH B 5. Second Year. General survey of both English and American literature. Reading and memorizing, with oral and written reports. Required of all.

ENGLISH D 4. Senior Prep. (To be announced next year.)

BIBLE A. See under ENGLISH A.

ELOCUTION A and B. Twice a week during one semester, for students in Second and Fourth Years; each time taking the place of one exercise in ENGLISH B and D. Drill in vocal expression, voice training and pantomime.

NORMAL COURSES

ELOCUTION. Senior. Similar to College Course.

COLLEGE COURSES

ENGLISH I 4. Freshman. Detailed study of several extended classics; lectures upon the art of composition; elementary argumentation. Required of all.

BIBLE I (J) 4. Junior. After a study of the formation of the canon, of the various versions, and of the literary qualities of the Bible, the historical method is used in a study of the history of the Hebrew people through the Greek period. Text: The Old Testament and Sanders and Fowler's Outlines of Biblical History and Literature. Collateral reading. Required of all.

ELOCUTION I (J year), Freshman, and II, Senior. Voice culture, physical exercises, gesture drills, and training in reading from standard literature. The aim in this department is to lead the pupil to think clearly and deeply, and to express simply, forcefully, and beautifully, his own thoughts and the thoughts of others. As an outcome of this study, the Merchant of Venice was presented as the class night exercise in 1905, the Taming of the Shrew in 1906, As You Like It in 1907, Twelfth Night in 1908, Sheridan's Rivals in 1909, The Tempest in 1910, and Midsummer Night's Dream in 1911.

PUBLIC RHETORICALS. Rhetorical exercises, to which the public is especially invited, are held six times a year, being made up of orations, essays, recitations and music. For the dates, see Calendar.

V. PHILOSOPHY

COLLEGE COURSES

PSYCHOLOGY I (J) 4. Sophomore. The text book, Angell's, is supplemented by collateral readings, lectures and experiments. This is an introductory course, giving a general survey of the essential facts and fundamental laws of mind and of consciousness. References: James, Baldwin, Calkins, Murray, Sully, Spencer, Munsterberg, Ladd.

HISTORY OF PHILOSOPHY I (J) 4. Junior. A study of the development of philosophic thought, beginning with the Greeks, continuing through the Renaissance, the modern systems from Bacon and Descartes through Kant, and the important developments since Kant. The text book will be supplemented by lectures and required readings in the sources. Text: Rogers. References: Bakewell, Rand, Eberweg, Erdmann, Royce, Windelband, Lotze.

ETHICS I (J) 4. Senior. A systematic course, investigating the psychological basis of conduct, tracing the growth of moral ideas in the race and discussing the various theories of the moral standard, with especial reference to the social consciousness. A thesis is required of each student. Text: Dewey and Tufts. References: Mackenzie, Paulsen, Muirhead, Spencer, Baldwin, Sidgwick.

See under PEDAGOGY.

NORMAL COURSES
VI. SOCIOLOGY AND HISTORY

It is intended to develop this department not only for the sake of the mental discipline, but also in order to familiarize our students with the history of nations and with the great economic and social problems of the world. It is hoped that thus they may be able to apply broad and careful knowledge to the solving of the many intricate social questions affecting their own people. The department aims, therefore, at training in good, intelligent citizenship; at a thorough comprehension of the chief problems of wealth, work, and wages; at a fair knowledge of the objects and methods of social reform; and at a general comprehension of the world’s thoughts and deeds. The following courses are established:

PREPARATORY COURSES

CIVICS A (½). Second Year. Dole’s American Citizen.

HISTORY A. First or Second Year. A course in English history with a special desire to show the development of England and its relation to Western Europe, the New World, the far East, and Africa. Or, general history; the first semester, to 800 A.D., and the second semester, to 1900 A.D. Required of all.

NORMAL COURSES

HISTORY (½). Junior. A course in the history of the United States, intended especially for teachers. Special attention is given to the Negro’s connection with the history of the United States. A thesis on slavery, embodying results of personal research, is required of each student.

CIVICS (½). Junior. A course in the government of the United States, with special reference to its historical development.

COLLEGE COURSES

HISTORY 1. Junior. World history; and history of the Negro, with special reference to the United States and Africa.

ECONOMICS 3. Junior. General economics, and economic history of the Negro American. The principles of political science are included in this course.

SOCIOLOGY 4. Senior. General sociology, and social condition of the Negro American.

SOCIOLOGICAL LABORATORY. This consists of a special library of books on statistics, economics, sociology and history, with duplicate copies of standard works and of maps, charts and collections illustrating social and historic conditions. Here the courses of this department are taught, with special reference to the American Negro. Field work and thesis work are required.
In addition to this, graduate study of the social problems in the South by the most approved scientific methods is carried on by the Atlanta Conference, composed of graduates of Atlanta, Fisk, and other institutions. The aim is to make Atlanta University the center of an intelligent and thorough-going study of the Negro problems. Sixteen reports of the Conference have been published, and the seventeenth is in preparation.

The library contains a good working collection of treatises in history and sociology, and special reports on outside reading are required in all these courses.

VII. PEDAGOGY

PREPARATORY COURSE

METHODS IN ART 2. Senior Prep. (To be announced next year.)

NORMAL COURSES

A (\(4\)) 4. EDUCATIONAL PSYCHOLOGY. Junior. The study of this subject in its relation to the work of the teacher.

B (\(4\)) 4. PEDAGOGY. Senior. This course deals with school management and organization, which includes the planning of courses of study for elementary and secondary schools, the consideration of educational values, the history of education, and the discussion of the problems peculiar to the common schools of the South.

C2. GENERAL METHODS. Senior. Discussion of all subjects of study taught in the Oglethorpe School, and of their relations to each other and to the whole. Special discussion of the methods of teaching. General critic work. Kindergarten principles and practice.

D. KINDERGARTEN METHODS. Senior. (To be announced next year.)

E1. OBSERVATION. Junior. The Oglethorpe School is used for this purpose.

F3. TEACHING. Senior. (To be announced next year.)

G. SPECIAL METHODS. (a) ARITHMETIC 4. Junior. A careful review of principles and applications, laying special stress upon analytical methods, and discussion of methods of teaching.

(b) GRAMMAR (\(4\)) 4. Junior. The structure of the English language is carefully studied. The course recognizes that our English construction is based upon use and not upon inflection.

(c) ART AND METHODS 2. Junior. Drawing and painting in connection with nature study and other school subjects. Principles of design, and their applications. Basketry and other hand work for the various grades. Teaching the use of native materials.

(d) STUDY OF KINDERGARTEN MATERIALS 2. Junior. Study of the educational toys, songs, and games of the kindergarten.

(e) GEOGRAPHY AND PHYSIOGRAPHY 4. Senior. “Principles of Geography” is made the basis of the course. This includes mathematical
and astronomical geography; the principles of relief, the principles of climate, the principles of plant and animal distribution.

(f) Music. Senior. Twice a week for the year. Taken with especial reference to teaching.

(g) Home and School Sanitation. Senior. One semester. (To be announced next year.

THE OGLETHORPE SCHOOL. In this school—described under Buildings—is given an opportunity to engage in the actual work of teaching, and to observe such work, under thoroughly competent supervisors. The organization includes eight grades and a kindergarten.

See also under MANUAL TRAINING and ENGINEERING.

COLLEGE COURSES

Normal course B is required of all in the senior year, and the other normal courses are included in the special college Course in Education.

VIII. MUSIC

VOCAL Music. This is required of all High School students in the first and second years. These receive such elementary instruction as is needed, and have practice in chorus singing. An advanced chorus meets twice a week throughout the year, being composed of most of the High School students beyond the second year, and selected College and Normal students. This chorus gives a public concert at least once each year, and furnishes the music during the Commencement season. For terms of instruction to private pupils, see EXPENSES.

INSTRUMENTAL Music. Instruction in the piano is given at a reasonable charge, for which see EXPENSES. Eight pianos are in use by the Institution. An effort is made to suit the instruction to the needs of the individual pupil. In general the Elementary Course includes a thorough foundation in technique, studies and sonatinas selected from Loeschhorn, Duvernoy, Kohler, Czerny, Heller, Kuhner, as well as easy pieces by classical and modern composers; the Advanced Course continues the study of technique, including major and minor scales in various forms; arpeggios and chords, etudes and studies by Czerny, Heller, Cramer, Moscheles, Henselt and Clementi; Bach’s inventions. Greater attention is given to such composers as Mendelssohn, Schumann, Schubert, Chopin, Grieg, Rubinstein, Mozart, Haydn, Beethoven. Private recitals are given at intervals and a public recital is given at the close of the year.

HARMONY. The Grammar of Music.

APPRECIATION. An analytical study of musical forms from the standpoint of the listener. These courses are offered on alternate years, and are open only to students of college rank or its equivalent who are advanced as far as fourth grade in music or its equivalent.
IX A. MANUAL TRAINING FOR BOYS

MANUAL TRAINING A. First Year. (a) Mechanical Drawing (48 hours). Working drawings and lettering. (b) Free Hand Drawing (48 hours). Model drawing. (c) Bench Work (96 hours). Use of the common wood working tools.

MANUAL TRAINING B. Second Year. (a) Wood Turning (64 hours). Exercises in spindle turning. (b) Mechanical Drawing (32 hours). Group 1-3 in Bennett’s “Problems in Mechanical Drawing.” (c) Furniture Making (96 hours). Design, construction and finishing of a simple piece of furniture.

MANUAL TRAINING C. Junior Prep. (a) Forge Work (64-hours). Simple operations in blacksmithing including welding. (b) Mechanical Drawing (64 hours). Group 4-7 in Bennett’s “Problems in Mechanical Drawing.”

IX B. MECHANIC ARTS AND ENGINEERING

The Mechanic Arts and Engineering Group is designed primarily to fit our graduates for teaching along industrial lines.

PREPARATORY SUBJECT

COLLEGE SUBJECTS

ENGINEERING I. Freshman. Description of engineering machines and operations.

ENGINEERING II. Sophomore. (a) (½ year). Descriptive Geometry. (b) (½ year). Principles of Design.

ENGINEERING III. Senior. Applied Mechanics.

MANUAL TRAINING II. Senior. Materials and methods of manual training. Practice teaching.

IX C. MANUAL TRAINING FOR GIRLS

Instruction is given to all girls in the High School course in sewing, dressmaking, cooking and household management; the more advanced work being assisted by residence and practice in the Furber Cottage.

SEWING

First Year. 72 hours. Instruction is given in basting, backstitching, running, overcasting, hemming, oversewing, French seam, outlining, patching, felling, napery stitch, tucking, gathering and binding, button-holes, and sewing on buttons.
Second Year. 72 hours. Different kinds of darning, drafting, cutting and making undergarments, plain machine work. Girls can buy garments at cost.

Junior Prep. 60 hours. Hemstitching, featherstitching, shirt-waist drafting, cutting and making shirt-waist suits.

Senior Prep. 60 hours. Dressmaking, skirt and waist drafting. Students are expected to be prepared to buy a chart for drafting, also to buy an inexpensive woolen dress, linings and trimmings, for practical work.

COOKING

Junior Prep. 60 hours. This includes a study of the following subjects related to cooking and household management: the care and cleanliness of dishes, kitchen utensils, sink and ice-chest; the value of sunshine and fresh air throughout the house; yeast and bread making, buying and cooking of meats. The chemistry of cooking is illustrated by practical experiments, and charts are used to show the comparative nutritive values of foods. Emphasis is placed upon the wholesome and economical use of “left-overs.”

Junior and Senior Years. The members of the Normal course spend a portion of their time in the Furber Cottage, where practical instruction in cooking and housekeeping is given.

LAUNDERING

This is a part of the assigned work (p. 20) and affords opportunity for instruction in washing and ironing under the supervision of the laundry superintendent.

HOUSEHOLD ARTS², Senior Prep., to be announced next year.

PRINTING OFFICE

There is a well-appointed printing office in South Hall, in which typesetting, newspaper, book, and job work are taught by an experienced superintendent. Three papers are published: one quarterly by the Institution, THE ATLANTA UNIVERSITY BULLETIN; one monthly by the students, THE SCROLL; and one monthly by the Alumni, THE CRIMSON AND GRAY. One issue of the BULLETIN is the annual catalogue. We also print the annual Conference report. Job printing is done by student labor.

The office is equipped with a Mietz & Weiss gas engine, one Colt’s Armory press 14x22, one Gordon press 8x12, one 32-inch paper cutter, 80 fonts of job type, 1,500 pounds of body type, Kaufman stone 40x80, one Polhemus and three Tracy steel-run cabinets.
GENERAL INFORMATION

LOCATION

The University grounds are at the head of West Mitchell street, about one mile from the center of the city of Atlanta, Ga., and a little more than one-half mile from the new terminal station. Electric cars marked "WEST HUNTER, ASHBY ST.," leave the corner of Marietta and Broad streets, run near the terminal station, and directly past our gate.

MEMBERSHIP

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The Institution has a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained.

Application for admission should be made at least a month before the beginning of the school year, and should state, fully, previous education and present plans.

Students should enter the first day of the school year, that they may be immediately classified, and thus lose no time in beginning work.

Students lose their membership in class when absent one month.

During vacation, as well as during term time, students are held amenable to the authority of the school.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

GOVERNMENT

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment, which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a fixed purpose to improve his time, and an earnest desire to fit himself for usefulness, he is removed without specific charges.

Suspension and expulsion from the Institution are resorted to in cases whose seriousness calls for such punishment.

When students are exposing themselves and others to permanent harm, it is expected that high-minded persons will be governed by the dictates of conscience and common sense, rather than by any false sense of honor in regard to disclosing the facts to the proper authorities.

All payments are due in advance on the first of each calendar month. Fractions of a month are charged at a somewhat higher rate.

Students taking instruction in music, vocal or instrumental, are required to make a deposit of $1.50 at the beginning of each term to pay for needed music. Any unused balance will be returned. Notice of intention to discontinue special lessons should be given in writing at least two weeks in advance.

Students given the favor of a special examination, apart from the time regularly assigned to entrance or class examinations, pay a moderate fee for the privilege.

All boarding pupils are required to work for the Institution at least one hour a day. This requirement helps make the above low charges possible.

Remittances in payment of bills should be made by money orders, drafts, in registered letters, or by express.

Make money orders or drafts payable to Atlanta University. Receipts will be promptly returned.

STUDENT AID

Some students have been aided in past years by contributions from the friends of popular education. It is expected that this help will be continued, and the income of the scholarship funds named on p. 23 is also now available.

Persons should not come expecting to receive aid until they have applied for it and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and, as far as possible, what pursuit they intend to follow. In no case is aid granted for a longer time than the current year, without renewed application. Those who are aided are assigned to some extra work. Upon the faithfulness with which this work is done depends the continuance of aid. It is expected that those who receive help will, when able, return the amount to aid others.

THE LIBRARY

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains about 13,000 volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, since increased to six thousand, which insures its steady growth. It has been completely catalogued according to the Dewey system.
In January, 1906, the books of the library were moved from Stone Hall into the new building, erected by the munificence of Mr. Andrew Carnegie. For a description, see Buildings.

Aside from the reading-room in the library building, there are also reading-rooms in each of the two principal dormitories, thus giving to those in the boarding department convenient access to many of the leading papers and periodicals of the country.

THE MARBLEHEAD LIBRARIES

In 1910 a traveling library system was inaugurated at Atlanta University. This was made possible by the generosity of the late James J. H. Gregory of Marblehead, Mass., who carefully selected and gave for this purpose over 2,000 books. They have been arranged in collections of from forty to fifty volumes, and are sent for terms of six months to schools or responsible individuals, so that they may be used to the greatest advantage in the localities receiving them. Fifty libraries are now in circulation.

THE ATLANTA CONFERENCE

Atlanta University recognizes that it is its duty as a seat of learning to throw as much light as possible upon the intricate social problems affecting the American Negro, both for the enlightenment of its own graduates and for the information of the general public. It has, therefore, during the last sixteen years sought to unite its graduates, the graduates of similar institutions, and educated persons in general throughout the country in an effort to study carefully and thoroughly certain definite aspects of the Negro problems.

BUILDINGS

The buildings are situated on high ground, in the western part of the city, and surrounded by sixty acres of land belonging to the Institution.

DORMITORIES

There are two principal dormitories, the one used by the girls having been erected in 1869, with a wing added in 1880. This building contains
the school kitchen and dining-room. The dormitory used by the boys was built in 1870, with a wing added in 1871. Each of these buildings contains a parlor, reading-room and gymnasium. They also have a complete system of sanitary plumbing, with bath-tubs supplied with hot and cold water.

STONE HALL

This building, erected in 1882, stands between the two dormitories, and is a gift of the late Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel, the large school-room, recitation and lecture rooms, the physical and chemical laboratories, offices, etc. This building, the two dormitories, the practice school, the library and the domestic-science building, are heated by steam from one plant.

KNOWLES INDUSTRIAL BUILDING

This building, erected in 1884, is for the use of the mechanic arts department. It is a memorial of the late Mr. L. J. Knowles, of Worcester, Mass., whose widow appropriated from his estate $6,000 for its erection, this amount being increased by the gifts of a few other friends.

Power for the machinery in the building is furnished by a steam-boiler and a fifteen horse-power engine, and the rooms are equipped with pipes so as to use either steam from the boiler or the exhaust steam from the engine for heating purposes.

On the first floor of the building are various wood-working machines, a lumber room, and benches and tools for repairing and construction work. On the second floor are a bench-room, containing twenty benches, each furnished with a set of tools, and ten wood-turning lathes and tools; and two drawing-rooms, containing the necessary drawing-stands, instruments, models, etc., for free hand and mechanical drawing. In the basement are a forge-room, having twelve forges and anvils and the tools required for ordinary blacksmith work and small machine forging, and a machine-room, containing an engine lathe, drilling machine, wet and dry emery grinders, and a cabinet of machinists’ tools.

THE FURBER COTTAGE

This building, also known under the more formal name of “The King’s Daughters’ Model Home and Maria B. Furber Cottage,” was erected in 1899 from contributions which had been slowly gathered during a number of years, chiefly from circles of King’s Daughters in many parts of the country and from personal friends of the late Mrs. Maria B. Furber, wife of the late Rev. Dr. Daniel L. Furber, of Newton Centre, Mass., who, himself, made generous additions to the building fund previous to his death. It contains dormitory rooms for at least eighteen occupants, who carry on all the work of the home without servants, and is equipped with facilities for teaching the domestic arts in the most thoroughly scientific as well as practical manner.
CATALOGUE NUMBER

THE OGLETHORPE SCHOOL

This building, erected in 1904, is the gift of the General Education Board of New York and its Treasurer, Mr. George Foster Peabody, each contributing the sum of $5,000, and of a large number of other friends who contributed a third sum of $5,000. The building contains ten rooms besides a large basement, and is used for practice teaching in connection with the Normal Department, special attention being given to the training of Kindergarten teachers as well as teachers for the public schools.

CARNEGIE LIBRARY BUILDING

This building, erected in 1905, is the gift of Mr. Andrew Carnegie, who contributed $25,000 for its erection and furnishing. It contains a fire-proof stack room, large reading and reference rooms, a lecture room, picture room, rooms for unpacking, traveling libraries, etc., and is equipped with the most modern furnishings and apparatus for effective library administration.

FUNDS

The University has thus far received but a very small part of the endowment needed to carry on even its present work, to say nothing of future growth. The invested funds on hand July 1, 1910, were as follows:

- For scholarships ................................ $32,870.00
- For general endowment ..................... 40,687.43
- For maintenance of library .............. 6,000.00

Total .................................. $79,557.43

NEEDS

It will be seen from the above statement that, proportionally, the funds for general endowment are in greatest need of increase. For endowment Atlanta University needs $800,000. This would relieve the Institution of the harassing task of raising money for current expenses by incessant personal solicitation. Appealing to the record of the forty years completed, Atlanta University asks for sufficient endowment to maintain the work at a high grade of usefulness and to meet the opening opportunities of the future.

Until such endowment is secured the Institution is almost wholly dependent upon annual donations from the benevolent public. For many years the Trustees of the John F. Slater Fund have helped the work, their last three appropriations having amounted to $2,000 each. In addition to the payments of the students, $35,000 is needed annually.

CORPORATE NAME

The corporate name of this Institution is THE TRUSTEES OF THE ATLANTA UNIVERSITY. Wills containing bequests should be attested by three witnesses in most of the States.
MISCELLANEOUS SUGGESTIONS

Each pupil should bring a Bible. It is needed for private reading, for Sunday-school, and for use in classes.

Students are required to be furnished with all prescribed text-books at the time when the use of them begins.

All should be provided with warm clothing.

Young women should provide themselves with rubbers, umbrella and coat for stormy weather.

The use of silks, velvets, or other expensive or showy materials or trimmings is considered inappropriate. Dresses of cotton and woolen materials are most suitable. Only simple dresses for the close of school are permissible. Parents are asked not to send clothing, unless the request for it is endorsed by the preceptress.

Experience has taught us that much evil comes from pupils receiving food or large quantities of fruit or candy, from home or friends. They are, therefore, not allowed to receive it. Friends will please not send it.

Letters should be directed in care of Atlanta University, Atlanta, Ga.

Students who do not board at their homes are not allowed to board out of the Institution, unless by special permission.

The Institution encourages the customary student organizations: athletic, literary, debating, musical and religious. Membership in unauthorized student organizations is prohibited.

Boarders are expected to furnish their own towels and napkins, and it is suggested that each one bring a blanket or comfortable and a knife, fork and spoon.

Keeping or using firearms on the premises is forbidden.

Especial attention is called to the rule prohibiting the use of all intoxicating drinks, and tobacco in every form.

The proper observance of Sunday is most important for the moral and religious welfare of the students. This Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Boarding pupils are therefore required to attend stated religious services. Students should arrange so as not to travel on Sunday, and friends are earnestly requested not to call upon them on that day.

It is desired to make the school, as far as possible, a home for those who attend. Not only their intellectual, but also their physical, social, moral and religious culture receives careful attention.

The majority of our graduates, and many others who have left before finishing their course, are engaged in teaching during a part or all of the year. Besides these, during the four months of the summer vacation, some of the students engage in teaching, so that a large number of children in Georgia and other states are taught annually by those who have been connected with the Institution.

THE WORK OF OUR GRADUATES

As an encouragement to prospective students to attend Atlanta University, and to friends of Southern education to support the work, the following statement is presented showing the marked success our graduates have had in securing not only remunerative positions for their self-support, but also opportunities for the widest usefulness in the work of uplifting their race.

THE COLLEGE GRADUATES

While the one hundred and eighty graduates from the College (including three graduates from a theological course) represent only a small portion of the work done by the University, they represent a very important part of that work, as will be evident from a statement of the positions they occupy and the work they are doing.

Of these one hundred and eighty graduates, twenty-five have died. Of the one hundred and fifty-five now living, fourteen are ministers, several of whom, however, are classed in our summary as teachers; seven are physicians, four are lawyers, one is a dentist, seventy-six are teachers, nineteen are in the service of the United States, fourteen are in other kinds of business, and six are students. These statistics, together with those of the normal graduates, are given in tabular form on page 51 of this catalogue.

MINISTERS

Two of the ministers are pastors of Congregational churches in Chattanooga, Tenn., and Mason City, Ia.; four of Baptist churches in Charleston, S. C., Atlanta, Ga., Augusta, Ga., and Joliet, Ill.; four of Methodist churches in Bellaire, Ohio, Baltimore, Md., Guthrie, Okla., and one is chaplain of the Tuskegee Normal and Industrial Institute. Another is secretary of a Y. M. C. A. branch in New York City. All the churches named are centers of great power and wide influence. Some of these ministers have made addresses in national and international assemblages, one is fellow of the Royal Geographical Society, and one has had the unique honor of being a member of the board of education in a large Southern city for fourteen successive years.

TEACHERS

Many of the teachers are holding high positions. No less than four are college presidents: of the Georgia State Industrial College, Savannah, Ga.; of Miles Memorial College, Birmingham, Ala.; of Lincoln Institute, Jefferson City, Mo., and of the Florida Baptist College, Jacksonville, Fla. Eleven are principals of public city schools. Some of the others are designated as follows: principal of the Charleston Industrial Institute, Charleston, S. C.; principal of the Howard Normal School, Cuthbert, Ga.; professor of Greek in Morris Brown College, Atlanta, Ga.; principal
Knox Institute, Athens, Ga.: principal of Industrial School, Fort Valley, Ga.; principal of Payne Institute, Cuthbert, Ga.; professor of pedagogy in Atlanta University; associate professor of sociology in the same institution; professor of mathematics and science in Howard University, Washington, D. C.; in the same institution the superintendent of manual training; professor of sloyd and mechanical drawing in the State Normal School, Petersburg, Va.; professor of pedagogy in the Georgia State Industrial College, Savannah, Ga.; principal of Burrell Normal School, Florence, Ala.; professor of mathematics in Lane College, Jackson, Tenn.; teacher of Latin in Atlanta University; supervisor of industrial work in the public schools of Memphis, Tenn.

OTHER PROFESSIONS

Of the seven physicians three are located in Atlanta, Ga., and three respectively in Denver, Colo., Evanston, Ills., and Philadelphia, Pa. Most of them were among the first in their classes in the medical schools that they attended.

The four lawyers practice severally in Boston, Mass., Chicago, Ill., Macon, Ga., and in Savannah, Ga., and are successful in their profession. One is Master in Chancery by appointment of the Governor of his State. The one dentist lives in Atlanta and has an extensive practice.

One of these graduates was a lieutenant in the army during the Spanish War, and captain of U. S. Volunteers in the Philippine Islands. Another was paymaster with the rank of major.

NORMAL-TRAINED TEACHERS

Most of these teachers are located in Georgia, but some are in New York, Virginia, West Virginia, North Carolina, South Carolina, Missouri, Tennessee, Arkansas, Oklahoma, Iowa, Texas, Alabama, Louisiana, Delaware, Florida and the District of Columbia. About two-thirds of the teachers in the colored schools of Atlanta were educated in Atlanta University. Several of these have been in continuous service many years. Two have been in the same school in Savannah since 1876. While most are teaching in public schools, some being principals in important positions, a large number are also in private institutions. One is the founder and principal of Haines Normal and Industrial Institute in Augusta, Ga., a large and important school, in which several others of our graduates are assistants; another is founder and manager of an orphans' home and school in Covington; another is principal of an American Missionary Association school in Marshallville; another is principal of the Model and Training School near Athens, Ga.

Almost every one or these graduates is a Christian and is doing work in the church, Sunday-school and home, and is exerting a strong influence for good in the community in which he lives. In a large measure they are moulders of public sentiment, and are helping in a quiet way to solve some of the perplexing problems of these troubled times. Although they are reformers in the best sense of the word, they are an eminently conservative social element.

HONORS

At the end of their Sophomore and Senior years, honors are awarded to those college and normal students who have attained a certain average rank. The designating phrases used are: With Highest Honor; With High Honor; With Honor. The award at the close of the year 1910-11 was as follows:

COLLEGE CLASS OF 1913.—With Honor—William Albert Robinson.

A Letter to Graduates and Friends of Atlanta University

This catalogue shows an enrollment of four hundred and three, the largest that we have ever had. The year has been one of vigorous and happy work, and I feel that we have every reason for encouragement.

Graduates

The demand for our graduates as teachers is constant. During the month of March I received from several city school superintendents of Georgia, as well as from the Governor of the State, letters heartily commending their work. The Hon. Otis Ashmore, of Savannah, wrote: “The best trained colored teachers we get come from the Atlanta University, and I am glad to testify to the good influence of this institution upon the colored race.” This is an encouraging testimony to the worth of the work we are doing.

Reduction of the Debt

Through the co-operation of graduates, old students and other friends, we have been able to reduce our debt, which in June, 1910, amounted to over $50,000, to $18,000. The Alumni Association has undertaken to continue the campaign throughout this year, and I make an earnest appeal to all friends to co-operate with us, so that we may entirely rid Atlanta University of the burden of debt.

Our Endowment of Friends

This institution could never have accomplished what it has for the uplift of the Negro race without the generous support of our friends. You who give year by year constitute our only adequate endowment, and to you we are deeply grateful.
