OFFICERS AND INSTRUCTORS

REV. EDWARD T. WARE, A. B.,
President

REV. MYRON W. ADAMS, Ph. D.,
Professor of Greek and Dean of the Faculty

EDGAR H. WEBSTER, A. M.,
Professor of Science and Principal of Normal Department

GEORGE A. TOWNS, A. M.,
Professor of Pedagogy

GEORGE K. HOWE, B. S.,
Instructor in Mechanic Arts and Superintendent of Shop

REV. FLOYD W. GUSTAFSON, A. B.,
Chaplain

THOMAS I. BROWN, A. M.,
Associate Professor of Economics and History

MISS IDELLE M. SWIFT,
Instructor in Mathematics

MISS MABEL D. HANCOCK, Ph. B.,
Instructor in High School Branches

MISS ANNADALE C. KING, A. B.,
Instructor in Latin

MISS CLARA E. EMERSON, A. B.,
Instructor in English and Latin

REV. ROBERT M. COATE,
Superintendent of Printing Office

ALEXANDER S. HUTH,
Superintendent of Buildings and Grounds

LEWIS A. DOMINIS,
Teacher of Drawing

HARRY B. PETERS, A. B.,
Assistant in High School Branches

JOHN P. WHITTAKER, A. B.,
Assistant in High School Branches

DANA B. CLARK, Jr.,
Assistant in Mechanic Arts

MISS LIZZIE A. PINGREE,
Matron in South Hall

MISS CATHARINE T. JOHNSON,
Superintendent of School Room and Teacher of German

MISS GERTRUDE H. WARE,
Supervisor of Kindergarten Work in the Oglethorpe School

Mrs. JANE A. BOND, A. B.,
Assistants in the Oglethorpe School
Miss ALBERTA WATTS,
Assistant in Sewing
Miss LUCY L. RUCKER,
Assistant in the School Room
Sketch of Atlanta University

Atlanta University is one of the pioneer institutions for the Christian education of Negro youth. It possesses excellent equipment for the work of high school, normal school and college classes and has accommodations for one hundred and sixty boarding students. It is the first institution in the state of Georgia to undertake work of college grade for Negroes, and steadily emphasizes the importance of genuine scholarship. It enjoys the cumulative advantage which results from forty-eight years of continuous effective work. It has been unusually fortunate in the continuity of its administration. It was founded in 1867 under the auspices of the American Missionary Association by Edmund Asa Ware. It was presided over by him until his death in 1885. President Ware was a graduate of Yale University of the class of 1863. In 1875 his Yale classmate, Horace Bumstead, came to Atlanta as a teacher and co-worker. Dr. Bumstead succeeded to the presidency and held the position until 1907 when he resigned, and became the recipient of a Carnegie pension. His successor is Edward Twichell Ware, son of the founder and first president, a graduate of Yale University of the class of 1897.

On the teaching force there always have been, as there are now, men and women who have received the best education that this country affords. Among the colleges represented by the teachers are Harvard, Dartmouth, Chicago, Smith and Wellesley. The memory of those who have devoted their lives to this work in the past is kept fresh by the grateful memorials of the graduates. On the walls of Ware Memorial Chapel hang the pictures of the first two presidents and of other teachers. The evening sun shines through two beautiful memorial windows, one placed there by the graduates living in Savannah and the other by those living in Atlanta.

The wisdom and foresight of the founders of this institution is seen in its exceptionally fine location. Atlanta University occupies a commanding site on the summit of a hill in the western part of the city of Atlanta and is surrounded by a campus of sixty acres. There are seven substantial brick buildings, three of them covered with Boston ivy. At this season of the year the campus is particularly beautiful with its fields of alfalfa south of the buildings and the green grass and trees in front.

There are enrolled over five hundred students. About two-thirds of them come up the hill every day from the city of Atlanta. The rest are in the boarding department and represent sixteen states, and thirty-four coun-
ties in the state of Georgia. These young people are many of them children of the graduates of Atlanta University and most of them have received their training in schools over which the graduates preside.

Instruction in domestic science and manual training is required of all the high school students and there are opportunities for pursuing this work further in the college course of mechanic arts and in the Furber Cottage for the normal students. The normal course comprises two years following the high school course. During the senior year the girls live in the Furber Cottage in groups of fifteen and under the supervision of the matron do all the work of the home. The institution also possesses a well equipped printing office from which is issued the catalogue and the student and alumni papers. Here there is an opportunity to learn the art of printing.

It is the purpose of Atlanta University to make the home life in the school strong and wholesome, a genuine part of its education. All students are required to spend at least their senior year in the school family where they come into daily association with each other and with the teachers. There is an athletic field for the boys and there are tennis courts for the girls and boys. The school fare is simple but wholesome. Occasional social gatherings bring the students together in pleasant fellowship. This institution is an outgrowth of the Christian spirit which brought so many earnest and devoted teachers South in the educational crusade of the sixties and seventies. The work is essentially Christian. It is undenominational and strong in religious motive. Students attend church and Sunday school. They also have their voluntary religious organizations, the Y. M. C. A. and Y. W. C. A. Participation in the religious exercises and in the home life of the school has often been instrumental in molding the character of the students for the most efficient service among their people.

There is probably no school for the Negroes in the South better equipped with facilities for domestic science, for library work, or for the training of teachers. This institution has also been long prominent for the excellence of its work in sociology. Its annual publications on the Negro problem have received wide recognition from scholars and may be found in the best libraries in this country and abroad. Recently a special course in the training of kindergarten teachers has been organized. Students have opportunity for practice in the Oglethorpe Practice School and in the mission kindergartens in the city. Twelve young women have been graduated from this course, all of whom have readily found positions as teachers.

The chief source of encouragement for the work rests in the almost uniform success of the graduates of Atlanta University. A summary of
their present occupations will be found on page 40. Under the direct instruction of the graduates there are about fifty thousand children in country and city schools. The demand for graduates as teachers and in other responsible positions increases from year to year. Never was there greater need than today for just such work as this institution accomplishes.

This catalogue issue of the Bulletin will go to many friends of Atlanta University, some of them contributors for the support of the work, some of them prospective students. To the prospective student we say: We welcome at Atlanta University all young people prepared to take up work of high school or college grade who have an earnest desire to prepare themselves for a life of usefulness. For those who cannot afford to pay the very moderate rates there are scholarship funds available by which expenses may be substantially reduced. As an earnest of faithfulness and appreciation, we require additional work from all students receiving such beneficiary aid.

Those who contribute will be interested to know that the property of Atlanta University is worth, all told, about $300,000. The invested funds amount to about $125,000. For the proper maintenance of the work we require each year about $37,000 in addition to the amount reasonably to be expected from payments of students and income from funds. This institution has no large and wealthy body of alumni to call upon for maintenance. Many of the graduates are giving annually what they can afford. We earnestly appeal to all who believe in Christian education for help in the maintenance of the work. It is hoped that through the generosity of our friends this institution may some time possess an endowment adequate to the needs of the work. Until then we are dependent on the endowment of friends who give from year to year. May we not hope that their number will increase so that we may meet the growing demands of the work and occupy a constantly broadening field of usefulness.

Opportunities for POST GRADUATE STUDY leading to the degree of A. M. are offered to a limited extent; also two FELLOWSHIPS, open to college graduates, and three TUTORSHIPS, open to normal graduates. Particulars can be learned from the President.
CATALOGUE NUMBER

COURSES OF STUDY

There are three courses of study: the High School, the Normal, and the College. See Entrance Requirements.

NOTE 1.—The figures denote the number of recitations, or their equivalent, a week. All studies continue throughout the year, unless otherwise indicated.

NOTE 2.—Quite a number of students enter the High School Course with insufficient preparation. They are expected to take two years for the work of the First Year Class.

*English includes training in Expression.

The College Course in Education includes most normal work, and enough college work to make the desired number of credits.

The College Course in Mechanic Arts includes at least one special course of four credits in each year, and other college work to complete.

In All College Courses at least eight credits each are required in Mathematics, Science and Philosophy; and at least twelve each in English, Social Science and Foreign Languages.
ENTRANCE REQUIREMENTS

The requirement for admission to the lowest class in the High School is the completion of the ordinary grammar school course. Examinations are given in arithmetic, grammar, U. S. history and geography. For admission to higher classes and courses students are required to give evidence that they have completed all lower work, or its equivalent.

In case students from other institutions desire full admission to our college or normal courses, they must strictly conform to the following: (1) They must fully convince us that they have satisfactorily completed at least fifteen units of high school work. (2) At least eleven of these units must be in the departments of English, Latin, Mathematics, Social Science (including History) and Natural Science. Of these eleven at least three must be in English, and at least five (one of them three and the other two) Latin and Mathematics in the case of college students, or Natural Science and Mathematics in the case of normal students.

The word "unit," as meant in the above requirement, represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work. It is assumed that a study is pursued for four or five periods a week, that a recitation period is from forty to sixty minutes in length, and that the length of the school year is from thirty-six to forty weeks.

Candidates for advanced standing, from other institutions in the Association of Colleges for Negro Youth, of which Atlanta University is a member, are admitted without examination. Candidates from certain other schools, on a list approved by the faculty, are often similarly admitted; but even in such cases this institution reserves the right to examine as fully as may be deemed necessary. Particulars will be given, as adapted to each individual case, upon application.

Entrance credit is always granted on trial, and may be modified if the student's work shows that too many units have been granted to him.

HONORS AND PRIZES

COLLEGE CLASS OF 1918. With High Honor—Roscoe Thaddeus Cater.

The Alumni Prizes for Excellence in Debate were awarded in 1916-17, in the order named, to Mallalieu W. Rush, Albert A. Edwards and Leigh B. Maxwell.
COURSES OF INSTRUCTION

The figures denote the number of recitations, or their equivalent, a week. All studies continue throughout the year unless otherwise indicated. Where two classes combine, as the Junior and Senior College classes, courses are given alternate years. This is the usual explanation of the repeated comment, "Not given in 1916-17."

I. CLASSICS AND MODERN LANGUAGES

PREPARATORY COURSES

LATIN B. The equivalent of three books of Caesar; drill in grammar and prose composition. Greenough, D'Ooge and Daniell's Second Year Latin.
LATIN C. Five orations of Cicero. Prose composition.
LATIN D. Five books of Virgil. Prosody and Mythology.
GREEK A. Elementary, and nearly two books of Xenophon's Anabasis.

COLLEGE COURSES

LATIN I. Selections from Cicero, Livy and Pliny, alternating with LATIN II, selections from Horace, Tacitus and others. Attention also given to Roman history and literature.
GREEK I. Selections from Lucian, Homer, Thucydides and Euripides, alternating with GREEK II, selections from Herodotus, Plato, Demosthenes and Æschylus.
GERMAN I. Work in grammar, with practice in speaking and easy reading.
GERMAN II. Prose composition, and a selected classic, this year Schiller's Maid of Orleans.

II. PHYSICAL AND NATURAL SCIENCES

PREPARATORY COURSES

A. ELEMENTARY. Not given in 1916-17.
B(½). PHYSICAL GEOGRAPHY. A general course.
C. BIOLOGY. Physiology one-half year; and botany, and also elements of agriculture, one-half year.
D. CHEMISTRY. Elementary; one credit earned by laboratory work.
E. PHYSICS. Elementary, one credit being earned by laboratory work; experiments in physical measurements, mechanics of solids and fluids, heat, light, sound and electricity.
COLLEGE COURSES

CHEMISTRY I. 4 General inorganic chemistry. Two laboratory triple periods, and two class room exercises devoted to lectures, demonstrations and recitations.

CHEMISTRY II. 6 (a) Qualitative analysis, a laboratory course upon the metallic and acid-radicals, with group separations and study of unknowns; (b) Practical applications of chemistry, a laboratory course, including gravimetric analysis with the analytical balance, and volumetric analysis with the burette.

CHEMISTRY III. 4 Organic chemistry, (a) Lectures upon the carbon compounds; (b) Laboratory course upon organic preparations.

PHYSICS I. 4 Physics A, and Mathematics I, II and III are prerequisites. First semester, mechanics and heat; second semester, electricity, sound and light. Two laboratory triple periods weekly, and two class room exercises devoted to lectures, demonstrations and recitations. Not given in 1916-17.

PHYSIOGRAPHY (i). 4 Advanced, as an equivalent for geology.

ASTRONOMY (‡). 4 A general course, using Moulton’s Elements of Astronomy. Not given in 1916-17.

NORMAL COURSES

See GEOGRAPHY and GEOLOGY, under PEDAGOGY.

LABORATORIES AND CABINETS. The physical laboratory, 50x20 feet, and the chemical laboratory, 50x25 feet, are fitted and furnished for the elementary and advanced courses. A well-equipped science lecture room is furnished with apparatus for class demonstration and lecture purposes. The geological and mineralogical cabinets are well adapted to teaching.

III. MATHEMATICS

PREPARATORY COURSES

A. 6 ALGEBRA. Elementary, including ratio and proportion, radicals, the binomial theorem, simple quadratics, use of the graph; also radical equations and theory of exponents for those expecting more advanced work in algebra.

B(‡). 5 GEOMETRY. The more essential principles of plane geometry, including the simpler originals, theorems and constructions.

C(‡). 5 GEOMETRY. More complete work in the foregoing; loci, incommensurables and variables.

D. 4 ALGEBRA. Review of elementary work, and especial drill in quadratics, complex numbers, logarithms, the use of the graph.

E. 6 BUSINESS METHODS. Designed to give a general knowledge of business forms and the keeping of accounts.
I. **ALGEBRA** one-half year, with special drill in series, determinants, solutions of higher equations; and **GEOMETRY** one-half year, solid and spherical, with problems.

II(½). **TRIGONOMETRY**, with practical applications; and surveying, with field practice.

III(½). **ANALYTICS**. Smith and Gale's *Analytic Geometry*.

IV(½). **DESCRIPTIVE GEOMETRY**. See MECHANIC ARTS.

---

**IV. ENGLISH**

**PREPARATORY COURSES**

I. **ENGLISH A**. First Semester: Review of grammar; a brief study of description, narration, exposition and argument; practice in writing. Textbook, Scott and Denney's *Elementary English Composition*. Second Semester: Further drill in composition; Christian Life and Conduct, using the Bible Study Union lesson system.

**ENGLISH B**. General survey of both English and American literature. Reading and memorizing, with oral and written reports.

**ENGLISH C**. Detailed study of selected classics: *Silas Marner*, *Ivanhoe*, *Vicar of Wakefield*, *Merchant of Venice*, *As You Like It*; English poetry; Rhetoric and Composition.

**ENGLISH D**. First Semester: *Vanity Fair*; selections from *Browning*; *Virginius Puerisque*. Second Semester: Essay on *Burns*; Lowell on Books and Libraries; *King Lear*; Emerson on Self-Reliance and Friendship.

**BIBLE A**. See under **ENGLISH A**.

**BIBLE B(½)**. Outlines of Old Testament History, using the Bible Study Union lesson system.

**EXPRESSION A and B**. Twice a week during one semester, for students in Second and Fourth Years; each time taking the place of one exercise in **ENGLISH B** and **D**. Drill in vocal expression, voice training and pantomime.

---

**NORMAL COURSES**

**EXPRESSION**. Similar to College Course.

---

**COLLEGE COURSES**

**ENGLISH I**. Detailed study of several extended classics, with special reference to the development of types; lectures upon the art of composition; elementary argumentation. Themes.
ENGLISH II(J). Argumentation. Study of textbook for theory, and practice in writing briefs and forensics.

BIBLE I(J). After a study of the formation of the canon, of the various versions, and of the literary qualities of the Bible, the historical method is used in a study of the history of the Hebrew people through the Greek period. Texts: The Old Testament, and Sanders and Fowler's Outlines. Collateral reading.

EXPRESSION I and II. Voice culture, physical exercises, gesture drills and training in reading from standard literature. The aim in this department is to lead the pupil to think clearly and deeply, and to express simply, forcefully, and beautifully, his own thoughts and the thoughts of others. As an outcome of this study, the Merchant of Venice was presented as the class night exercise in 1905, the Taming of the Shrew in 1906 and 1916, As You Like It in 1907, Twelfth Night in 1908, Sheridan's Rivals in 1909, The Tempest in 1910, Midsummer Night's Dream in 1911, Macbeth in 1912, Comedy of Errors in 1913, Dickens' Cricket on the Hearth in 1914, and Banim's Damon and Pythias in 1915.

PUBLIC RHETORICALS. Rhetorical exercises, to which the public is especially invited, are held six times a year, being made up of orations, essays, recitations and music. For the dates, see Calendar.

V. PHILOSOPHY

PREPARATORY COURSES

COLLEGE COURSES

PSYCHOLOGY I(J). The textbook, Angell's, is supplemented by collateral readings, lectures and experiments. This is an introductory course, giving a general survey of the essential facts and fundamental laws of consciousness.

HISTORY OF PHILOSOPHY I(J). A study of the development of philosophic thought, beginning with the Greeks, continuing through the Renaissance, the modern systems from Bacon and Descartes through Kant, and the important developments since Kant. The textbook will be supplemented by lectures and required readings in the sources. Text: Thilly.

ETHICS I(J). A systematic course, investigating the psychological basis of conduct, tracing the growth of moral ideas in the race and discussing the various theories of the moral standard, with especial reference to the social consciousness. A thesis is required of each student. Text: Dewey and Tufts.

NORMAL COURSES

See under Pedagogy.
VI. SOCIOLOGY AND HISTORY

It is intended to develop this department not only for the sake of the mental discipline, but also in order to familiarize our students with the history of nations and with the great economic and social problems of the world. It is hoped that thus they may be able to apply broad and careful knowledge to the solving of the many intricate social questions affecting their own people. The department aims, therefore, at training in good, intelligent citizenship; at a thorough comprehension of the chief problems of wealth, work, and wages; at a fair knowledge of the objects and methods of social reform; and a general comprehension of the world's thoughts and deeds. The following courses are established:

PREPARATORY COURSES

CIVICS A (§). Dole's American Citizen.

HISTORY A. General history; the first semester, to 800 A. D.; and the second semester, to 1900 A. D.

HISTORY B (§). A course in English history, with a special desire to show the development of England and its relations to Western Europe, the far East, Africa, and the present world situation.

ECONOMICS-CIVICS A. A course in the elementary principles of economics and government, with special emphasis on their application to Negro American life. Not given in 1916-17.

NORMAL COURSES

HISTORY (§). A course in the history of the United States, intended especially for teachers. Special attention is given to the Negro's connection with the history of the United States. Text: West's American History and Government.

CIVICS (§). A course in the government of the United States, with special reference to its historical development.

COLLEGE COURSES

HISTORY I. World history; and history of the Negro, with special reference to the United States and Africa.

ECONOMICS. General economics, and economic history of the Negro American. The principles of political science are included in this course; alternating with SOCIOLOGY. General sociology, and social condition of the Negro American. Practical work in connection with the Conference.

SOCIOLOGICAL LABORATORY. This consists of a special library of books on statistics, economics, sociology and history, with duplicate copies of standard works and of maps, charts and collections illustrating social and historic conditions. Here the courses of this department are taught, with special reference to the American Negro. Field work and thesis work are required.
In addition to this, graduate study of the social problems in the South by the most approved scientific methods is carried on by the Atlanta Conference, composed of graduates of this and other institutions.

The aim is to make Atlanta University the center of an intelligent and thorough-going study of the Negro Problems. Nineteen reports of the Conference have been published.

The library contains a good working collection of treatises in history and sociology, and special reports on outside reading are required in all these courses.

VII. PEDAGOGY

GENERAL NORMAL COURSES

A(½). 4 EDUCATIONAL PSYCHOLOGY. The study of this subject in its relation to the work of the teacher.

B(½). 4 PEDAGOGY. This course deals with school management and organization; which includes the planning of courses of study for elementary and secondary schools, the consideration of educational values, the history of education, and the discussion of the problems peculiar to the common schools of the South.

C. 2 GENERAL METHODS. Discussion of all subjects of study taught in the Oglethorpe School, and of their relations to each other and to the whole. Special discussion of the methods of teaching. General critic work.

D. 1 OBSERVATION. The Junior Normal students attend the classes of the Oglethorpe Training School each week, to observe and criticize the work of the different grades and the Kindergarten classes.

E. 3 TEACHING. The Senior Normal Class have practice-teaching in the Training School daily during the school year. This practice is divided among the different grades and the Kindergarten classes; and is also divided among the different subjects of study.

F. SPECIAL METHODS. (a) Arithmetic. 4 A careful review of principles and applications, laying special stress upon analytical methods, and discussion of methods of teaching.

(b) Grammar (½). 4 The structure of the English language is carefully studied.

(c) Art and Basketry. 2 For Art, see under Manual Training. Basketry and other handwork for the various grades. History of basketry. Teaching the use of native materials.

(d) Geography (½). 4 “Principles of Geography” is made the basis of the course. This includes mathematical and astronomical geography; the principles of relief, the principles of climate, the principles of plant and animal distribution.

(e) Physiography (½). 4 A study of the forces operating to produce changes upon the earth’s crust and interior; and the resulting physio-
graphic forms... The purpose is to enlarge the knowledge of the teacher upon the subject matter of geography. Some study is made of the government topographical maps, and a study of home geography is made by means of local excursions.

(f) Music. Taken with especial reference to teaching.

(g) Home and School Sanitation. See under Household Arts.

KINDERGARTEN NORMAL COURSES

It is desired that applicants possess some proficiency in instrumental, as well as vocal, music.

JUNIOR YEAR. (a) Children’s Handwork and Games. The purpose of this course is to make the normal students more effective teachers in their work with little children through the introduction into the regular school program of simple handwork and games.

(b) Constructive Materials. Special study of the kindergarten materials and their function in the mental and moral development of the child.

(c) Nature Study. Taken up in its relation to the three-fold development of the child. Special emphasis on gardening and nurture of plant and animal life.

(d) Observation of kindergarten and primary teaching under critic teachers in the Oglethorpe School.

SENIOR YEAR. (a) Child Study (%). Discussion of methods of training children in home and school to physical, mental and moral health.

(b) Children’s Literature. Study of literature for small children, with practice in telling stories suitable for use in the home or classroom.

(c) Froebel’s Mother Play. Study of the text for the purpose of deducing simple, practical suggestions for child training, which with pictures, stories, songs, and references to mature literature are kept in notebook form.

(d) Kindergarten Theory. Study of the educational theories of Froebel and comparison with other theories that affect kindergarten and primary practice today.

(e) Program Making. Formation and discussion of outlines of daily, weekly, monthly and yearly kindergarten programs, with study of principles and methods that underlie kindergarten and primary practice. This course includes artistic and language interests of little children, supplemented by dramatization of song and story.

THE OGLETHORPE SCHOOL. In this school—described under Buildings—is given an opportunity to engage in the actual work of teaching and to observe such work under thoroughly competent supervisors. The organization includes eight grades and a kindergarten.

GAME FESTIVAL. As an outcome of the study of games, a play festival including folk games and dances, and stories interpreted by song, color and rhythm, in which Junior Normal girls, kindergarten, and first and
CATALOGUE NUMBER

second grades of the Oglethorpe School participate, is held during the Commencement week.

COLLEGE COURSES

Normal course B is required of all, and other normal courses are included in the special College Course in Education.

VIII. MUSIC

VOCAL Music. This is required of all High School students in the first and second years. These receive such elementary instruction as is needed, and in the second year have history of music and practice in chorus singing. An advanced chorus meets twice a week throughout the year, being composed of most of the High School students beyond the second year, and selected College and Normal students.

For terms of instruction to private pupils, see Expenses.

INSTRUMENTAL Music. Instruction in the piano is given at a reasonable charge, for which see Expenses. Eight pianos are in use by the institution. An effort is made to suit the instruction to the needs of the individual pupil. In general the Elementary Course includes a thorough foundation in technique, with selected studies and sonatinas, and easy pieces by classical and modern composers; the Advanced Course continues the study of technique, including major and minor scales in various forms; arpeggios and chords, etudes and studies. Greater attention is given to such composers as Mendelssohn, Schumann, Schubert, Chopin, Grieg, Rubinstein, Mozart, Haydn, Beethoven. Private recitals are given at intervals and a public recital is given at the close of the year.

IX. MANUAL TRAINING AND HOUSEHOLD ARTS

FIRST YEAR. Drawing (64 hours). For all. Nature work, decorative design and construction work.

Manual Training (240 hours). For Boys. Mechanical drawing—practice in lettering, free-hand and mechanical working drawings of projects to be made in the benchroom; benchwork—exercises and simple projects involving the use of the common wood-working tools; wood-turning—elementary turning on centers. Textbooks—Griffith's "Essentials of Woodworking" and "Projects for Beginning Woodwork and Mechanical Drawing."

Sewing (96 hours). For Girls. Instruction in basting, running, back-stitching, overcasting, top-sewing, hemming, French seam, flat fell, patching, gathering and binding, making of ruffles, tucking, button holes, and the sewing on of buttons. Practical uses of these processes are taught in the making of a sewing outfit.
SECOND YEAR. Drawing$^1$ (64 hours). For all. Fuller development of the work of the first year; also object drawing, color work, light and shade, pose drawing and applied design.

Manual Training$^2$ (192 hours). For Boys. Wood-turning—exercises and projects in spindle turning and face-plate work; mechanical drawing—simple orthographic drawing, working drawings of projects; advanced benchwork—projects involving the use of mortise and tenon and other forms of joints. Textbooks—those mentioned above and Bennett’s “Problems in Mechanical Drawing.”

Sewing (96 hours). This course provides instruction in plain machine work. Practical mending and patching is taken up. Cutting and fitting of simple undergarments from commercial patterns is taught. Each girl is required to make a suitable apron for use in cooking. Students may buy garments at cost.

Cooking (24 hours). See Fourth Year.

THIRD YEAR. Sewing (72 hours). This course offers instruction in drafting, cutting, fitting, and the making of a plain tailored shirt waist. During the second term each girl makes a simple cotton dress from commercial patterns.

Cooking (48 hours). See Fourth Year.

FOURTH YEAR. Art. Fuller development of advanced work of second year. Special emphasis on methods of teaching drawing. Stenciling with original design.

Sewing (96 hours). This course offers instruction in dressmaking processes, drafting, cutting and fitting. Each student is expected to buy material for an inexpensive woolen dress or a woolen skirt and a light weight waist.

Domestic Science (48 hours). This includes a study of the following subjects related to cooking and household management: the care and cleanliness of dishes, kitchen utensils, sink and ice chest; the value of sunshine and fresh air throughout the house; yeast and bread making; buying and cooking of meats. The chemistry of cooking is illustrated by practical experiments, and charts are used to show the comparative nutritive values of foods. Emphasis is placed upon the wholesome and economical use of “leftovers.”

Household Arts. Marketing; preservation, preparation and attractive serving of wholesome food; and other practical topics.

Sanitation. Theory of disease; household bacteriology; simple household remedies. The course also includes household accounts, buying household linen, systematizing of labor.
JUNIOR NORMAL YEAR.  Art. Review of all the work of previous years; advanced methods in art; schoolroom decoration and creative design; historic ornament.

JUNIOR AND SENIOR NORMAL YEARS. The members of the Normal course spend a portion of their time in Furber Cottage, where practical instruction in cooking and housekeeping is given. It is intended that this, with the work in cooking, household arts and sanitation, shall include a complete course in the profession of home-making.

PRINTING. Opportunity is given in a well-appointed printing office to learn typesetting, newspaper, book and job work. For a more complete description of this office see page 28.

LAUNDERING. This is part of the assigned work (p. 23) and affords opportunity for instruction in washing and ironing under the supervision of the laundry superintendent.

X. MECHANIC ARTS

The Mechanic Arts Course is designed primarily to fit our graduates for teaching along industrial lines.

PREPARATORY SUBJECTS

MECHANIC ARTS A^4 and B^4 Junior Prep. and Senior Prep. Wood turning—advanced work in spindle and face-plate turning, including design of projects; carpentry—construction of a model frame house or full size work of a similar nature; elementary iron-working—simple operations in blacksmithing, including welding and tool making, machine shop practice in chipping, filing, polishing, drilling, tap and die work, simple turning; drawing—elements of orthographic projection, including developments and intersections of surfaces, machine drawing, architectural drawing.

COLLEGE SUBJECTS

(Given when desired.)

MECHANIC ARTS I. 5 Freshman. Description of engineering mechanisms and operations.

MECHANIC ARTS II. 4 Sophomore. Descriptive geometry.

MECHANIC ARTS III. 4 Junior. Furniture design and construction; shop management, including running of boiler and engine, care and operation of woodworking machinery; forge and machine shop practice.

MECHANIC ARTS IV. 4 Senior. Carpentry and building construction; strength of materials; architectural drawing.

MANUAL TRAINING II. 4 Senior. Materials and methods of manual training. Practice teaching.
GENERAL INFORMATION

LOCATION

The University grounds are at the head of West Mitchell street, about one mile from the center of the city of Atlanta, Ga., and a little more than one-half mile from the new terminal station. Electric cars marked "WEST HUNTER, ASHBY ST.," leave the corner of Marietta and Broad streets, run near the terminal station, and directly past our gate.

MEMBERSHIP

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The Institution has a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained. Applicants are required to present a physician's certificate certifying to good health, and the time of the last effective vaccination if needed. Regular physical exercise is encouraged and may be required in groups or classes when considered expedient.

Application for admission should be made at least a month before the beginning of the school year, and should state, fully, previous education and present plans.

Students should enter the first day of the school year, that they may be immediately classified, and thus lose no time in beginning work.

During vacation, as well as during term time, students are held amenable to the authority of the school.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

GOVERNMENT

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment, which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a fixed purpose to improve his time, and an earnest desire to fit himself for usefulness, he is removed without specific charges. Suspension and expulsion from the Institution are resorted to in cases whose seriousness calls for such punishment.

When students are exposing themselves and others to permanent harm, it is expected that high-minded persons will be governed by the dictates of conscience and common sense, rather than by any false sense of honor in regard to disclosing the facts to the proper authorities.

</table>

Fractions of a month are charged at a somewhat higher rate. All payments are due in advance. Deduction of 10% on tuition if paid in advance by the third of the calendar month, provided all other bills of the student have been settled.

The following laboratory charges are made: Elementary Physics, $1.00 a year; Elementary Chemistry, $1.00 a term, $2.00 a year; College Chemistry, $2.00 a term, $4.00 a year; College Physics, $2.00 a year.

Students taking instruction in music, vocal or instrumental, are required to make a deposit of $1.50 at the beginning of each term to pay for needed music. Any unused balance will be returned. Notice of intention to discontinue special lessons should be given in writing at least two weeks in advance.

Students given the favor of a special examination, apart from the time regularly assigned to entrance or class examinations, pay a moderate fee for the privilege.

All boarding students are required to work for the Institution at least one hour a day. This requirement helps make the above low charges possible.

Remittances in payment of bills should be made by money orders, drafts, in registered letters, or by express.

Make money orders or drafts payable to Atlanta University. Receipts will be promptly returned.

STUDENT AID

Some students have been aided in past years by contributions from the friends of popular education. It is expected that this help will be continued, and the income of the scholarship funds is also now available.

Persons should not come expecting to receive aid until they have applied for it and received a favorable answer. Those applying should state their pecuniary circumstances, their advancement in their studies, and as far as possible, what pursuit they intend to follow. In no case is aid granted for a longer time than the current year, without renewed application. Those who are aided are assigned to some extra work. Upon the faithfulness with which this work is done depends the continuance of aid. It is expected that those who receive help will, when able, return the amount to aid others.
THE LIBRARY

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains about 16,000 volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, since increased to six thousand, which insures its steady growth. It has been completely catalogued according to the Dewey system.

In January, 1906, the books of the library were moved from Stone Hall into the new building, erected by the munificence of Mr. Andrew Carnegie. For a description, see Buildings.

Aside from the reading room in the library building, there are also reading rooms in each of the two principal dormitories, thus giving to those in the boarding department convenient access to many of the leading papers and periodicals of the country.

THE MARBLEHEAD LIBRARIES

In 1910 a traveling library system was inaugurated at Atlanta University. This was made possible by the generosity of the late James J. H. Gregory of Marblehead, Mass., who carefully selected and gave for this purpose over 2,000 books. They have been arranged in collections of forty to fifty volumes, and are sent for terms of six months to schools or responsible individuals, so that they may be used to the greatest advantage in the localities receiving them. Fifty libraries are now in circulation.

THE ATLANTA CONFERENCE

Atlanta University recognizes that it is its duty as a seat of learning to throw as much light as possible upon the intricate social problems affecting the American Negro, both for the enlightenment of its own graduates and for the information of the general public. It has, therefore, during the last twenty-two years sought to unite its graduates, the graduates of similar institutions, and educated persons in general throughout the country in an effort to study carefully and thoroughly certain aspects of the Negro problems.

CATALOGUE NUMBER

BUILDINGS

The buildings are situated on high ground, in the western part of the city, and surrounded by sixty acres of land belonging to the Institution.

DORMITORIES

There are two principal dormitories, the one used by the girls having been erected in 1869, and a wing added in 1880. This building contains the school kitchen and dining room. The dormitory used by the boys was built in 1870, with a wing added in 1871. Each of these buildings contains a parlor, reading room and gymnasium. They also have a complete system of sanitary plumbing, with bathtubs supplied with hot and cold water.

STONE HALL

This building, erected in 1882, stands between the two dormitories and is a gift of the late Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel, the large schoolroom, recitation and lecture rooms, the physical and chemical laboratories, offices, etc. This building, the two dormitories, the practice school, the library and domestic science building are heated by steam from one plant.

KNOWLES INDUSTRIAL BUILDING

This building, erected in 1884, is for the use of the mechanic arts department. It is a memorial of the late Mr. L. J. Knowles, of Worcester, Mass., whose widow appropriated from his estate $6,000 for its erection, this amount being increased by gifts of a few other friends.

Power for the machinery in the building is furnished by a steam boiler and a fifteen horse-power engine, and the rooms are equipped with pipes so as to use either steam from the boiler or the exhaust steam from the engine for heating purposes.

On the first floor of the building are various wood-working machines, including nineteen wood-turning lathes, a lumber room, and benches and tools for repairing and construction work. On the second floor are a bench room, containing twenty benches, each furnished with a set of tools; and two drawing rooms, containing the necessary drawing stands, instruments, models, etc., for free-hand and mechanical drawing. In the basement are a forge room, having twelve forges and anvils and the tools required for ordinary blacksmith work and small machine forging, and a machine room, containing an engine lathe, drilling machine, wet and dry emery grinders, and a cabinet of machinists’ tools.

THE FURBER COTTAGE

This building, also known under the more formal name of “The King’s Daughters’ Model Home and Maria B. Furber Cottage,” was erected in 1899 from contributions which had been slowly gathered during a
number of years, chiefly from circles of King's Daughters in many parts of the country and from personal friends of the late Mrs. Maria B. Furb-ber, wife of the late Rev. Dr. Daniel L. Furbber, of Newton Center, Mass., who himself made generous additions to the building fund previous to his death. It contains dormitory rooms for at least eighteen occupants, who carry on all the work of the home without servants, and is equipped with facilities for teaching the domestic arts in the most thoroughly scientific as well as practical manner.

THE OGLETHORPE SCHOOL

This building, erected in 1904, is the gift of the General Education Board of New York and its Treasurer, Mr. George Foster Peabody, each contributing the sum of $5,000, and of a large number of other friends who contributed a third sum of $5,000. The building contains ten rooms besides a large basement, and is used for practice teaching in connection with the Normal Department, special attention being given to the training of Kindergarten teachers as well as teachers for the public schools.

CARNEGIE LIBRARY BUILDING

This building, erected in 1905, is the gift of Mr. Andrew Carnegie, who contributed $25,000 for its erection and furnishing. It contains a fire-proof stack-room, large reading and reference rooms, a lecture room, picture room, rooms for unpacking the travelling libraries, etc., and is equipped with the most modern furnishings and apparatus for effective library administration.

NEEDS

The great need of Atlanta University is an adequate endowment. At present the invested funds amount to $125,000. The Institution should have, to maintain the work as now organized, at least $800,000. This would relieve the Institution of the harassing task of raising money for current expenses by incessant personal solicitation. Appealing to its record of forty-eight years completed, Atlanta University asks for sufficient endowment to maintain the work at a high grade of usefulness and to meet the opening opportunities of the future.

Until such endowment is secured the Institution is wholly dependent upon annual donations from the benevolent public. For many years the Trustees of the John F. Slater Fund have helped the work, their present appropriation amounting to $2,000. The General Education Board has appropriated this present year $5,000. In addition to the payments of the students, $37,000 is needed annually.
MISCELLANEOUS SUGGESTIONS

Each pupil should bring a Bible. It is needed for private reading, for Sunday school, and for use in classes.

Students are required to be furnished with all prescribed text books at the time when the use of them begins.

All should be provided with warm clothing.

Young women should provide themselves with rubbers, umbrella and coat for stormy weather.

The use of silks, velvets, or other expensive or showy materials or trimmings is considered inappropriate. Dresses of cotton and woolen materials are most suitable. Only simple dresses for the close of school are permissible. Parents are asked not to send clothing, unless the request for it is endorsed by the preceptress.

Experience has taught us that much evil comes from pupils receiving food or large quantities of fruit or candy, from home or friends. They are, therefore, not allowed to receive it. Friends will please not send it.

Letters should be directed in care of Atlanta University, Atlanta, Ga.

Students who do not board at their homes are not allowed to board out of the Institution, unless by special permission.

The Institution encourages the customary student organizations: athletic, literary, debating, musical and religious. Membership in unauthorized student organizations is prohibited.

Boarders are expected to furnish their own towels and napkins, and it is suggested that each one bring a blanket or comfortable and a knife, fork and spoon.

Keeping or using firearms on the premises is forbidden.

Especial attention is called to the rule prohibiting the use of all intoxicating drinks, and tobacco in every form.

The proper observance of Sunday is most important for the moral and religious welfare of the students. This Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Boarding pupils are therefore required to attend stated religious services. Students should arrange so as not to travel on Sunday, and friends are earnestly requested not to call upon them on that day.

It is desired to make the school, as far as possible, a home for those who attend. Not only their intellectual, but also their physical, social, moral and religious culture receives careful attention.
The majority of our graduates, and many others who have left before finishing their course, are engaged in teaching during a part or all of the year. Besides these, during the four months of the summer vacation, some of the students engage in teaching, so that a large number of children in Georgia and other states are taught annually by those who have been connected with the Institution.

THE GRADUATES

A summary of the graduates and their work is given on page 40 of this catalogue, followed by a list of their names by classes with the address and occupation of each.

The majority of all the living graduates are teachers, some of them holding positions of great responsibility. In this profession as well as in other professions and in business they have been almost universally successful and have contributed largely to the welfare of the colored people.

Almost every one is a Christian and actively engaged in the work of the church, the community and the home, exerting a strong influence for good. In a large measure the graduates of Atlanta University are moulders of public sentiment, and are helping in a quiet way to solve some of the perplexing problems confronting their people. Although they are reformers in the best sense of the word, they are an eminently conservative social element.

We shall gladly send on request a more detailed record of the work of the graduates.

PRINTING OFFICE

This catalogue was printed in the Atlanta University Printing Office, where we also print and bind the annual Conference report; the other issues of the BULLETIN; a monthly for the students, The Scroll; and a quarterly for the Alumni, The Crimson and Gray. Job work is also done.

The office is equipped with one Colt's Armory press 14x22, one Colt's press 10x15, a 33-inch Seybold power paper cutter, a Morrison power stitching machine, Chandler & Price proof press 10x31, 80 fonts of job type, 1,500 pounds of body type, one Kaufman stone 40x80, one Polhemus and three Tracy steel-run cabinets, and electric power to operate the machinery.
