OFFICERS AND INSTRUCTORS

REV. EDWARD T. WARE, A. B.,
President Emeritus

REV. MYRON W. ADAMS, Ph.D., D.D.,
President

JOHN P. WHITTAKER, A. B., B. S.,
Dean: Professor of Chemistry

EDGAR H. WEBSTER, A. M.,
Professor of Physical Science

GEORGE A. TOWNS, A. M.,
Professor of Education

GEORGE K. HOWE, B. S.,
Professor of Mathematics

REV. JAMES A. DAVIDSON, A. B., B. D.,
Associate Professor of Social Science

ERNEST M. WOLLANK, A. M.,
Professor of Latin and Modern Languages

REV. HERSEY H. STRONG, A. M., B. D.,
Professor of Sociology and History

REV. G. FLOYD ZIMMERMANN, A. M., S. T. B.,
Treasurer: Professor of Economics

FREDERICK J. WERKING,
Instructor in Manual Training and Superintendent of Shop

MISS MABEL D. HANCOCK, Ph. B.,
Instructor in Biology and Chemistry

MISS CLARA E. EMERSON, A. B.,
Instructor in English and Ancient Languages

MISS BELLE C. MORRILL, A. B., B. D.,
Instructor in English

ALEXANDER S. HUTH,
Superintendent of Buildings and Grounds

CHARLES L. LOTT,
Superintendent of Printing Office

LAURENCE R. HARPER, A. B.,
Teacher of Science

MRS. EVA L. WILLIAMS,
Critic Teacher and Principal of the Oglethorpe School

MRS. ALDEN A. HOWE,
Matron in Furber Cottage and Teacher of Domestic Science

MRS. KATHRINE DAVIES DAVIDSON,
Supervisor of Kindergarten Work in the Oglethorpe School

Assistants in the Oglethorpe School
Sketch of Atlanta University

1865 Beginning of work: Jenkins Street Church, and Car-Box.
1866 Storrs School, and Asylum.
1867 Incorporation of "The Trustees of the Atlanta University."
1869 Formal Opening: Asylum in April, North Hall in October.
1869-1885 Presidency of Edmund Asa Ware.
1888-1907 Presidency of Horace Bumstead.
1907-1922 Presidency of Edward Twichell Ware.
1923— Presidency of Myron W. Adams.

Atlanta University is one of the outgrowths of that earnest educational crusade which brought so many devoted teachers to the South in the sixties and seventies. While its formal work under its present name did not begin until 1869, it was chartered two years before that date, and its real work began as early as November of 1865. Its first normal class graduated in 1873, and its first college class in 1876.

Of the seven large brick buildings, one is for administration and general school purposes. Two are dormitories. One is a domestic science building for the training of young women in practical domestic arts. An industrial building for boys serves a similar purpose in the work of manual training. There is a separate library building with over fifteen thousand volumes and a small endowment for its upkeep and improvement. And there is a practice school, at which our normal students have the opportunity to observe the teaching of the assistants employed there and themselves to practice the art. A well furnished printing office, and well equipped physical and chemical laboratories, help still further in the work of instruction. A fuller description is found on page 24 of this catalogue.

The college course includes four years and the normal course two years, each based upon a high school course of four years. There have been graduated from the college course 322 (this number includes 3 theological graduates); and from the normal course of study 820. The total is 1139, since three are duplicates. Of the normal graduates 39 have had special diplomas for training in kindergarten work.

The boarding department can accommodate about 190 students. All prospective graduates are required to spend a portion of their time in this department before receiving their diplomas.

The girls of the normal course are assigned to the domestic science cottage in groups of seventeen, where they do all the work of the home under the supervision of the matron. It
is intended that there shall be a genuine home atmosphere in the life of
the institution. While not denominational, the institution is a distinct
outgrowth of the Christian spirit, and both by its wish and its charter is
pledged to maintain that spirit. Boarding students attend church ser­
vices and Sunday School on the campus. The students' organizations,
the Y. M. C. A. and Y. W. C. A., are important factors in promoting an
interest in the religious life.

The normal graduates of this institution are given professional
normal certificates by the Georgia State Board of Education. College
graduates who have done major work in Education are given
similar professional college certificates. Our recommen­
dations are favorably received in other states also. By the
American Medical Association we are rated in Group I among
the Negro colleges, because of our pre-medical work in the department
of science.

During the summer and fall of 1918 Atlanta University gave
instruction in mechanic arts to about 250 soldiers, in two detachments.
Of this number 215 received certificates for their work. A
war college section of the Students' Army Training Corps was also
organized and 53 students enrolled. We were represented in
the war by 17 graduates and 116 former students, of whom 27
were commissioned officers, and 3 lost their lives in the service of their
country.

In round numbers our permanent funds amount to $243,000.
Our great need is an endowment of at least $850,000. The total annual
cost of the work is about $70,000. Of this amount the students
financial pay approximately $25,000 and the invested funds and a few
miscellaneous revenues yield an income of about $13,000. For
the remaining $32,000 the University is dependent upon the annual gifts of
friends. The institution is at present free from indebtedness, and it is
hoped that generous gifts will enable us to remain so, and hence at liberty
to devote all our resources to our educational work.

Our first summer session was held in 1924. The second will
be somewhat longer, in 1925, being one half of a semester.
Night Work Extension class work at night, begun in January of 1924,
is being continued.

Remember Atlanta University in your Will.
The corporate name is, The Trustees of the Atlanta University.
TERMS OF ADMISSION

In addition to presenting proper credentials with reference to their character, candidates for the freshman and the junior normal classes are required to give satisfactory evidence of the completion of four years of high school work. This is ordinarily stated as meaning at least 15 units, a "unit" representing a year's study, thirty-six or more weeks, in any subject in a secondary school, constituting approximately a quarter of a full year's work. In the case of college students at least 3 of these units must be in the department of English, \( \frac{2}{3} \) in mathematics, 2 each in foreign language and social science (including history), and 1 in natural science. In the case of normal students at least 3 must be in English, 2 each in mathematics and social science and natural science, and 1 in foreign language.

In order to make as few errors as possible in the assignment of students to the freshman and junior normal classes, we have, for the past two years, arranged a number of days of preliminary adjustment, prior to the opening of the school year in September. This arrangement is to be continued in the form of "Freshman Week," September 15 to 19, 1925. An approved psychological test will be given to all candidates for the above classes September 17, and other examinations, general or special, will be given as may be needed. Lectures on methods of study, the use of the library, and the purposes and customs of the institution, will also be given. All candidates should note carefully the conditions of entrance as applied to their individual cases, and govern themselves accordingly.

Candidates for advanced standing should present satisfactory recommendations, and official detailed statements as to previous work.

REQUIREMENTS FOR GRADUATION

I. Quantity. 128 semester hours, the class periods being 55 full minutes in length and the full year 36 weeks. No semester hour is accepted with a grade of less than 60 per cent.

II. Quality of Work. 288 "grade points," 7 points being given to a grade of 95, 1 to a grade of 65, and none to a grade below that figure.

III. Distribution of Work. A reasonable distribution of work over several departments of study is expected of all students. The smallest number of semester hours acceptable is as follows: Social science (and economics) 20; English, foreign language, science and mathematics together, 14 each; education and philosophy, 6 each. A student is also expected to show power of concentration by completing majors in at least two departments of work, a major ordinarily including at least 20 semester hours. A limited deviation from the usual requirements as to distribution of work can be permitted by the faculty in exceptional cases.

The requirements for normal graduation, while varying from the above in detail, are the same in principle.
Subjects of Study in the College

The especial attention of all college students is called to the "Requirements for Graduation" as stated on page 8. Outside of these requirements they are given a reasonable freedom in their choice of courses. Sixteen semester hours constitute the usual program of a student. While not invariable, his selection will ordinarily, in 1925-26, be made out of the following lists.

**Freshman**
- Psychology
- Chemistry I
- Physics
- Freshman English
- German I
- Latin or Greek
- U. S. History and Civics
- College Algebra; Trigonometry
- Solid Geometry

**Sophomore**
- Secondary Education; History of Education
- Chemistry II
- Sophomore English
- German II
- French I
- European History
- Analytical Geometry; Introduction to Calculus
- Descriptive Geometry
- Business Administration

**Junior Year**
- High School Methods
- Chemistry III & IV
- Biology
- Argumentation
- French II
- Sociology; Ethics
- Money and Banking
- Calculus

**Senior Year**
- School Administration
- Educational Measurements
- Observation; Practice Teaching
- Physics
- Astronomy; Geology
- The English Essay; The Short Story
- The Family; Social Work
- Economics
- Projective Geometry; Theory of Equations
- Investments; Insurance; Public Finance
- History of Philosophy; Bible

**The Normal School**

### Required of All
- U. S. History and Civil Gov't 8
- Advanced Arithmetic 5
- English Grammar 4
- Bible 5
- Educational Psychology 4
- General Methods 4
- Household Arts, and Drawing 4
- Geography, and Physiography 8
- Illustrative Handwork and Games 4
- Observation 2
- Rhetoric 4
- School Management 3
- History of Education 3
- Practice Teaching 4
- Child Psychology 2
- Children’s Literature 2
- Home and School Sanitation 2
- Religious Education 2
- Music and Expression 1
- Social Work 1

### General Course
- Kindergarten-Primary Education 8
- Kindergarten Curric-ulum 4

### Normal Kindergarten Course
- Constructive Materials 6
- Elementary Science 2
- Child Welfare 2

---

---
Our courses of instruction are determined in the main by three considerations: (1) the expectation as expressed in our charter that this shall be "an institution for the liberal and Christian education of youth"; (2) our historical development, and the tremendous needs in that direction, have led us to place great emphasis upon the professional training of teachers; (3) it is also an important part of the work of institutions of this nature to equip students for further professional study in the leading institutions which prepare for the essential professions.

NOTE. In this list of courses, those numbered from 111 to 199 are ordinarily taken by freshman and sophomore, or junior normal students. Those numbered from 211 to 299 are ordinarily taken by junior and senior college, or senior normal students. Normal (N), special kindergarten training (K), and extension (E) courses are duly designated. The courses mentioned have all been given either this year or during 1923-24. The figures in parentheses following the title of the course indicate the number of semester hours actually given in that course during the year 1924-25.

I. EDUCATION

More of our graduates, by far, both college and normal, have engaged in teaching than in any other occupation. For that reason it has seemed wise, in our normal school from the beginning, and more recently in our college also, to give definite professional training in Education.

General:

112. HISTORY OF EDUCATION. (3). Text: Cubberley's History of Education. Special reports on American conditions.

211. EDUCATIONAL TESTS AND MEASUREMENTS. (2). Text: McCall's How to Measure in Education. Practice in use of tests required.

Elementary:

212. METHODS OF ELEMENTARY TEACHING. (4). Text: Rapeer's How to Teach the Elementary School Subjects. Observation required.

Secondary:

113. PRINCIPLES OF SECONDARY EDUCATION. (3). Text: Inglis' Principles of Secondary Education.

Administration and Supervision:

Observation and Practice:

215. In connection with the above courses two semester hours, and occasionally more, are given to supervised observation and practice teaching.

General:

N211. PSYCHOLOGY. (4). General and genetic, with applications to Education. Text: Colvin and Bagley's Human Behavior.

N213. SCHOOL AND CLASS MANAGEMENT. (3). Text: Strayer and Engalhardt's The Classroom Teacher.

N214. HISTORY OF EDUCATION. (3). Text: Graves' Student's History of Education.

N215. GENERAL METHODS. (4). Discussion of all subjects of study taught in the Oglethorpe School, and their mutual relations. General critic work. Texts: Strayer's Brief Course in Teaching, and others.

K211. KINDERGARTEN-PRIMARY EDUCATION. (4). Study of kindergarten principles and problems. Theories of Froebel and Pestalozzi related to modern pedagogy and psychology.

K212. THE KINDERGARTEN CURRICULUM. (2). A study of the methods of the kindergarten in relation to development of subject matter. Special emphasis on the use of problems and projects.

Special Methods:

N216. MUSIC. (1). Taken with especial reference to teaching.

N114. ILLUSTRATIVE HANDWORK. (2). Double periods. Designed to increase the efficiency of teachers in their work with children.

N115. GAMES. (2). Double periods. For schoolroom and playground.

K111. CONSTRUCTIVE MATERIALS. (6). Special study of kindergarten materials and their function in the mental and moral development of the child.

K112. ELEMENTARY SCIENCE. (2). Nature study, including principles of growth and development.
K113. CHILD WELFARE. (1). Child hygiene; standards for normal
growth and development; significance of home life; moral and social
responsibility of community and school.

Observation and Practice:

N116. OBSERVATION. (2). The junior normal students attend the
classes of the Oglethorpe Training School two periods each week
throughout the year, to observe and criticise the work of the differ­
ent grades and the kindergarten classes. This course is K116 for
students taking the special work in kindergarten training.

N217. TEACHING. (4). Practice teaching in the Training School, di­
vided among the different grades and the kindergarten classes, and also
among the different subjects of study. Plans are made in advance,
and there are frequent conferences with the critic teacher. The Bea­
con system of reading is used in the primary grades. This course is
K217 for students taking the special work in kindergarten training.

THE OGLETHORPE SCHOOL. In this school, described under BUILDINGS,
is given an opportunity to engage in the actual work of teaching and
to observe such work under thoroughly competent supervisors. This
organization includes eight grades and a kindergarten.

GAME FESTIVAL. As an outcome of the study of games, a play festival,
including folk games and dances, and stories interpreted by song,
color and rhythm, in which Junior Normal girls, kindergarten, and
first and second grades of the Oglethorpe School participate, is held
during the Commencement week.

II. PHYSICAL AND NATURAL SCIENCES

121. CHEMISTRY I. (12). General inorganic chemistry. Two labora­
tory triple periods, and three class room exercises devoted to
lectures, demonstrations and recitations. (a) and (b) for students
not presenting chemistry for admission; and more advanced work,
(b) and (c), for students given entrance credit in the subject. Text:
Smith's College Chemistry.

122. CHEMISTRY II. (6). Qualitative analysis. Two labora­
tory triple periods, and two class room exercises, dealing with the basic
and acid radicals, with group separatives and study of unknowns.
Text: Steiglitz, Qualitative Analysis, I & II.

221. CHEMISTRY III. (4). Quantitative analysis. Laboratory work
in gravimetric and volumetric analysis. Lectures and conferences.

222. CHEMISTRY IV. (8). Organic chemistry. Lectures upon the
carbon compounds; laboratory course on organic preparations. Text:
Hollemon's Organic Chemistry.
223. BIOLOGY. (8). A laboratory course in plant and animal biology, involving a study of plant and animal types, with the use of the compound microscope and the dissecting instruments. Texts: Calkins' Biology; Woodruff's Biology.

224. PHYSICS. (8). First semester, mechanics and heat; second semester, electricity, sound and light. Two laboratory triple periods weekly, and two class room exercises devoted to lectures, demonstrations and recitations. Text: Webster's College Physics.

N221. GEOGRAPHY. (4). Text: Huntington and Cushing's Human Geography. Library references and other allied work required.

III. ENGLISH

132. SOPHOMORE. (6). English Composition. Also a study of selected poets and prose writers. Texts: Pace's English Literature; Baugh, Kitchen and Black's Writing by Types.

233. THE SHORT STORY. (2). Text: Pence's Short Stories by Present Day Authors.

234. MASTERPIECES OF FOREIGN LITERATURE. (2). A summer course, using approved translations from the best Hebrew, Greek, Latin, Italian, Spanish, French, German and Russian authors.

235. THE NOVEL. (2). Various texts; required readings.

N113. GRAMMAR. (4). See under EDUCATION.

N231. RHETORIC. (4). The same as 131 above.

PUBLIC RHETORICALS. Rhetorical exercises, to which the public is especially invited, are held seven times a year, being made up of essays, recitations and music. For the dates, see CALENDAR.
IV. FOREIGN LANGUAGES

241. FRENCH II. (8). Prose composition; daily conversation; selections from Daudet, Dumas, Jules Verne, and others.

142. GERMAN I. (8). Bagster and Collins' First Book in German, with practice in speaking, and reading Andersen's Fairy Tales and other stories.

143. GERMAN II. (6). Prose composition; selections from Schiller, Arnold, Freytag and Spielhazen.

144. GREEK. (6). Selections from the leading historical, philosophical and poetic writers.

145. LATIN. (6). Selections from Livy, Cicero, Horace, Tacitus and others.

V. SOCIOLOGY AND HISTORY

152. EUROPEAN HISTORY. (8). General History to the middle of the 18th century, and European History since that date. Texts: Thorndike and Lynn's History of Modern Europe; Schevill's Political History of Modern Europe.

252. SOCIAL WORK. (2). An introductory study to the problems of social work, conducted by Miss Helen B. Pendleton of the Atlanta School of Social Work.

E151. CONTEMPORARY CIVILIZATION. An extension course in various phases of this subject, for special night students, in 1924.

N151. U. S. HISTORY AND CIVICS. (8). Similar to college course 151.

N253. SOCIAL WORK. (1). Lectures on this topic by Miss Helen B. Pendleton, of the Atlanta School of Social Work.

VI. ECONOMICS AND FINANCE

Other courses will be added in 1925-26.

VII. MATHEMATICS

173. Introduction to the Calculus. The fundamental ideas of the calculus, including as much analytic geometry as is necessary. Text: Longley and Wilson.
271. Calculus. Careful study of both differential and integral.

N112. Arithmetic. (4). See under Education.

VIII. PHILOSOPHY AND PSYCHOLOGY

111. Psychology. (6). See under Education.
211. Educational Tests and Measurements. (2). See under Education.

N111. Psychology. (4). See under Education.
N212. Child Psychology. (2). See under Education.
IX. RELIGIOUS EDUCATION

N281. RELIGIOUS EDUCATION. (2). Text: Stout's Organization and Administration of Religious Education.

X. UNCLASSIFIED

N186. HOUSEHOLD MANAGEMENT. (2). The home in its history; the house, its arrangement and management; household accounts.

N286. SANITATION. (2). Study of the human mechanism, of disease, of bacteriology, of personal and public hygiene.

N187. ART AND DESIGN. (2). Schoolroom decoration and creative design; historic ornament; methods in teaching drawing.

EXTENSION WORK. During the present year night courses are given in Trigonometry (171), in The Bible in the Making (282), and in advanced high school mathematics.

FRESHMAN THEMES. These are a part of Course 131, being intended to call the especial attention of students in that class to the need of system in their choice of subjects of study. These themes are inspected not only by the instructor, but also by members of the faculty.

INTELLIGENCE TESTS. These have been given to members of the freshman and junior normal classes for two years. In the fall of 1925 such tests will be given, as a part of Freshman Week.
HONORS AND PRIZES

Graduate Honors:

NORMAL CLASS OF 1924. With Honor—Marian Amelia Allen, Catherine Louise Brown, Ella Mae Coles, Sarah Francis Kellogg, Anna Belle Robinson.

Under-Graduate Honors:

From the beginning of their course up to February, 1925. The (*) indicates High, and the (**) Highest Honor.

Juniors: Grace McKinley Holmes.

Freshmen: Mildred Adrienne Cooper, Leonia Granberry Lanier, John Earl Oakes*.

Senior Normals: Lucile Beryl Houston, Thelma Tomzie Mendenhall, Nellie Myrtle Timbers.

The Herndon Prizes for Excellence in Public Speaking were awarded in 1924, in the order named, for boys to William Hammond, John B. Hill, S. Arlington Jones; and for girls to Juanita L. A. Hollis.

The Freshman Entrance Prize was awarded in 1924 to Mercedes Douglas, whose preparation was at Haines Institute, Augusta, Ga.

The King Dramatic Prize was awarded in 1924 to Joseph Alphonso Pierce and Olivia Melinea Hampton.
THE HIGH SCHOOL

This course occupies 36 weeks each year for four years, and is arranged with a view to furnishing thorough preparation for either college or normal work.

Note 1.—The figures denote the number of recitations, or their equivalent, a week. All studies continue throughout the year, unless otherwise indicated.

Note 2.—The courses marked with an asterisk (*) are required of all students. Enough of the others should be taken to make 18 periods (or equivalent) each week. Students preparing for the college should so arrange their studies as to satisfy the college entrance requirements stated on page 8.

Note 3.—The First Year will in 1925-26 become a part of the Practice School.

FIRST YEAR:

*General History-5. The first semester, to 800 A.D.; and the second semester, to 1920 A.D. Text: West's World Progress.

Drawing-2 (=1). Nature work, decorative design and construction work.

*Manual Training-6 (=3). Required of boys. Mechanical drawing—lettering, free-hand and mechanical drawings of simple objects; benchwork; projects involving the use of the common wood-working tools; wood finishing; care of tools.

*Sewing-4 (=2). Required of girls. Instruction in basting, running, back-stitching, overcasting, overhanding, hemming, French seam, flat fell, patching, gathering and binding, making of ruffles, tucking, button holes, and the sewing on of buttons.

SECOND YEAR:

*Drawing-2 (=1). Instruction includes object drawing, color work, light and shade, pose drawing and applied design.
*Manual Training-6 (=3). Required of boys. Mechanical drawing—working drawings; benchwork—projects involving furniture repairing and refinishing; wood-turning—projects in spindle turning and face-plate work; furniture making—construction of a piece of cabinet work involving the use of wood-working machinery; care of tools.

*Sewing-4 (=2). Required of girls. This course provides instruction in plain machine work. Practical mending is taken up. Cutting and fitting of simple under-garments from commercial patterns is taught. Each girl is required to make a suitable apron for use in cooking.

Cooking. In the second and third and fourth years work is given to girls in Food and Dietetics. This is a study of food materials from a chemical and economic standpoint; of the food requirements of the body; of food preservation, marketing, preparation and serving of meals; with emphasis on the saving of food materials.

*Music-2. Includes history of music, and chorus practice.

THIRD YEAR:

*English C-3. Theory and practice in writing English. Further study of English prose types, as also of Tennyson and Shakespeare. Texts: Gayley, Young and Kurtz; and others.

*Biology-4. Physiology one-half year; and botany, and also elements of agriculture, one-half year. Emphasis on hygiene and civic welfare. Text: Moon’s Biology.

*Plane Geometry-5. Essential for college preparation the whole year (Text: Smith’s Essentials of Plane Geometry). Otherwise students can take this one semester and then:

Chemistry-5 (=4). Elementary, with one laboratory exercise of two periods each week. Text: Elementary Chemistry, by Brownlee, Fallen and others.

Advanced Wood Working-8(=4). Cabinet work, including design of projects; carpentry, construction of full size objects; wood turning; advanced work in spindle and face-plate turning, including design of projects.

Sewing-4 (=2). Instruction in cutting, fitting, and the making of a blouse and a cotton dress from commercial patterns. Each student is expected to buy her material.
FOURTH YEAR:

*Physics 6 (=5). Elementary, with one laboratory double period each week; experiments in physical measurements, mechanics of solids and fluids, heat, light, sound and electricity. Text: Milliken and Gale’s Practical Physics.

Greek-4. Elementary: Gate to the Anabasis; St. Chrysostom’s Defense of Eutropius.

Metal Working, electric wiring, and other valuable forms of industrial work for boys.

Sewing-4 (=2). Instruction in dressmaking processes, cutting and fitting. Each student is expected to buy material for an inexpensive woolen dress or a woolen skirt and a light weight waist.

Art-2 (=1). Nature work, decorative design and stenciling, object drawing, construction work, methods in teaching drawing.

VOCAL Music. This is required of all High School students in the first and second years. These receive such elementary instruction as is needed, and in the second year have history of music and practice in chorus singing. An advanced chorus meets twice a week throughout the year, being composed of most of the high school students beyond the second year. For terms of instruction to private pupils, see EXPENSES.

INSTRUMENTAL Music. Instruction in the piano is given at a reasonable charge, for which see EXPENSES. Ten pianos are in use by the institution. An effort is made to suit the instruction to the needs of the individual pupil. In general the Elementary Course includes foundation work in technique, with selected studies and sonatinas, and easy pieces by classical and modern composers; the Advanced Course continues the study of technique, including major and minor scales in various forms; arpeggios and chords, etudes and studies. Greater attention is given to such composers as Mendelssohn, Schumann, Schubert, Chopin, Grieg, Rubinstein, Mozart, Haydn, Beethoven. Private recitals are given at intervals and a public recital is given at the close of the year.

PRINTING. Opportunity is given in a well-appointed printing office to learn typesetting, newspaper, book and job work. For a more complete description of this office, see page 26.
GENERAL INFORMATION

LOCATION

The University grounds are at the head of West Mitchell street, about one mile from the center of the city of Atlanta, Ga., and a little more than one-half mile from the new terminal station. Electric cars marked "WEST HUNTER, ASHBY ST.," leave the corner of Marietta and Broad streets, run near the terminal station, and directly past our gate.

MEMBERSHIP

To prevent overcrowding it is necessary to limit the number of pupils. Application for admission should be made as early as possible and should state, fully, previous education and present plans.

Students should be on hand for examination and classification promptly in order that they may enter the first day of the school year, and thus lose no time in beginning work.

Good health being necessary for success in study, it is expected that none who are permanently weak or diseased will apply for admission. The Institution has a good reputation for healthfulness, and the interests of the people for whom it was founded demand that this reputation should be maintained. Applicants are required to present a physician's certificate certifying to good health, and the time of the last effective vaccination if needed. Regular physical exercise is encouraged and may be required in groups or classes when considered expedient.

During vacation, as well as during term time, students are held amenable to the authority of the school.

The Institution is not sectarian in its religious instruction or influence, while aiming to be thoroughly Christian. It is open to all students of either sex.

GOVERNMENT

Discipline is administered with firmness and impartiality, and aims to induce a high moral sentiment, which shall be in itself a powerful governing force in the school.

When it becomes plain that a pupil has not a fixed purpose to improve his time, and an earnest desire to fit himself for usefulness, he is removed without specific charges. Suspension and expulsion from the Institution are resorted to in cases whose seriousness calls for such punishment.

When students are exposing themselves and others to permanent harm, it is expected that high-minded persons will be governed by the dictates of conscience and common sense, rather than by any false sense of honor in regard to disclosing the facts to the proper authorities.

(See below for special charges, and reduction by student aid.)

Payment is due by the month, in advance. Pay day is the 21st of each month, beginning Sept. 21. Entrance at any date between Sept. 19 and 23 is regarded as of the 21st; for freshman and junior normal students, Sept. 16 to 23.

SPECIAL FEES AND CHARGES

For graduation, normal $2.00; college $5.00.

For special instruction in music, per lesson, 75 cents.

For use of piano for practice, per calendar month, 50 cents.

Shop fee for boys, $1.00 each year, for materials.

For materials for sewing classes: 1st year, $1.50; 2nd year, $2.00; 3rd year, $1.00; 4th year, $1.00. For cooking classes: 3rd year, $1.00; 4th year, $1.00. Special kindergarten students in the junior normal year pay a fee of $5.00 for materials.

Laboratory charges per year are: Elementary physics, $2.00; elementary chemistry, $2.00; college chemistry, $8.00; college physics, $4.00; biology, $6.00. Chemistry breakage deposit, $2.00 each semester.

Charge for each delinquent or special examination, ordinarily 50 cents; for freshman intelligence test, $3.00.

All boarding students are required to work for the Institution at least one hour a day. This requirement helps to make the above charges possible.

Make money orders or drafts payable to Atlanta University.

STUDENT AID

A reduction in tuition, not exceeding $4.00 a semester, is available to those day students whose scholarship warrants it and who are in need of this aid. This is applicable the last month of the semester.

In addition to this, student aid is available for boarders whose needs and worthiness justify it. In all such cases there should be previous application and reasonable information as to the need. Such aid is not promised for a longer time than the current year. Those who are aided are assigned to some extra work.

Students able to meet their own bills should not ask for a reduction. It is wrong to ask friends to do for us what we can do for ourselves.

CATALOGUE NUMBER

THE LIBRARY

By the liberality of the late R. R. Graves, Esq., of New York, and a few other friends, the library now contains about 16,000 volumes. Mr. Graves also gave a permanent endowment of five thousand dollars, since increased to six thousand, which insures its steady growth.

In January, 1906, the books of the library were moved from Stone Hall into the new building, erected by the munificence of Mr. Andrew Carnegie. For a description, see BUILDINGS.

Aside from the reading room in the library building, there are also reading rooms in each of the two principal dormitories, thus giving to those in the boarding department convenient access to many of the leading papers and periodicals of the country.

THE MARBLEHEAD LIBRARIES

In 1910 a traveling library system was inaugurated at Atlanta University. This was made possible by the generosity of the late James J. H. Gregory of Marblehead, Mass., who carefully selected and gave for this purpose over 2,000 books. They have been arranged in collections of forty to fifty volumes, and are sent for terms of six months to schools or responsible individuals, so that they may be used to the greatest advantage in the localities receiving them.

PUBLICATIONS

These include the annual catalogue, which is the April issue of the Atlanta University Bulletin. The Bulletin is issued four times a year, and the subscription price is twenty-five cents.

Occasional leaflets and pamphlets descriptive of our work and needs are also issued from time to time. The General Catalogue, published in 1918, gives a very complete statement up to that date concerning officers, teachers, graduates and advanced students. The cost of this is fifty cents. A recent illustrated booklet, Atlanta University at Work, will be sent free on application.

From 1896 to 1917 a series of twenty monographs upon important phases of the Negro problems was published by the Atlanta University Press. The titles and prices of the same will be sent on application.
BUILDINGS

The buildings are situated on high ground, in the western part of the city, and surrounded by fifty-five acres of land belonging to the Institution.

DORMITORIES

There are two principal dormitories, the one used by the girls having been erected in 1869, and a wing added in 1880. This building contains the school kitchen and dining room. The dormitory used by the boys was built in 1870, with a wing added in 1871. Each of these buildings contains a parlor, reading room and gymnasium. They also have a complete system of sanitary plumbing, with bathtubs supplied with hot and cold water.

STONE HALL

This building, erected in 1882, stands between the two dormitories and is a gift of the late Mrs. Valeria G. Stone, of Malden, Mass. It contains the chapel, the large schoolroom, recitation and lecture rooms, the physical and chemical laboratories, offices, etc. This building, the two dormitories, the practice school, the library and domestic science building are heated by steam from one plant.

KNOWLES INDUSTRIAL BUILDING

This building, erected in 1884, is for the use of the mechanic arts department. It is a memorial of the late Mr. L. J. Knowles, of Worcester, Mass., whose widow appropriated from his estate $6,000 for its erection, this amount being increased by gifts of a few other friends.

Power for the machinery in the building is furnished by a steam boiler and a fifteen horse-power engine, and the rooms are equipped with pipes so as to use either steam from the boiler or the exhaust steam from the engine for heating purposes.

On the first floor of the building are twenty wood-turning lathes, universal, rip and swing saws, mortiser, hand jointer, carpentry and cabinet-making shop, and finishing and stock rooms. On the second floor are a bench room, containing twenty benches, each furnished with a set of tools; and two drawing rooms, containing the necessary drawing stands, instruments, models, etc., for free-hand and mechanical drawing. In the basement are a forge room, having twelve forges and anvils and the tools required for ordinary blacksmith work and small machine forging; and a machine room, containing an engine lathe, drilling machine, wet and dry emery grinders, and a cabinet of machinists' tools.

THE FURBER COTTAGE

This building, also known under the more formal name of "The King's Daughters' Model Home and Maria B. Furber Cottage," was erected
in 1899 from contributions which had been slowly gathered during a number of years, chiefly from circles of King’s Daughters in many parts of the country and from personal friends of the late Mrs. Maria B. Furber, wife of the late Rev. Dr. Daniel L. Furber, of Newton Center, Mass., who himself made generous additions to the building fund previous to his death. It contains dormitory rooms for at least nineteen occupants, who carry on all the work of the home without servants, and is equipped with facilities for teaching the domestic arts in the most thoroughly scientific as well as practical manner.

THE OGLETHORPE SCHOOL

This building, erected in 1904, is the gift of the General Education Board of New York and its Treasurer, Mr. George Foster Peabody, each contributing the sum of $5,000, and of a large number of other friends who contributed a third sum of $5,000. The building contains ten rooms besides a large basement, and is used for practice teaching in connection with the Normal Department, special attention being given to the training of Kindergarten teachers as well as teachers for the public schools.

CARNEGIE LIBRARY BUILDING

This building, erected in 1905, is the gift of Mr. Andrew Carnegie, who contributed $25,000 for its erection and furnishing. It contains a fire-proof stack-room, large reading and reference rooms, a lecture room, picture room, rooms for unpacking the travelling libraries, etc., and is equipped with the most modern furnishings and apparatus for effective library administration.

NEEDS

The great need of Atlanta University is an adequate endowment. At present the invested funds amount to $243,000. The Institution should have, to maintain the work as now organized, at least $850,000. This would relieve the Institution of the harassing task of raising money for current expenses by incessant personal solicitation. Appealing to its record of over fifty years completed, Atlanta University asks for sufficient endowment to maintain the work at a high grade of usefulness and to meet the opening opportunities of the future.

Until such endowment is secured the Institution is wholly dependent upon annual donations from the benevolent public. For many years the Trustees of the John F. Slater Fund have helped the work, their present appropriation amounting to $1,000. The General Education Board has appropriated this present year $9,000. In addition to the payments of the students, $32,000 is needed annually.
Letters should be directed in care of Atlanta University, Atlanta, Ga. Students who do not board at their homes are not allowed to board out of the Institution, unless by special permission.

All students should have bibles; and should be furnished with all prescribed text books at the time when the use of them begins.

The Institution encourages the customary student organizations. Among them are the Y. M. C. A., the Y. W. C. A., the orchestra, two glee clubs, science and dramatic clubs, and the debating union.

Keeping or using firearms on the premises is forbidden.

Especial attention is called to the rule prohibiting the use of all intoxicating drinks, and tobacco in every form.

It is desired to make the school, as far as possible, a home for those who attend. Not only their intellectual, but also their physical, social, moral and religious culture receives careful attention.

The proper observance of Sunday is most important for the moral and religious welfare of the students. This Institution is the result of benevolent efforts, and that it be decidedly religious in its influence, without being sectarian, is the reasonable expectation of its friends. Boarding pupils are therefore required to attend stated religious services. Students should arrange so as not to travel on Sunday, and friends are earnestly requested not to call upon them on that day.

Dress Regulations for Young Women. An effort has been made, in establishing these regulations, to have them natural, and such as are appropriate for young women in an institution of this character. A printed copy of these rules will be sent upon application. They are also given upon the following page.

PRINTING OFFICE

This catalogue was printed in the Atlanta University Printing Office, where we also print and bind the other issues of the BULLETIN, and a quarterly for the Alumni, The Crimson and Gray. Job work is also done.

The office is equipped with one Colt's Armory press 14x22, one Colt's press 10x15, a 33-inch Seybold power paper cutter, a Morrison power stitching machine, Chandler & Price proof press 10x31, 80 fonts of job type, 1,500 pounds of body type, one Kaufman stone 40x80, one Polhemus and three Tracy steel-run cabinets, and electric power to operate the machinery.
Atlanta University Dress Regulations

These govern not only the boarding girls, but also day students when on the campus.

In order to promote the interests of true democracy, to discourage extravagance and cultivate habits of reasonable economy, the following regulations have been adopted:

I. Material. To select from: Cotton (not necessarily white) and navy blue wool middies; shirt waists, not too thin, or natural color pongee, with cotton or wool skirts; gingham, chambray or percale dresses; white or colored dresses of voile, flaxon or muslin; white cotton skirts of heavy material or white wool skirts; linen; serge dresses for cooler weather.

In addition to the above, a white or navy blue crepe de chine waist, or a natural color pongee dress, may be worn for church, street, or social wear.

A simple white dress is required of those who take part in public exercises. No sash of other material to be worn with same.

II. Trimming. This general rule is to be observed: It shall be inexpensive, simple, inconspicuous and in good taste. It may be of braid, or of same material as goods, or of other simple material of the prevailing mode, except beading.

Embroidery, braid, or similar trimming should be of small design, and if used in the form of banding not more than one inch in width.

III. Extremes in styles are forbidden. No georgette, net, chiffon, or similarly thin material can be worn; neither can silk, satin or velvet. Shoes with French heels cannot be worn. Hosiery should be plain.

IV. Jewelry. Only a wrist watch or simple pin or ring can be worn.

V. The interpretation of these regulations, and their alteration, if necessary, is in the hands of the preceptress in charge, with the members of the dress committee as advisers.

VI. Girls must bring to school work aprons, and rubbers, umbrella and coat for stormy weather.

We earnestly ask all parents not to seek admission for their daughters unless they are in sympathy with the spirit of these regulations.

Boarders are expected to furnish their own towels, napkins, clothes bags, sheets, pillow cases, bed spread, a blanket or a comfortable; and also a knife, fork, and spoon, since silver is not to be taken from the dining room if a student is unable to be present at meals.
THE SUMMER SESSION

The first summer session of Atlanta University continued from June 9 through July 17, 1924. It is planned to have the second session somewhat longer, from June 9 through July 31, 1925. By the use of two-thirds of each Saturday, except July 4, this session will be equivalent to one half of a semester.

The teachers at the session of 1924 were: Professor Zimmermann, who also served as director; President Adams; Professors Webster and Howe and Davidson; Mrs. Davidson, Mrs. Day and Miss Rucker. Courses taken in Education were 113, N212, N214; in English 132, 234; in German 142; in History 151[a], 151[b]; in Mathematics N112; in Religious Education N281. There were also classes in high school Latin and Mathematics and English. This program will be somewhat enlarged in 1925.

The students were as follows, those marked with an asterisk having completed the courses designated:

**COLLEGE STUDENTS**

Alice Urnestine Bell  
Mabel Beatrice Johnson

Eunice Evelyn Hamilton  
George Wallace Reeves*

Elizabeth Laurel Wynn

Also 20 names marked with an asterisk in the regular list of students.

**NORMAL STUDENTS**

Mrs. Sophia Maddox Avery  
Janie Lucile Goosby

Henrietta Serena Branham  
Lady Goosby

Polly Marion Brown*  
Eugenia Foss Haywood*

Maudeline Ilia Burch  
Flossie Belle King*

Carrie Lee Byars*  
Mrs. Carrie Badger Pittman

Mrs. Carrie Herndon Connally  
Ella Mae Tate

Mary Ruth Floyd*  
Buena Vista Wilkes

Also 18 names marked with an asterisk in the regular list of students.

**HIGH SCHOOL**

Evelyn Jones

Also 22 names marked with an asterisk in the regular list of students.

Total: College 25; Normal 32; High School 23.
THE GRADUATES

Over fifty years of experience have fully justified Atlanta University’s faith in the value of advanced training for promising young men and women of the Negro race. A large majority of its graduates and a host of the non-graduates are engaged in useful occupations among their people. Many are in positions of exceptional responsibility and influence.

The names of graduates added to the list since our last statement are as follows:

**COLLEGE CLASS OF 1924**
- Alonzo Bohannon
- Lois Lillian Devine
- Andrew Henry Dibble
- Sarah Virginia Flemister
- Virginia Chaney Graham
- Mildred Phillips Greenwood
- Earl Richard Gullins

**NORMAL CLASS OF 1924**
- Marian Amelia Allen
- Hortense Anderson
- Lottie Louise Bailey
- Catherine Louise Brown
- Emma Eloise Brown
- Katie Mae Brownlee
- Lois Maxwell Burge
- Ella Mae Coles
- Jewell Jackson Cooke
- Hazel Clarice Cooper
- Alma Louise Davis
- Johnnie Louise Ford
- Irma Elizabeth Gantt
- Amelia Harper
- Mary Ellen Johnson
- Eva Miller Jones
- Sarah Francis Kellogg

**NORMAL CLASS OF 1923 (additional)**
- Leola Emily Dobbs
